"THERE is no life save in proteins." Wise chemists gathered at Richmond, Virginia, say it and add, "environment and chemical agency are the dominant factors of life."

That may be true, and still you need not accept "the chemical concept of the origin and development of life."

If inhabitants of another world, where machinery is unknown, should study an automobile supplied with gas and electricity and running, they would say, "No life in this machine without gas. Iron, gas and electricity are all of that automobile."

They would overlook just one little thing, namely, the INTELLIGENCE that put the gas, electricity and steel together, mounted them on pneumatic tires and set them going.

So it is with life. Explain it as you please, but don't forget the INTELLIGENCE back of it.

We are proud of our national prosperity and high wages. Bootleggers are even prouder of their prosperity and high wages. This is shown by Norman Klein, an investigator. One rum-running syndicate could afford to invest $10,000,000 and to pay men on their rum-running crews $50 a night for a good deal less than eight hours' work. One man tells how he used to get only $30 to $37 a week, "but I was ambitious," says he, "so they put me on a runner, and I got $50 a night."

He worked on the "converted sub chaser SC-217." Uncle Sam thus supplying the rum-running boat at bargain prices. There is nothing like ambition.

The Review-Tribune Offers Booklet on Correct English

Speak and write better, with the help of this simple guide to the proper use of words in the English language.

World famous authorities have compiled for our Washington Information Bureau a concise booklet about words commonly misused, mispronounced, and misspelled.

Promotion in business, success in social and club life, often depends on proper use of words—good English as we call it. Many of us are careless about our language. Many of us had small opportunity to study language in school. We can correct our English by a little study, with the help of the Word Booklet.

SUSPECTS IN ANANIA DEATH ENTER PLEAS OF NOT GUILTY AT LISBON

Mrs. Marie Chorgas and East Liverpool Man Probably Will Face Trial Late Next Month.

14 OTHER PERSONS ARE ARRAIGNED

Lewis Hamilton, Leetonia, Given Prison Sentence of One to Ten Years for Grave Charge.

Pleas of not guilty to indictments charging second degree murder in the death of Pasquale (Patsy) Anania, 25, Wellsville, were entered by Salvatore Rini, 27, East Liverpool, and his sister-in-law, Mrs. Marie Chorgas, 28, Minneapolis, when they were arraigned before Judge W. F. Lones in common pleas court at Lisbon today.

Mrs. Chorgas Sobs.

Anania, with a knife wound in his heart, was found dead in Rini's apartment in Walnut street on March 22.

Rini appeared in court accompanied by his attorney, W. A. O'Grady, of Wellsville, while Mrs. Chorgas' counsel was Attorney S. W. Crawford, of East Liverpool. Rini was the first prisoner arraigned.

When Mrs. Chorgas took her seat after pleading not guilty she burst into tears and sobbed until she was taken to the county jail.

Trials of the two will probably take place during the latter part of May. Court will convene on Monday, May 2, when Judge H. M. Whitcraft of Logan arrives in Lisbon to assist Judge Lones for a period of four weeks.

Leetonia Man Pleads Guilty.

Lewis Hamilton, 57, Leetonia, indicted upon a charge of a serious nature following disclosures of his daughter, pleaded guilty and was sentenced to serve from one to ten years in the penitentiary. He declined the services of an attorney.

Not guilty pleas were also entered

MOTORIST DIES AS CAR SKIDS

MARION, O., April 19—Funeral arrangements were being made here today for Howard A. Ward, 47, who was instantly killed late Monday when his auto skidded on the Harding highway near his home at Caledonia. A tire split as Ward attempted to pass another car.

MANGLED AUTO VICTIM SHOWS RECOVERY SIGN

John Randolph, Newell, Has Good Night at Salem.

SERIOUSLY HURT

Allen McGonigal's Eye, Injured in Crash, Removed.

Condition of John Randolph, 26, of Newell, whose right leg was amputated after being crushed between two automobiles in a traffic wreck south of Lisbon yesterday, was reported to be "encouraging" at the Salem City hospital today.

Hospital attendants said he spent a good night although his condition is still critical. He was said to be weak from the loss of blood.

Randolph, enroute to Newell, was cranking his car when he was struck by a machine driven by Lewis Dorrance, Hammondsville, traveling in the opposite direction. His leg was severed at the knee when caught between the bumpers of the two cars.

Allen McGonigal, West Third street potter, is in the City hospital today awaiting an operation for the removal of his right eye as the result of automobile crash between East Palestine and Darlington, Pa., Sunday evening. The eye ball was cut with a piece of glass from the windshield of the car in which he was a passenger when it was struck by a Youngstown-owned automobile.

McGonigal is almost totally blind, as a result of the crash, for the vision of his left eye was impaired in an accident several years ago.

Wellsville Mayor Injured When he Falls Into Sewer

Mayor W. L. Fogo of Wellsville is bedfast at his home in Broadway as a result of injuries sustained this morning when he slipped and fell into an open sewer in Tenth street.

One rib in his right side was broken.

Mayor Fogo was supervising city workmen on a sewer repair job, and equipped with hip boots, was preparing to descend into the sewer itself when one of his feet slipped and he was thrown against the edge of the sewering.

Dr. M. C. Tarr rendered medical attention.

Mrs. Gordon, Aged 81, Dies in Son's Home In Steubenville

Mrs. Elizabeth Gordon, 81, mother of Mrs. J. E. Palmer, 407 West Fourth street, died today in the home of her son, William Gordon, Steubenville, after a long illness of a complication of diseases.

She is survived by two sons and four daughters: William, Steubenville; George, Fort Washington, O.; Mrs. Stella Morrison, Newark, O.; Mrs. Lucy Bolan, Steubenville; Mrs. Elizabeth Howell, Martin's Ferry, and Mrs. Palmer. She also leaves one sister, Mrs. George Hood, Martin's Ferry.

FORD-SAPIRO SUIT HALTS AS WOMAN JUROR QUIZ BEGINS

Detroit Libel Case Adjourned Until Thursday.

JIM REED ILL

Official Notice Given That Mistrial Will be Demanded.

DETROIT, April 19.—The $1,000,000 Ford-Sapiro libel suit was adjourned today until Thursday pending further investigation by Federal Judge Fred S. Raymond of sericus charges against a woman juror in the case.

Official notice that a mistrial would be demanded as a result of the charges levelled at the woman juror was served on the court by Stewart Hanley, of Henry Ford's counsel.

The illness of Senator James A. Reed, chief of Ford's attorneys, was cited by Hanley as an additional reason for the adjournment. The delay was granted at once by Judge Raymond.

Gallagher Creates Stir.

William H. Gallagher, chief of Aaron Sapiro's counsel, created another stir by complaining to the court against the activities of Ford detectives in and about the courtroom. Gallagher said he had been informed that the Ford secret police were talking to jurors "whether to learn their state of mind or to influence them, I am unable to say."

When called upon by the court to produce some proof, Gallagher said he was without evidence necessary for formal action.

The possibility that a mistrial will be declared loomed strongly after the brief morning session. This would eliminate the five weeks of testimony taken so far and necessitate starting the trial all over again.

The charges against the woman juror, whose name was known but withheld at the direction of the court, were that she expressed strong opposition to Henry Ford. On one occasion, she was reported to have said she would "give Ford the limit" in the libel case. A number of affidavits, reciting the juror's remarks, were filed with the court.

Federal Agents Investigate.

An investigation, ordered by Judge Raymond, is now being conducted by agents for the department of justice. They are expected to report to the court by Thursday morning.

Counsel for Ford meanwhile will prepare a formal motion, asking a mistrial.

The session this morning was brief. Hanley arose as soon as court con-

MURDER SUSPECT DENIES CHARGE

CRESTLINE, O., April 19.—The hearing of William C. Curtis, charged with the murder of Clarence Lowe at Leesville, April, has been set for 1 p. m. Friday. Arraigned before Mayor Waldbauer here last night, Curtis entered a plea of not guilty.

Authorities today expressed the belief that they have sufficient evidence to convict Curtis of being implicated in the killing, which is now thought to have been the result of mistaken identity, Lowe being taken for a collector who was supposed to have a large sum of money in his possession.

12 More Talesmen Called In Snyder-Gray Murder Case

Judge Directs Questioning as Prospective Jurors Claim Previously Formed Opinion in Killing of Editor.

COURTHOUSE, LONG ISLAND CITY, N. Y., April 19.—The tedious task of examining prospective jurymen was resumed today, the second day of the trial of Mrs. Ruth Brown Snyder and Henry Judd Gray for the murder of Albert Snyder, the woman's husband. Twelve more talesmen were summoned to the jury box when court was called to order this morning by Justice Townsend Scudder. Fifty talesmen were examined yesterday and none accepted.

Judge Scudder finally took the questioning out of the hands of the lawyers.

"Have you not sufficient strength of mind to disregard a previously formed opinion and give a fair and impartial verdict?" he asked one talesman.

"No," replied the man, and he was ex-d.

Judge Scudder continued to questio- talesmen, putting the weight of his position back of an attempt to get a jury, but one after another, those questioned stated that they had formed unalterable opinions.

Juror No. 1 Chosen.

William E. Young, publicity man, finally was accepted as the first juror. He will act as foreman.

Young was the fifty-eighth talesman examined.

Mrs. Snyder studied him intently, as he took seat No. 1 in the jury box. She craned her neck to see him better, but Gray showed little interest.

Captain A. E. Avery, Of Salvation Army, To Speak Tonight

Captain A. E. Avery, of Norwalk, will preach tonight at special services in the Salvation Army citadel, Market street. Program of singing will be featured.

Mae West, "Sex" Star and Co-author, Given Jail Term

NEW YORK, April 19.—Mae West, star and co-author of "Sex" was today sentenced to ten days in jail and to pay a fine of $500 for participating in an "obscene theatrical performance."

The same sentence was meted out to James A. Timony, lawyer and financial backer of the play, while Clarence William Morganstern, the producer, was given a ten-day workhouse sentence without the fine.

Two Parma, Mich., Bank Bandits are Caught in Toledo

TOLEDO, April 19.—Ira E. Huffmann, 30, and Harry Evans, 47, two of the three bandits who held up the Parma State bank, at Parma, Michigan, January 18, in which they secured $3,800, after lining up three bank clerk and several customers, were taken to Jackson, Mich., today after being captured here last night. The two men have both made confessions, police said.

According to detectives, Huffmann said he drove the automobile in which the robbers escaped and received $300 as his share of the loot. Evans received $2,000, according to Huffman.

PORTUGAL FEELS EARTH TREMORS

LISBON, April 19.—A short, but violent, earthquake shock was felt at Figueira Barros today. The population fled to the open fields in panic. No casualties are reported but there was some property damage.

VICTIM'S BODY FOUND ALONG TRACKS NEAR SUMMITVILLE

Well-dressed Man Horribly Mangled Under Wheels.

25 YEARS OLD

Penknife and Cigarettes Only Clues to Identity.

Badly mangled body of an unidentified man, between 25 and 30 years of age, was found by a section crew along the Cleveland & Pittsburgh division railroad tracks, near the Rose Hill crossing, two miles east of Summitville, at 7 o'clock this morning. He is believed to have been killed by a freight train.

Arms and Legs Severed.

The victim's arms and legs were severed and his skull crushed. Condition of the body, which was lying on the eastbound tracks, indicated it had been dragged.

The man, railroad officials indicated, was probably killed while walking along the tracks.

Body at Kensington.

He wore a blue suit, light shirt, pink-striped necktie, low cut tan shoes, black sweater, light cap and silk muffler. He was about five feet four inches tall and weighed about 145 pounds. In his pockets were found a penknife and a package of cigarettes.

The body was removed to the Maple undertaking establishment, Kensington.

Coroner J. M. Van Fossan, East Palestine was to conduct an inquest this afternoon.

Four Motorists Pay Fines of $2 Under "No Parking" Law

Four parking offenders, arrested in the downtown district by Patrolman Norman McFarland last night, paid fines of $2.

They were Walter Fisher, Wellsville, who is alleged to have parked in a restricted zone in St. Clair avenue; G. D. Lowry and L. F. Wright of this city, and J. P. Powers, of Pittsburgh, who are said to have exceeded the 30-minute limit in East Sixth street.

Anthony Tock who was arrested in the Diamond by Patrolman McFarland at 6:35 o'clock last evening, charged with fast and reckless driving, posted a $6.80 bond for his appearance for a hearing before Judge Hanley at 9 o'clock Thursday morning.

No Appointee Named To Fill City Court Clerkship Vacancy

No appointment had been made up to 2 p. m. today by Judge J. C. Hanley to fill the vacancy in the municipal court clerkship caused by the death of Miss Ruth Finnie at Potsdam, N. Y., last Friday.

Miss Lulu Bennett, court stenographer, has been acting clerk since last August. Mrs. Alice Birch has been assistant in the office for several months.

The appointment will be for the unexpired term of Miss Finnie which ends December 31. The job pays $1,800 a year.

CHINA TORN WITH INTERNAL DISSENSION AND THREATS FROM WITHOUT WHILE THREE GOVERNMENTS FUNCTION; POWERS PLAN NAVAL SHOW

SHANGHAI, April 19.—China today is torn with internal dissension and threats from without.

While three Chinese governments—and perhaps more — are striving to function there are indications in Shanghai that the powers are preparing to make naval demonstrations to back up their demands for reparation for the Nanking incidents.

Chiang Kai Shek has created a new Nationalist government at Hankow, according to reports received here. This government is anti-communist and may find itself in open warfare against the more extreme Nationalist government of Hankow. The northern government of Peking is, of course, still effective and gains strength by the split between the southerners.

Anti-Communist Raids.

Meanwhile there are anti-communist raids in a number of cities and indications that the commanders of the cities may elect to create their own governments, possibly in opposition to Chiang Kai Shek and the Hankow government.

The British flagship Hawkins is being made ready to depart up the Yangtze for an unknown destination which is believed to be Hankow. Other British, American, Japanese, Italian and French warship have already proceeded up the river. Officials remain silent, but there is a belief here that concentrations of warships are being arranged off Nanking and Hankow to enforce the demands of the powers which will be made anew in a second note of protest against the Nanking incident.

The American consul general at Hankow has chartered a British steamship to complete the evacuation of the Americans in that district owing to the growing seriousness of the situation.

Japanese field guns, which were landed from warcraft at Hankow, have been planted at strategic points to defend the Japanese concession at Hankow.

The increasing menace at Hankow is causing departure of many wealthy Chinese residents.

Northern troops continue shelling southern positions at Nanking, especially in the Hsiakwan district.

Official advices state that the looting of foreign properties continues. Pillagers again visited the factories and warehouses of the International Export company, carrying off or damaging property worth $10,000,000 (in United States money.)

It is feared the looters will wreck machinery and stocks worth another $10,000,000.

Other American and British losses are estimated at $10,000,000.

No news has been received here as to the fate of Miss Mary Craig, of Philadelphia, American missionary, who has been missing since April 8, when she was kidnaped by Chinese brigands while trying to make her way to Shanghai from the interior Kweichow province.

Await Nanking-Hankow Split Result.

LONDON, April 19.—Further action by the powers in connection with the Nanking protests may be delayed by the establishment of Chiang Kai Shek's government in Nanking, it was stated today.

The dispatch of a new note of protest may await the outcome of the anticipated struggle between Chiang Kai Shek's Nanking government and the Hankow government.

Great significance is attached here to the apparent momentary success of Chiang in rising to the head of a govment, since he is held responsible for the widespread anti-Communist raids throughout China.

Hongkong reports that the Japanese have landed field guns to protect their concession at Changsha.

The Chinese peasants' union is creating trouble at Hangchow where a Catholic mission was reported looted.

British Cruisers Go to Hankow.

The British cruisers Vindictive and Carlisle have been ordered to proceed to Hankow under full head of steam as the result of reports that passing ships in that district are being bombarded by the Chinese, said a Shanghai cablegram.

He is believed to have been killed by a freight train.

Arms and Legs Severed.

The victim's arms and legs were severed and his skull crushed. Condition of the body, which was lying on the eastbound tracks, indicated it had been dragged.

The man, railroad officials indicated, was probably killed while walking along the tracks.

Body at Kensington.

He wore a blue suit, light shirt, pink-striped necktie, low cut tan shoes, black sweater, light cap and silk muffler. He was about five feet four inches tall and weighed about 145 pounds. In his pockets were found a penknife and a package of cigarettes.

The body was removed to the Maple undertaking establishment, Kensington.

Coroner J. M. Van Fossan, East Palestine was to conduct an inquest this afternoon.

Four Motorists Pay Fines of $2 Under "No Parking" Law

Four parking offenders, arrested in the downtown district by Patrolman Norman McFarland last night, paid fines of $2.

They were Walter Fisher, Wellsville, who is alleged to have parked in a restricted zone in St. Clair avenue; G. D. Lowry and L. F. Wright of this city, and J. P. Powers, of Pittsburgh, who are said to have exceeded the 30-minute limit in East Sixth street.

Anthony Tock who was arrested in the Diamond by Patrolman McFarland at 6:35 o'clock last evening, charged with fast and reckless driving, posted a $6.80 bond for his appearance for a hearing before Judge Hanley at 9 o'clock Thursday morning.

No Appointee Named To Fill City Court Clerkship Vacancy

No appointment had been made up to 2 p. m. today by Judge J. C. Hanley to fill the vacancy in the municipal court clerkship caused by the death of Miss Ruth Finnie at Potsdam, N. Y., last Friday.

Miss Lulu Bennett, court stenographer, has been acting clerk since last August. Mrs. Alice Birch has been assistant in the office for several months.

The appointment will be for the unexpired term of Miss Finnie which ends December 31. The job pays $1,800 a year.

CHINA TORN WITH INTERNAL DISSENSION AND THREATS FROM WITHOUT WHILE THREE GOVERNMENTS FUNCTION; POWERS PLAN NAVAL SHOW

SHANGHAI, April 19.—China today is torn with internal dissension and threats from without.

While three Chinese governments—and perhaps more — are striving to function there are indications in Shanghai that the powers are preparing to make naval demonstrations to back up their demands for reparation for the Nanking incidents.

Chiang Kai Shek has created a new Nationalist government at Hankow, according to reports received here. This government is anti-communist and may find itself in open warfare against the more extreme Nationalist government of Hankow. The northern government of Peking is, of course, still effective and gains strength by the split between the southerners.

Anti-Communist Raids.

Meanwhile there are anti-communist raids in a number of cities and indications that the commanders of the cities may elect to create their own governments, possibly in opposition to Chiang Kai Shek and the Hankow government.

The British flagship Hawkins is being made ready to depart up the Yangtze for an unknown destination which is believed to be Hankow. Other British, American, Japanese, Italian and French warship have already proceeded up the river. Officials remain silent, but there is a belief here that concentrations of warships are being arranged off Nanking and Hankow to enforce the demands of the powers which will be made anew in a second note of protest against the Nanking incident.

The American consul general at Hankow has chartered a British steamship to complete the evacuation of the Americans in that district owing to the growing seriousness of the situation.

Japanese field guns, which were landed from warcraft at Hankow, have been planted at strategic points to defend the Japanese concession at Hankow.

The increasing menace at Hankow is causing departure of many wealthy Chinese residents.

Northern troops continue shelling southern positions at Nanking, especially in the Hsiakwan district.

Official advices state that the looting of foreign properties continues. Pillagers again visited the factories and warehouses of the International Export company, carrying off or damaging property worth $10,000,000 (in United States money.)

It is feared the looters will wreck machinery and stocks worth another $10,000,000.

Other American and British losses are estimated at $10,000,000.

No news has been received here as to the fate of Miss Mary Craig, of Philadelphia, American missionary, who has been missing since April 8, when she was kidnaped by Chinese brigands while trying to make her way to Shanghai from the interior Kwelchow province.

Await Nanking-Hankow Split Result.

LONDON, April 19.—Further action by the powers in connection with the Nanking protests may be delayed by the establishment of Chiang Kai Shek's government in Nanking, it was stated today.

The dispatch of a new note of protest may await the outcome of the anticipated struggle between Chiang Kai Shek's Nanking government and the Hankow government.

Great significance is attached here to the apparent momentary success of Chiang in rising to the head of a government, since he is held responsible for the widespread anti-Communist raids throughout China.

Hongkong reports that the Japanese have landed field guns to protect their concession at Changsha.

The Chinese peasants' union is creating trouble at Hangchow where a Catholic mission was reported looted.

British Cruisers Go to Hankow.

The British cruisers Vindictive and Carlisle have been ordered to proceed to Hankow under full head of steam as the result of reports that passing ships in that district are being bombarded by the Chinese, said a Shanghai cablegram.

Now Ready for Your Critical Inspection

New Fashions in FROCKS

For Children, Juniors', Misses', Little Women, Women and Stylish Stouts

Charming Frocks For Children

"Doesn't she look sweet?" How often you've said that about some prettily dressed girl. Your daughter can look just as sweet, if you choose her summer wardrobe of frocks from our extensive stock.

On the last day of school, mothers will beam and be as proud of their daughters as can be. There will be no doubtful moments as to whether she looks well on this day, if she wears one of these exquisite dainty frocks we have chosen for Junior commencement.

Lovely frocks of georgette, taffeta and silk crepe, some with just a suggestion of a sleeve—others a trifle longer.

These frocks are charmingly youthful—in styles that will become the Growing Girl. Bouffant skirts or skirts with tiers of ruffles or lace—on basque waists. In pink, lavender, light blue, mais, Nile and Copen. Trimmed with lace, rosebud banding, ruffles, shoulder bouquets, etc. Sizes 8 to 14.

For Sunday and dress-up wear we are showing a splendid selection of taffeta and silk crepe frocks in darker shades. Sizes 8 to 14. In rose, greens, tans, blues, red and dark orchid. Long and short sleeve models, trimmed with embroidery, ruffles and bows.

For every day wear you will find a variety of styles in English prints, broadcloths, ginghams and Rayons. Lovely colorings and combinations. Trimmed with stitchery, buttons, white collar and cuffs. Plain and plaid combinations. With and without bloomers. Styles easily laundered—with long-wearing qualities so necessary in children's garments. Sizes 6 to 14.

Darling frocks for tinty-tots—sizes 2 to 6. Silks, georgettes, voiles, prints and ginghams. With or without bloomers. All colors.

The Smartest Frocks of the Season.

Though every magazine and newspaper contain advice on how the blonde should dress, what colors the brunette should avoid, the importance of emphasizing your type, and what the last word in style is, the only way to find out what frock suits you, is to come in and try some of the new ones on.

It will take a personal visit to prove how interesting the new tie dresses are, how fetching the bolero has become, how slenderizing a pleated front, plain-back skirt is and what a lot is to be gained by adhering to Fashion's dictates of long sleeves. Here in the privacy of our fitting room you can determine what color and what style becomes you best—then buy that.

The new frocks come in plain shades, or combined tints, (called compose' this season) or prints. New 1927 necklines come square or V and more often than not, collarless. Skirts swing gracefully, due to many fine pleats, soft shirrng or intricate ruffling.

Our display contains frocks for country club, parties, evening wear, as well as those easy to wear and easier-to-look-at daytime frocks, misnamed "Sports clothes"." The newest fabrics including flat crepes, georgettes, prints and sports materials.

The newest colors are Mother Goose, Athenia, Palmetto green, Queen blue, Cork, June Rose, Shell pink, Maize, Biege rose and the ever-popular colar, poudre blue, nude, orchid, navy, tan and black.

Sizes for every figure. We can fit Juniors with frocks suitable for all Commencement festivities.

A frock for every ocasion for Misses', Little Women, Women and Stylish Stouts.

CLEAN-UP DRIVE PLANNED HERE

Annual Campaign Will be Conducted First Two Weeks in May.

Annual "clean-up" campaign here will be conducted during the first two weeks in May, according to a decision reached last night at a meeting of council in the municipal building, Fourth street and Indiana avenue.

The drive will be along lines of other years in which householders are asked to place refuse in containers and place same on sidewalks where they will be hauled away by city teams. This order does not include the removal of garbage.

Remainder of the session was given over to the transaction of routine business in which reports of officers were read and ordered made part of the records.

DISTRICT COURT RULING UPHELD

RICHMOND, Va., April 19.—The U. S. circuit court of appeals today upheld the decision of the southern district court of West Virginia in granting an injunction against union leaders during suspensions in the West Virginia coal fields in 1920 and 1921.

The court held that while the legality of labor unions had been provided for in the Clayton act, efforts of union leaders to halt production in the coal fields at that time constituted a restraint of trade.

Evidence in the case, said an opinion prepared by Judge Parker, showed that defendants had combined to interfere with the production and shipment of coal by non-union operators in West Virginia to make effective the strike called in 1920 and 1922, and that the campaign of "intimidation and violence incident thereto" was merely the carrying out of the conspiracy.

Although no direct evidence was said to have been made in the appeal to the so-called "check off" system, the court ruled that nothing illegal appeared in the system.

Prayer Meeting Listed.

Prayer meeting under the auspices of the First Methodist Episcopal church will be held at 7:30 Thursday night in the home of Bert Williams, Lawrenceville.

Baby Clinic Held.

Dr. George E. Lewis was in charge of the baby clinic this afternoon in the Community house, Carolina avenue. He was assisted by Miss Caroline V. Brown, county health nurse.

'NEW YORK' WINS SCREEN FANS

Ricardo Cortez and Lois Wilson in Ceramic Picture.

Richardo Cortez, Lois Wilson, Estelle Taylor, William Powell and Norman Trevor all helped Director Luther Reed in his endeavor to make "New York" a picture worthy of the city for which it is named. After seeing Paramount's latest at the Ceramic last night, critics can do no more than assure you that Paramount has "done right" by our Melting Pot.

For those whose minds run that way, let it be said that "New York" offers the following:—at least eight definite characterizations, all of which are decidedly worth while; some mighty capable direction from Luther Reed; a not-to-be-scoffed-at story by Barbara Chambers and Becky Gardiner; a ship-shape scenario straight from Forrest Halsey's ingenious mind and some remarkable shots of New York life, not stuck in here and there as "atmosphere," but which have definite places in the film's background.

"New York" opens in a Bowery dive. Cortez, Powell, "Skeets" Gallagher and Lester Scharff are introduced as a quartet who have grown to manhood on the city's East Side. The first has become a jazz drummer, Gallaghr (making a very acceptable screen debut) is his pianist, Powell has developed into a typical gangster and Scharff is entering politics. It is then that Cortez meets Lois Wilson, a girl of the "four hundred." He determines to raise himself to her level.

ENDURED AGONY FROM BRUISES AND STRAIN

Hurt in bad fall, young woman makes quick recovery

A young woman at Bushnell's Basin, Monroe County, New York, fell and was badly bruised and strained.

"I suffered agony," she writes, "but I used Sloan's Liniment and it relieved the pain right away. Now I don't feel it at all."

What is the secret of the almost magical powers of this remarkable remedy?

Simply the fact that Sloan's doesn't merely deaden the nerves so that you don't feel the pain. It really drives out the pain by helping the conditions that are causing it.

Right to the affected spot it brings a healing stream of fresh, revitalizing blood, driving out conjestion, relaxing contracted muscles. The pain stops as a natural consequence.

So clean and easy to use, too. Just pat it on lightly without rubbing, and the liniment will do its work. Get a bottle today and have it on hand. All druggists have it—35 cents.

Salem Woman, Victim Of State Hospital Assault, Gets $1,000

sundry claims board, it was announced today, has authorized payment by the state of $1,000 to Anna Thompson, Salem, as compensation for injuries resulting from an assault by a patient at the Columbus state hospital.

Ann Thompson was an attendant at the hospital Nov. 1, 1905, when a patient hit her in an eye, which, later had to be removed. As a result of this injury, sight of the other eye was destroyed.

The money is to be expended at the discretion of the Columbiana county common pleas judge, it was announced.

ENDURED AGONY FROM BRUISES AND STRAIN

Hurt in bad fall, young woman makes quick recovery

A young woman at Bushnell's Basin, Monroe County, New York, fell and was badly bruised and strained.

"I suffered agony," she writes, "but I used Sloan's Liniment and it relieved the pain right away. Now I don't feel it at all."

What is the secret of the almost magical powers of this remarkable remedy?

Simply the fact that Sloan's doesn't merely deaden the nerves so that you don't feel the pain. It really drives out the pain by helping the conditions that are causing it.

Right to the affected spot it brings a healing stream of fresh, revitalizing blood, driving out congestion, relaxing contracted muscles. The pain stops as a natural consequence.

So clean and easy to use, too. Just pat it on lightly without rubbing, and the liniment will do its work. Get a bottle today and have it on hand. All druggists have it—35 cents.

EAST LIVERPOOL—AMERICA'S POTTERY CENTER

TUESDAY, APRIL 19, 1927.

Busy Airways

"Even if only a majority of the proposed flights for 1927 are actually made, there will be more countries represented in long flights this year than ever before," says an official of the Aeronautical Chamber of Commerce of America.

First there are the filghts already completed or now under way, which include the American Good Will flight to South America, the De Pinedo four-continent flight, the round trip from France to Madagascar completed by a French flier in February, and a round-the-world flight begun by a Portuguese flier.

Five trans-Atlantic flights are proposed. One is the Orteig prize flight from Paris to New York, which is interesting such aviators as Commander Richard Byrd and Captain Rene Fonck. Another, from Germany to the United States, is being promoted in the interest of passenger and mail service between those countries. Two others are scheduled to start from Spain and from Rome.

Capt. George H. Wilkins is attempting a North Pole flight, and Commander Byrd is planning to fly across the South Pole.

Flights to Hawaii are proposed starting from San Francisco, San Diego and Vancouver. British and Spanish air officers are to fly across India. The holder of the present French altitude record is going to try his luck at flying over Mount Everest, taking pictures which he hopes may be of service to future foot expeditions to the summit of that mighty peak. French fliers are planning to circle the Atlantic and Australian fliers have Samoa as a goal.

There are other plans not yet revealed to the public.

Much will be learned from all these endeavors. It is to be hoped that accidents, and particularly fatalities to fliers, may be avoided. Flying is a great game and an important one. It is well that interest in it is growing.

Rules For Springtime

The Garden club of Los Angeles has prepared a set of seven rules for spring hikers and motorists to follow in regard to wild flowers.

1. Never gather many flowers of one kind in any one locality, no matter how common they seem there.

2. Leave the roots of perennials. Otherwise the plant is killed.

3. Pick the flowers of annuals very sparingly, or there will be no seeds for next year.

4. Do not break or tear off woody flowering branches; cut them close to the base so the wound may heal over and prevent fungous disease from entering.

5, Protect all the plants furnishing food and shelter to birds.

6. Remember that most wild flowers fade soon after picking. If left in their natural state their bloom lasts longer and gives pleasure to more people.

7. Do not drop lighted matches, cigars or cigarets in the woods or fields, or burn them intentionally, as burning destroys humus in the soil necessary for the growth of desirable plants and causes them to be replaced by troublesome weeds.

An eighth rule, summing all the others, might be added:

Visit the woods and fields, feast your eyes and soul on the beauty found there, and go away without destroying any of it.

The Mother Lawyer

The wife of a successful business man, while taking care of a home and two children, has been studying law, and expects to begin practising in a few weeks. Asked how she can find time for such professional work, she says:

"I don't give any more time to my law than many of my friends devote to bridge. I am merely substituting a profession for a pastime. I like it as much, too, as other women like bridge. And I believe it will be more profitable."

Very likely it will. And when you think it over, there's really no reason why anybody who prefers a time-saving and money-making pursuit to a time-killing and money-spending one shouldn't indulge his or her whim. There is a sort of tradition that it isn't good form to indulge in any avocation or creation unless it costs money, but we're getting away from that lately.

Baseball Triumphant

Baseball appears to have as many lives as a cat. It can't be killed by scandal. Its popularity and necessity to the American public have been demonstrated once more.

The thousands of fans who eagerly greeted the season's opening games in various cities showed unshaken faith in the game and in its players. If the game is well played and remains reasonable honest, if the expected quota of home runs and other thrilling episodes of the diamond are regularly forthcoming, the public asks nothing further.

And perhaps it is a good thing that the country can be so wholeheartedly childlike and devoted to at least one perennial pastime. It is fickle and cynical enough about plenty of other things.

Fewer children learn to play instruments in this age of mechanical music. That may be unfortunate for the children, but it's better for the music.

ONE WHO PASSED RIGHT ON THROUGH

There are people in this great country of ours who either do not care deeply for Manhattan Island or else let on that they don't care for it. To a dweller on said Island small town prejudice against the metropolis is a complete mystery.

The manager for a theatrical company which had taken to the road after a long and successful run on Broadway, met one of these prejudiced persons at a small way-station out in Ohio where the troupe had piled out to change cars. The train which they meant to board was late, so the actors idled about the junction and admired the peaceful rural landscape.

A citizen approached the manager with the customary question:

"Where do you go from here?"

The manager told him.

"Are you from New York?" asked the local next.

"Yes."

There was a short pause and then, with a fine show of fatigue and a repressed yawn of boredom, the native spoke:

"Well," he said "I've been by New York several times, but I never stopped off."

NEW YORK DAYBYDAY
By O. O. McINTYRE

NEW YORK, April 19.—The reason Broadway remains the world's most interesting street is perhaps because it is typically only of itself. It has no comparisons. Indeed, it is not so much a street as a state of mind. The glittering facets are merely the outward show.

No street so perpetually maintains the spirit of the carnival. Clockers have discovered that people turning into Broadway from side streets step more sprightly. They are touched as the small boy is touched by sight of the circus elephant.

Broadway has not grown up to attain a dignity. Its chilliness is expressed in a jinkle-jumple of waffle shops, magic stores, pastry parlors, quick photographers, souvenir hutches, auction sales, flea circuses, orange and pineapple drink stands and other folderol.

The surface is cynical but underneath is that shallow optimism prompting hundreds of men and women to live solely for the day by their wits. To be broke on Broadway is rarely a calamity. It is merely a laugh. A former "millionaire kid" often sells pencils with a smile.

The confirmed Broadwayite believes with Elizabeth that life is a bog over which one must travel lightly for if there is a stop one sinks. Camaraderie is free but rarely lasting. Broadway has few friends of yesteryear. It lives in the now.

This morning on Broadway was a roguishly rouged girl leading a dog that wore a collar inset with a watch. A block away was another of the same type with court plaster flower designs showing through sheer stockings. Nobody turned to stare. Nobody cared.

For say what you please about Broadway it minds it own business. Life there is largely a highball and a headache. A punchbowl of champagne with roses floating on top and thorns underneath. It welcomes everybody—except the whiner. There is no place for him.

Broadway is often a term applied to side streets and districts running off either hip. These are not a part, strictly speaking, of the street. They merely bask in the glamour of the real thing. There is only one Broadway.

The biggest change in [illegible] in the past few years is on Sixth Avenue above 53d street. The metamorphosis began with the demolition of the elevated railroad. Ziegfeld's new theatre stands out like a white bellying sail where delicatessens and vaki shops once flourished. Hotels and apartment houses on a grand scale are going up with a furious rush. It used to be a section where thrifty chorus girls could buy a single egg or potato to cook over a hall room jet. Today it displays orchids at $20 a stem, and haughty drug stores without window displays.

A fashion spy tells me a spray of gardenias for Milady is smarter than orchids. The orchid has gone out with the suddenness of a French cabinet. A single gardenia for a gentleman's lapel sets a dandy back $1.25. Orchids it appears clash with various colors in gowns and ladies would often, after the corsage arrived, be forced hurriedly to change gowns to match. Gardenias will blend with any coloring. Hence the popularity.

After so much war time mourning, black became passe. Fashionable ladies went in for dash and color but black is becoming popular again. This fall it will dominate the feminine wardrobe.

He is a tittupy man with a whinnying laugh who seems to be constantly rubbing his hands together. Almost every day as he crosses 42d street he yells to a certain crossing cop, "Hello you big stiff!" grins and scuttles away. "Exercising his inferiority complex," smiled the cop yesterday.

HASKIN'S LETTER

Business Men to Meet.

WASHINGTON, D. C., April 19.—During the first week in May the representatives of 1,500 chambers of commerce, boards of trade, and similar organizations throughout the country will gather in Washington for the fifteenth annual meeting of the Chamber of Commerce of the United States. They will include the leading business executives of every state, and their three days' session is heralded as one of the most important that has ever been held.

It will be featured by notable addresses and discussions, by committee reports on weighty business subjects, and by the adoption of resolutions that will inform congress and the country where American business men stand on problems of production, distribution, transportation, finance, foreign and domestic trade, and legislation and government activity affecting industry and commerce.

Most significant of the addresses, it is anticipated, will be that of President Coolidge at the night session of May 3, which will be a joint session with the delegates to the Third Pan American Commercial Congress, which will also be held in this city that week under the auspices of the Pan American Union. At the annual dinner of the Chamber of Commerce the following night Secretary of Commerce Herbert Hoover will be the principal speaker, taking for his subject, "New Contributions to Our Economic Life."

At the Tuesday night meeting, prior to President Coolidge's speech, there will be an interesting ceremony of raising the flags of all of the twenty-one American Republics while the United States Army band plays the national anthems of the different countries. After the president has concluded, a brilliant reception and ball will be held in honor of the visitors from Latin America and those from the United States.

The New Business Era.

"The New Business Era" is the general theme for this annual meeting of the Chamber of Commerce. The new competition, with entire groups battling for markets, hand-to-mouth buying, instalment selling, improved business standards, the need of more adequate statistical data, simplification, elimination of waste, and a score of other modern developments in business will be considered.

"American business sweeping forward under the play of new economic forces finds it more necessary than ever to look into the future," says the announcement of the chamber. "What do changes that are taking place foretoken? How sharp is the break from the conditions before the war? In what direction are we headed? Are we approaching even more important developments than we have seen in the recent past?

What's What in Washington

BY CHARLES R STEWART

GUESSING AS TO WHY COOLIDGE CALLED HUGHES FROM NEW YORK

WASHINGTON, April 19.—It's anybody's privilege to guess for himself why President Coolidge sent for Charles Evans Hughes the other day in the midst of all the foreign entanglements the administration is struggling with.

CHARLES E. HUGHES

That Hughes called on the president is certain. That his advice was asked concerning China, Mexico, Nicaragua and disarmament is only hinted—but mighty broadly.

No, the inference isn't that the ex-secretary of state is being urged to take his old portfolio back. He's out of the cabinet for keeps, undoubtedly.

The question Washington would like to have answered is:

If the president's satisfied with the advice he's getting locally on the subject of foreign affairs, why does he have to send up to New York after it?

IN case Secretary of State Kellogg resigns, no prediction as to his successor is a safe one which fails to take into account the qualification:

Provided it suits Secretary of Commerce Hoover.

It's no secret that not an important appointment is made in Washington against Hoover's opposition. It's equally well accepted that anybody he wants appointed is as good as appointed. No appointee, already in office, cares to have Hoover suggesting his removal.

It's agreed that Hoover could have the state portfolie in a minute if he cared for it.

The only reason he isn't more prominently mentioned for it is that he's added so many functions to the commerce department and organized it so completely to suit himself that it's doubted if he'd care to leave it.

"ONLY over my dead body," says Senator Keyes of New Hampshire. And he isn't dead yet. Thus the Senator Jim Reed slush fund committee is stalled, despite everything.

The committee was named last summer to probe the high cost of certain senatorial campaigns. Chairman Reed was almost the whole thing. The probe was all to Reed's glory, and the Democrats, of whom he's one; to the dreadful discomfiture of every Republican he found a chance to pan.

When congress ended, the bedevilled Republicans said the committee was dead, too. Reed said he'd show 'em it wasn't by probing some more.

But he needed expense money. Keyes, a Republican, who considers the committee dead, has charge of senate expenditures and wouldn't give him a cent.

THE dispute waxed hot. It's for the senate to decide finally, but this was an emergency. Vice President Dawes announced he'd act in it. He decided for Reed.

Did this squelch Keyes? It did not. He promptly invited Dawes, as well as Reed, to go take a long running jump. What's more, there's no power short of the senate which can make Keyes loosen, and the senate won't meet until December.

That's a long time for Reed and Dawes to chafe and cuss.

IT'S pretty sure to be a swell row when it does come up.

It will be noted that Senator Fess, who was appointed by Dawes to fill a vacancy on the committee, has discreetly declined.

The cautious Ohioan doesn't care to be caught in any jam between such a trio of Helen Maria, "show me" and Old Granite scrappers as Dawes, Reed and Keyes, respectively.

TWO WELLSVILLE BOOTLEGGERS GO TO WORKHOUSE

POLICE LAUNCH DRIVE AGAINST HIP-POCKET RUM

William Kessler and Jacob Baker Sentenced.

FINED $100 EACH

Chief Fultz Leads War on "Canned Heat Squads."

Two men were sent to the Stark county workhouse at Canton today in charge of Chief of Police John Fultz as Wellsville authorities launched a campaign against so-called "hip pocket bootleggers."

The men, William Kessler and Jacob Baker, were arrested last night in Third street by Fultz on liquor charges, along with Dick Malone.

Kessler and Malone were charged with possession and Baker was charged with furnishing liquor.

Kessler and Baker were fined $100 each and committed to the workhouse. Malone is being held in jail pending disposition of his case.

Chief Fultz announced that police will make every effort to cut down the operations of the "canned heat squads" in the district.

In every case possible workhouse sentences will be meted out to offenders, he asserted.

J. S. Burnett, Center street, has concluded a visit with his sister, Mrs. J. F. Clark, of Alliance.

Rev. K. J. Stewart, pastor of the Yellow Creek Presbyterian church, is recovering from a recent illness.

LOCAL CHECKER TEAM WINNER

Defeat Toronto Squad, 6-3, in Contest Here.

A four-man team of Toronto checker experts fell before the prowess of a Wellsville squad, 6 to 3, in the first match of a home and home series here last night.

The contests were staged in the chamber of commerce headquarters in the city hall building and drew a crowd of approximately 75 fans.

In every match, competition was keen. Willis Gilmore, of the Wellsville squad, finished with a record of three victories over his opponent's one.

The complete score follows:

Wellsville—C. McElroy won 2, H. Todd Sr. won 1, E. W. Urie won 0, W. Gilmore won 3.

Toronto—John Martin, won 0, drew 2; C. B. Hall, won 1, drew 2; H. Pettinger, won 1, drew 3; Bob Moser, won 1, drew 0.

A return match will be staged in Toronto in two weeks.

SALINEVILLE

Easter Sunday was observed in the Presbyterian Sunday school by an Easter lesson, two special numbers by the orchestra, and two special selections by the children's choir.

The following officers were installed: O. M. Ashbaugh, and William Heatherington, elders; Herman Graubner, S. B. Larkins, and John Johnson, deacons. Communion of the Lord's Supper was held at the eleven o'clock service. It was decided to observe mothers' day on Sabbath, May 8th. The following committee was appointed to have charge of the program: Chairman, Mrs. Verne Randolph, Miss Pauline James, Mrs. Mabel H. Martin, Miss Elizabeth Loch, and Miss Fae Heatherington. The program will be rendered at the 11 o'clock service.

The sacred cantata, "Easter Praise," given by the combined choirs of the United Presbyterian and Presbyterian churches, in the Presbyterian church, was well attended. Rev. Ross S. Wilson gave the invocation and Rev. W. S. Martin pronounced the benediction. Mrs. S. B. Larkins presided at the pipe organ.

The church was crowded and the large congregation was pleased with the splendid rendition.

All of the churches in Salineville report good congregations on Easter Sabbath, with the best of interest. Special music and sermons on the Resurrection of Christ, were features.

Born to Mr. and Mrs. Orville Madison, of Wellsville, Sunday, April 17, a son. Mrs. Madison was formerly Miss Fae Foddy, of Salineville.

AUTO STRUCK BY STREET CAR

New Salisbury Motorists Escape With Few Bruises.

Mr. and Mrs. J. Patton and family, of New Salisbury, escaped with minor bruises and a few scratches when the Hudson sedan in which they were riding was struck by an eastbound street car yesterday morning in the fog near the Buckeye plant of the McLain Fire Brick company, lower Clark avenue.

The roadway is narrow and excessively rough at the point where the collision occurred, the motorists, who were driving into Wellsville, being compelled to use part of the car tracks.

The machine was taken to the Reliable garage, Main street, for repairs, the back of the body being damaged by the impact.

DONAHEY SAYS HE WILL VETO ROBERTS BILL

Governor Opposed to Salary Boosts for Commissioners.

JONES ACT O. K.

State Executive Puts His Signature on Several Measures.

COLUMBUS, April 19.—Governor Vic Donahey, it was announced today, will veto the Roberts bill, which passed the present session of the Ohio legislature, placing county commissioners on a salary basis.

The governor declared he had received no request to permit increases of salaries of public officials, but had received numerous pleas that he oppose all such increases.

It was estimated that the Roberts bill, if it becomes operative as law, would provide for a total increase of $120,000 annually in the salaries of county commissioners throughout Ohio, the proposed increases to be based upon population and on tax duplicates.

The governor indicated his intention of permitting the Jones emergency act, which has passed both the senate and house, to become a law without his signature. The Jones bill is designed to afford immediate financial relief for weak school districts in order to eliminate threatened closing of many public schools throughout the state.

Under provisions of the Jones bill, [illegible] boards may issue short-time notes immediately for the purpose of borrowing, either from the state teachers' retirement fund or from private financial institutions, funds sufficient to pay teachers' salaries until the regular appropriation for these schools becomes effective July 1, next.

Measures receiving the governor's signature today include:

By Herbert, permitting church to transfer property to national governing boards by a majority vote of the congregation. Present law required a two-thirds affirmative vote.

By Burnett, increasing pension paid to needy blind; by Morgan, repealing scores of obsolete and unconstitutional sections of the Ohio laws; Johnson, requiring county officers to give surety bonds instead of any type they desire; Walther, requiring drivers of vehicles transporting explosives, or inflammables, to stop at railroad crossings; Norton, appropriating $150,000 from the residue of the sesqui-centennial appropriation and from the state general revenue fund for construction of monuments in France and Belgium commemorating activities of the 37th division during the World War; McKinley, providing that when a civil service employes' list is reduced for reasons other than "cause," the employes thus removed shall be the youngest in point of time of service; Myers, authorizing the Northwestern Ohio Gas company to lay a pipe line across property at the Toledo state hospital; Stevens, to authorize the city of Dayton to purchase more than a mile of the Miami and Erie canal in Dayton for the purpose of elevating railroad tracks; Ward, of Franklin, giving the Pennsylvania railroad company a new right of way along the state fair grounds, Columbus, the state taking over the present right of way.

Norton Also Signed.

The governor, also, signed the Norton bill, allowing boards of education to contract with art museums and other such institutions for the training of pupils.

Governor Donahey, it was stated, has until next Monday to pass upon the question of vetoing the Dodd bill which authorizes collection this year of a half-mill direct state tax levy.

The governor did not indicate what action he will take concerning the Dodd bill.

STATE OFFERS ANTI-TOXIN IN TYPHOID CASES

Health Commissioner Advised of Action at Columbus.

FIGHT ON FEVER

Infection Spread by Pollution of Water and Food.

As a special inducement to encourage typhoid fever vaccination the state department of health will furnish physicians with anti-toxin free of charge during April, according to word which has been received from Columbus by City Health Commissioner Edward Miskall.

Typhoid occurs most frequently during that period of the year in which people are outdoors the most. It is known as the vacation disease. As the population increases so do the chances for spread of infection through pollution of water and food supplies by active cases and carriers.

Typhoid vaccination performs its greatest office in fortifying the individual against this chance infection and making his system more resistant to the effects of the disease in case the amount of infection is overwhelming.

Anti-typhoid vaccination was introduced into the American army in 1909 and made compulsory in 1911 for all men under 45 years of age. This measure has abundantly justified itself as proven by the very small incidence of typhoid fever in the army since then.

During the World war there were 1,431 cases of typhoid with 159 deaths. Most of these cases occurred among troops who had been exposed to infection of unusual strength and severity.

It is estimated that there were 230,000 Ohio soldiers during the World war. Considering the entire number of cases of typhoid the Ohio men would have had but 80 cases. The same number of men during the Spanish-American war would have had 44,000 cases.

Vaccination alone will not protect against a heavy infection. Those who have been vaccinated within the three preceding years—immunity lasting from two to four years—have 16 times better chances for escaping the disease than those not protected by vaccination. Sanitation plus vaccination can eliminate typhoid fever, but neither one alone can do it.

Ordinarily typhoid germs do not live very long if diluted and exposed to sunlight, two hours to two weeks. They may live a long while if protected by a coating of moist organic matter.

A carrier is a person who has the germs in his system, usually without showing any evidence of their presence. A person may be a carrier of typhoid and never have, or have had the disease.

One case is on record where a dairy man who had had typhoid fever 47 years previously was the cause of several hundred cases of typhoid fever.

MAIN CIRCUS HERE MAY 11

Street Parade Will Precede Performance, Agent Says.

With the arrival in East Liverpool of J. C. Admire, contracting agent of Walter L. Main circus, arrangements have been completed with citl officials for the parade and exhibition of this old-time favorite on December, May 11.

Admire is emphatic in his denial that circus parades have been abandoned, and claims that while one circus has abandoned the street parade, his managers have taken the opposite view and have increased the street pageant of the Walter L. Main circus until now it is the largest ere in existence. They figure the parade is the show window of the exhibition, with exactly the same object in view that causes a merchant to display his wares. Another object of the parade is to give joy to many poor children whose only glimpse of the world's wonders is the time-honored circus procession. All dens and cages are wide open, so that all may see the many animals from every clime. Five brass bands dispense real music, along with the largest steam calliope ever constructed, while 20 clowns furnish the comedy.

At the circus grounds, after the parade, the visitors are entertained, while waiting for the doors to open at 1 o'clock, after which, an inspection of the menagerie is in order; practically every known jungle animal is represented, also many denizens of the Arctic regions, the entire collection of 563 beasts being a complete education in animal-land. At 2 p. m and 8 p. m., the performances start and from the opening spectacle to the closing overture, the air, the rings and the track are filled with acrobats, aerialists, clowns and performing animals of all kinds, accompained by the best band in circusdom.

Admire says the Walter L. Main circus is the only large organization booked into this territory this season, and that his show will positively parade and exhibit here on the date above mentioned, whether rain or shine. The parade is at 11 a. m. The doors open at 1 and 7 p. m.

Winnipeg, Canada, is to have a vavaluable collection of china as the bequest of Frank Evison, for nearly 40 years a waiter in a London restaurant. Evinson, who was 67, was a teetotaller and a non-smoker, and he spent all his spare money for old china. He was steward of a country club in Winnipeg when the world war broke out, and after numerous rejections for active service finally secured acceptance after he had dyed his hair and obtained a new set of false teeth. Ruts

MANY a man of brilliant promise has been lost in a rut of despair. Has seen his enthusiasm, his prospects, blighted! Himself powerless to prevent it—dully realizing that he no longer had the energy to stand the pace. . . . What can crush a man's spirit so completely?

Indeed, what is constipation? More—far more—than the average person realizes. It destroys health. It steals strength. It sickens the mind and leads to suffering and disease! Yet no one need be afflicted with this curse. Kellogg's ALL-BRAN is guaranteed to relieve constipation—promptly, safely.

Why part-bran products fail!

ALL-BRAN is 100% "bulk." This bulk absorbs moisture and carries it throughout the intestines, gently distending them—cleansing, removing wastes and poisons. In a part-bran product the quantity of bulk is so small it scarcely accomplishes anything! Doctors recommend ALL-BRAN because they know it is 100% bran—100% effective.

Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

So different from dangerous pills!

How much better to rely upon healthful ALL-BRAN than habit-forming pills and drugs. ALL-BRAN is delicious with milk or cream—and add fruits or honey. Let it soak a few moments to bring out all its nut-like flavor. Use it with other cereals. In soups. Try the recipes on every package.

Don't risk part-bran substitutes. Insist on genuine Kellogg's. Sold by all grocers. Served at hotels, restaurants. On diners. Made by Kellogg in Battle Creek.

TWO WELLSVILLE BOOTLEGGERS GO TO WORKHOUSE

POLICE LAUNCH DRIVE AGAINST HIP-POCKET RUM

William Kessler and Jacob Baker Sentenced.

FINED $100 EACH

Chief Fultz Leads War on "Canned Heat Squads."

Two men were sent to the Stark county workhouse at Canton today in charge of Chief of Police John Fultz as Wellsville authorities launched a campaign against so-called "hip pocket bootleggers."

The men, William Kessler and Jacob Baker, were arrested last night in Third street by Fultz on liquor charges, along with Dick Malone.

Kessler and Malone were charged with possession and Baker was charged with furnishing liquor.

Kessler and Baker were fined $100 each and committed to the workhouse. Malone is being held in jail pending disposition of his case.

Chief Fultz announced that police will make every effort to cut down the operations of the "canned heat squads" in the district.

In every case possible workhouse sentences will be meted out to offenders, he asserted.

Members of the O. N. O. club will be entertained on Wednesday night at the home of Mrs. Clyde McIlvane, 1789 Clark avenue.

There are lots of "prepared tints" for home tinting of your dainty lingerie, but did you ever try real dye-tinting with a real dye? You get glorious effects when you begin with the true tones that only real dyes can impart to fabrics!

An envelope of the actual dye powder is only fifteen cents at any drug-store. Sift a bit in cold water—dip the garment—and it's done. Only, you'll have a smooth, even tone just exactly like materials have when bought; none of that streaky look; never weak or "washy" no matter how much you dilute or lighten the color. Furthermore, you can "set" the tint if you want, by merely having the water boil.

Every drugstore has Diamond dyes, color cards and suggestions for exquisite tinting or regular, permanent dyeing of anything. Or, write for Color Craft—a marvelous book of ideas in full colors; free from DIAMOND DYES, Dept. N33, Burlington, Vermont.

Some Frank Words on Catarrh

Because catarrh is unpleasant, few like to discuss it. Yet all know its prevalence. Many think "It will go away of itself," and ignore it until finally a chronic catarrhal condition exists.

To endure the constant raising of mucus, the clogged nasal passages, the offensive breath of catarrh is today inexcusable. Thousands have proved that Hall's Catarrh Medicine drives away catarrh because it tones and strengthens the mucous membranes.

When the inflammation of these delicate linings of nose, throat and head is reduced, catarrh vanishes. You owe it to yourself to get Hall's Catarrh Medicine today. Ask your druggist. Price 85c. F. J. Cheney & Co., Toledo, Ohio.

SALINEVILLE

Easter Sunday was observed in the Presbyterian Sunday school by an Easter lesson, two special numbers by the orchestra, and two special selections by the children's choir.

The following officers were installed: O. M. Ashbaugh, and William Heatherington, elders; Herman Graubner, S. B. Larkins, and John Johnson, deacons. Communion of the Lord's Supper was held at the eleven o'clock service. It was decided to observe mothers' day on Sabbath, May 8th. The following committee was appointed to have charge of the program: Chairman, Mrs. Verne Randolph, Miss Pauline James, Mrs. Mabel H. Martin, Miss Elizabeth Loch, and Miss Fae Heatherington. The program will be rendered at the 11 o'clock service.

The sacred cantata, "Easter Praise," given by the combined choirs of the United Presbyterian and Presbyterian churches, in the Presbyterian church, was well attended. Rev. Ross S. Wilson gave the invocation and Rev. W. S. Martin pronounced the benediction. Mrs. S. B. Larkins presided at the pipe organ.

The church was crowded and the large congregation was pleased with the splendid rendition.

All of the churches in Salineville report good congregations on Easter Sabbath, with the best of interest. Special music and sermons on the Resurrection of Christ, were features.

Born to Mr. and Mrs. Orville Madison, of Wellsville, Sunday, April 17, a son. Mrs. Madison was formerly Miss Fae Foddy, of Salineville.

DONAHEY SAYS HE WILL VETO ROBERTS BILL

Governor Opposed to Salary Boosts for Commissioners.

JONES ACT O. K.

State Executive Puts His Signature on Several Measures.

COLUMBUS, April 19.—Governor Vic Donahey, it was announced today, will veto the Roberts bill, which passed the present session of the Ohio legislature, placing county commissioners on a salary basis.

The governor declared he had received no request to permit increases of salaries of public officials, but had received numerous pleas that he oppose all such increases.

It was estimated that the Roberts bill, if it becomes operative as law, would provide for a total increase of $120,000 annually in the salaries of county commissioners throughout Ohio, the proposed increases to be based upon population and on tax duplicates.

The governor indicated his intention of permitting the Jones emergency act, which has passed both the senate and house, to become a law without his signature. The Jones bill is designed to afford immediate financial relief for weak school districts in order to eliminate threatened closing of many public schools throughout the state.

Under provisions of the Jones bill, school boards may issue short-time notes immediately for the purpose of borrowing, either from the state teachers' retirement fund or from private financial institutions, funds sufficient to pay teachers' salaries until the regular appropriation for these schools becomes effective July 1, next.

Measures receiving the governor's signature today include:

By Herbert, permitting church to transfer property to national governing boards by a majority vote of the congregation. Present law required a two-thirds affirmative vote.

By Burnett, increasing pension paid to needy blind; by Morgan, repealing scores of obsolete and unconstitutional sections of the Ohio laws; Johnson, requiring county officers to give surety bonds instead of any type they desire; Walther, requiring drivers of vehicles transporting explosives, or inflammables, to stop at railroad crossings; Norton, appropriating $150,000 from the residue of the sesqui-centennial appropriation and from the state general revenue fund for construction of monuments in France and Belgium commemorating activities of the 37th division during the World War; McKinley, providing that when a civil service employes' list is reduced for reasons other than "cause," the employes thus removed shall be the youngest in point of time of service; Myers, authorizing the Northwestern Ohio Gas company to lay a pipe line across property at the Toledo state hospital; Stevens, to authorize the city of Dayton to purchase more than a mile of the Miami and Erie canal in Dayton for the purpose of elevating railroad tracks; Ward, of Franklin, giving the Pennsylvania railroad company a new right of way along the state fair grounds, Columbus, the state taking over the present right of way.

Norton Also Signed.

The governor, also, signed the Norton bill, allowing boards of education to contract with art museums and other such institutions for the training of pupils.

Governor Donahey, it was stated, has until next Monday to pass upon the question of vetoing the Dodd bill which authorizes collection this year of a half-mill direct state tax levy.

The governor did not indicate what action he will take concerning the Dodd bill.

STATE OFFERS ANTI-TOXIN IN TYPHOID CASES

Health Commissioner Advised of Action at Columbus.

FIGHT ON FEVER

Infection Spread by Pollution of Water and Food.

As a special inducement to encourage typhoid fever vaccination the state department of health will furnish physicians with anti-toxin free of charge during April, according to word which has been received from Columbus by City Health Commissioner Edward Miskall.

Typhoid occurs most frequently during that period of the year in which people are outdoors the most. It is known as the vacation disease. As the population increases so do the chances for spread of infection through pollution of water and food supplies by active cases and carriers.

Typhoid vaccination performs its greatest office in fortifying the individual against this chance infection and making his system more resistant to the effects of the disease in case the amount of infection is overwhelming.

Anti-typhoid vaccination was introduced into the American army in 1909 and made compulsory in 1911 for all men under 45 years of age. This measure has abundantly justified itself as proven by the very small incidence of typhoid fever in the army since then.

During the World war there were 1,431 cases of typhoid with 159 deaths. Most of these cases occurred among troops who had been exposed to infection of unusual strength and severity.

It is estimated that there were 230,000 Ohio soldiers during the World war. Considering the entire number of cases of typhoid the Ohio men would have had but 80 cases. The same number of men during the Spanish-American war would have had 47,000 cases.

Vaccination alone will not protect against a heavy infection. Those who have been vaccinated within the three preceding years—immunity lasting from two to four years—have 16 times better chances for escaping the disease than those not protected by vaccination. Sanitation plus vaccination can eliminate typhoid fever, but neither one alone can do it.

Lombardo Orchestra To Play For Elks at Virginia Gardens

If the ghosts of the musical ancestors of the Lombardo family are not turning over in their revered graves in Italy, it must be because they are proud of their descendants in America, chiefly of Guy Lombardo, young director of the Royal Canadians, famous dance orchestra that will play tonight at Rock Springs park under the auspices of the East Liverpool Elks' lodge. Elks and their friends from this city, Wellsville, Lisbon, Salem, East Palestine, Beaver, Steubenville, Alliance and other places in the district are expected. The hours will be from 8:30 to 12:30.

For generations the Lombardo family has been prominent in Italian operatic circles, one great-uncle of Guy having played under the direction of the immortal composer, Verdi.

There are three brothers in the Lombardo orchestra, which has been playing at the Music Box and the Blossom Heath Inn, Cleveland, and broadcasting from Station WTAM. Besides Guy, the violinist-leader of the organization, there are Carmen and Leiber Lombardo, both clever musicians.

The Royal Canadians is one of the most promising of the younger dance orchestras.

FOR **Acid Stomach** PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

Better Than Soda

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it, neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle

Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drug-store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

STRAND STOCK PROVES WINNER

"The Patsy," Comedy, Opening Show at Playhouse.

A large crowd greeted the Strand Players yesterday afternoon and last night, when they opened a stock run at the St. Clair avenue theatre.

"The Patsy," with a record engagement of 300 nights at the Booth theatre, New York, was the initial presentation. This comedy, by Barry Conners, author of "Applesauce" and "The Mad Honeymoon," proved a decided hit.

"The Patsy" deals with the trials and tribulations of a highly sensitive young girl in the home of a modern American family consisting of a father whose love for her is the only sustaining note in her life, and her mother and older sister who are unendingly nagging and bullying her into taking the blame for everything, though hers is not the fault. Considering herself almost a failure she takes a book which is purchased through an ad in a comic magazine and from which she learns many wise and witty sayings in order to become a social success and a "hit of the party." To the further distress of both her mother and sister she wins Tony, the discarded suitor of her older sister for whom she has secretly cared for a long time. Unwittingly he is won through an effort to have Pat win the man she loves by giving her six lessons in love-making. As the last lesson hits its target Grace, Pat older sister turns, down her new a richer suitor and decides she wan Tony back. And for a time thing seem pretty bad for our heroine.

Matinees will be featured toda Thursday and Saturday, with a sho every night.

WE DOUBLE YOUR GASOLINE EXPECTATIONS

Constant betterment is the spirit of the day. And nowhere is this so strikingly illustrated as in the modern motor car.

Compare the automobile of the present—its beauty of line, its swift, silent motors, its comforts and convenience—with that of former years.

As motors have changed in speed, stroke and bore, there has arisen a need for an improved gasoline to meet these changed conditions.

MARATHON answers the call with the best quality that has been made in years—and at no advance in price.

It's your old favorite--MARATHON--brought to a higher specific gravity—a higher degree of power and perfection—by lowering the "end point."

The sale of this wonder gasoline has surpassed all our expectations—taxing the capacity of our stations and those of our dealers to supply the demand. Users are enthusiastic in their praise—thousands who have never before used MARATHON are flocking to the Green MARATHON Stations for the greatest gasoline value on the market.

If YOU want to know the reason for this success—if YOU want to realize the full possibilities of your car—in increased speed, power, response and all-around improved performance—"Change to MARATHON."

STATE EXPECTS TO REST TODAY IN HEWITT CASE

DEFENSE CALLS ALIENISTS IN MURDER TRIAL

Last-minute Move to Save Accused Youth.

DEFENDANT IS 16

"Second Confession" in Double Killing Introduced.

JEFFERSON, O., April 19.—Defense counsel for Floyd Hewitt, 16 year old Conneaut boy, this afternoon were to begin the introduction of evidence which they hope will clear the youth of charges of murdering Mrs. Celia Brown and her five year old son Fred, Jr., at the Brown home in North Conneaut, February 14.

The state rested its case at noon and the defense was to start its testimony at 1:30 p. m.

JEFFERSON, O., April 19.—The state today expected to rest its case against Floyd Hewitt 16-year-old Conneaut boy, on trial for first degree murder.

Sheriff F. S. Sheldon, who will probably be the state's concluding witness, was to be placed on the stand when court opened this morning and his testimony was to end the state's evidence against the Conneaut youth, who is charged with killing Mrs. Celia Brown and her five-year-old son at Conneaut last February 14.

The defense will put 12 witnesses and two alienists on the stand in an effort to save the boy from the electric chair, it became known here today.

George H. Voerge, Cleveland chemist, was on the witness stand Monday afternoon, and testified that he had analyzed threads which were still clinging to a button picked up at the Brown home following the murder, and found they corresponded with the shade and texture of the Mackinaw coat belonging to Hewitt. Tests of the coat, Voerge testified, proved that a large spot over a breast pocket was blood-stain.

Earlier in Monday's proceedings, the defense objection to introduction of testimony by the state concerning the "second confession" of Hewitt, was overruled. This statement was simply a reiteration of the first confession, with a few added details.

Court officials today predicted the case would go to the jury about Thursday.

THREE STEEL PLANTS MERGE

Henry A. Roemer, Canton, Heads New Organization.

CANTON, O., April 19.—Henry A. Roemer, president of the Superior Sheet Steel company of Canton, today announced a $15,000,000 steel merger involving his own company, the Kokomo Steel and Wire company, of Kokomo, Ind., and the Chapman-Price Steel company of Indianapolis, Ind.

The new organization, which will own and operate all three plants, will be known as the Continental Steel Corporation. Roemer will be manager and president.

The Kokomo factory is worth about $8,000,000, the Indianapolis plant about $4,000,000 and the local concern approximately $3,000,000.

Roemer said today that negotiations for the merger had been going on for a number of years but the matter was brought to a head only recently. The Superior Sheet Steel company was organized here in 1919, largely with local capital.

FORD ROADSTER REPORTED STOLEN

Ford roadster, owned by Max C. Wright of Chester, was stolen while parked in front of the Trotter building Dresden avenue, last evening. The machine carried Pennsylvania license tags number 867-067. The theft was reported to Patrolman Norman McFarland.

China Torn

(Continued from Page One.)

The British consul at Hankow has moved his official quarters on board a ship and all the remaining 300 British at Hankow have been concentrated ready to leave at a moment's notice.

Gen. Chiang Kai Shek is moving a strong army to Nanking, the seat of his new government, promising to suppress all Communists.

South China officials at Kiukiang are expecting the arrival of Gen. Ching Chien, who is hostile to Gen. Chiang, and who is reported to have cast his lot with the extremists.

Shanghai was said to be quiet. The defense volunteers have been demobolized and patrol duty is being undertaken by tanks and other mechanical units.

Another Hongkong dispatch reported fighting between Communist students and conservatives in Honan province. The students inflicted numerous casualties upon their opponents before they were overpowered.

Moderates carried out a successful anti-Red campaign at Amoy.

Three Villages Burned.

HONGKONG, April 19.—Three villages were burned in the course of anti-communist operations near Yintek, a town on the North river near Canton, advices from Canton stated today.

Communist students in Honan are reported to have resisted the anti-communist drive, inflicting a number of casualties among the moderates before being overpowered and captured.

Heeding the demands of the powers for protection of their nationals in China, the Cantonese government has supplied all district magistrates with lists of foreign missionaries in their districts. The magistrates were told, reports stated, that it is their duty to protect these foreign workers.

Reports received here indicated that the anti-Communist drive in Amoy, a seaport town about midway between here on Shanghai, was successful.

Chinese Drown as Steamer Burns.

SHANGHAI, April 19.—Many Chinese were reported drowned today when the Chinese steamship Pengpu, carrying 2,000 Chinese civilians and 1,000 Chinese soldiers from Hankow to Shanghai, caught fire in the Yangtze river. Panic followed and fear-stricken men, women and children leaped overboard and were drowned before the Pengpu could be moored. After the vessel had reached the bank, flames were put out, but the ship was badly damaged. She left Hankow April 8.

Japan Tightens Policy.

TOKIO, April 19.—Tightening of Japan's policy toward China was forecast today by the appointment as premier of Gen. Baron Giichi Tanako, former minister of war and the president of the Seiyukai, or opposition party. Tanako succeeds Hejiiro Wakatsui, who resigned with his entire cabinet when the privy council vetoed their relief of the Bank of Formosa. Tanaka has consistently advanced a strong Chinese policy.

"We request a continuance until Thursday," said Hanley. "We intend to ask for a mistrial and we want time to prepare a formal notice for the counsel for the plaintiff."

Gallagher immediately said he had no objection as Sapiro desired Reed to end his cross-examination.

"We want the head of the defense to take charge of Mr. Sapiro's cross-examination at all times," said Gallagher. "We want no alibis or excuses from the defense that they were unable to have the head of their defense conduct this examination."

Governor Donahey Reports Veto of Three More Bills

COLUMBUS, O., April 19.—Governor Vic Donahey today informed Ohio legislators that he has vetoed three more measures passed this session: The Marshall bill, proposing to increase the salary of the penitentiary chaplain from $1,500 to $2,500 annually; the Abelene bill, authorizing theft insurance for funds of securities in custody of the county treasurer, and the Roberts bill, to increase salaries of county commissioners and to prohibit them from collecting certain fees.

Cooper G. O. P. Hope For Governor in 1928, Says Warner

MARION, O., April 19.—Myers Y. Cooper, Cincinnati, defeated Republican candidate for governor of Ohio in 1926, is the party's hope for governor in 1928, Fred W. Warner, Marion, chairman of the Republican state central committee, declared here today.

Other party "hopes," according to Warner, will be Edward C. Turner, attorney general, and Simeon D. Fess, for United States senator.

CALL FOR AID FOR REFUGEES IN MISSISSIPPI FLOOD AREAS

Between 25,000 and 40,000 Persons are Homeless.

RED CROSS BUSY

New Breaks Inundate Sections in Illinois and Arkansas.

ST. LOUIS, April 19.—With suffering increasing to sections south of here, the Red Cross sent out an appeal today for contributions to a fund to be used to house between 25,000 and 40,000 flood refugees until the waters recede along the Mississippi river and its tributaries.

New breaks late yesterday to the south of here inundated additional territories in southern Illinois and Arkansas.

William M. Baxter, Jr., in charge of the mid-western branch of the Red Cross in this city, directing the emergency relief in the states of Illinois, Arkansas and Missouri, declared today every resource of the organization, both national and local, was being used to relieve the suffering of refugees.

Railroads Dispatch Tents.

Railroads are co-operating in the dispatch of tents, which are being furnished by the United States army.

The latest break reported occurred in Illinois across the river from Cape Girardeau, Mo., driving 25 families from their homes. These refugees and others between Reynoldsville and Gale, Ill., are being taken across the river to Missouri for safety while hundreds are being housed in tents erected on high ground near Cairo.

The levee break at East Cape Girardeau caused a fall of the river at Cape Girardeau, Mo., and brought the Mississippi to a stationary stage at Cairo, relieving somewhat the anxiety in these two sections. The property loss in this section has been heavy but no loss of life has been reported.

Kansas Rivers Rising.

KANSAS CITY, Mo., April 19.—Southeast Kansas was today in the grip of a flood, the third in two weeks, with rivers rising at a rapid rate following heavy rains.

Burlington, Kas., and Iola, were hardest hit, the Neosho river at the latter place spreading out over lowlands for three miles.

The Cerdigris river at Madison was rising at the rate of 30 inches an hour during the night and by morning had flooded lowlands and driven residents from the town.

Many were again homeless today after they had returned from the two floods last week to set their homes in order.

Several small twisters visited the vicinity of eastern Oklahoma but no lives were lost. At Texarkana, Ark., one was killed and four injured in a tornado.

Ottawa, Kas., 80 miles from Kansas City, was threatened today with inundation. The Maires Des Cygne river had risen to the highest level for several years.

Flood waters were a foot deep on Main street in Burlington, Kas. Two creeks north of the Iola were overflowing and swelling the flood waters of the Neosho.

At Chanute river lowlands were flooded and more than a thousand acres were inundated north of the city.

Heavy rains were reported at Hutchinson and Wichita.

St. Francis Basin in Jeopardy.

MEMPHIS, Tenn., April 19.—With the entire St. Francis basin in jeopardy from a break in the levee near New Madrid, Mo., government engineers today directed the efforts of hundreds of workmen to prevent a change of the course of the Mississippi river at that point.

Engineers said only an act of providence or a sudden standstill in the waters can prevent the Saint Francis basin from being flooded. The water was still rising steadily today, and efforts of engineers were directed toward "topping" the barriers and otherwise reinforcing them.

Reports that the levee at Farrensburg on the Little river had broken were denied, but it was admitted that water was lapping over the side. All night long more than 1,000 men labored to prevent the levee from crashing before the pressure of the high waters.

The flood situation, especially in Arkansas, Mississippi and along the lower Mississipi valley became worse today.

A dozen deaths are more or less attributed to the floods, while nearly 30,000 are homeless, according to Red Cross estimates. Property damage and loss to farmers, as the result of thousands of acres being inundated, is incalculable, but it probably will run into millions.

OKLAHOMA HIT BY WINDSTORM

MEMPHIS, Tenn., April 19.— A severe windstorm, the third in two weeks, is sweeping Oklahoma and eastern Arkansas today. Telephone and telegraph wires to Fort Smith, Ark., and vicinity, have been down since 8:30 a. m., giving rise to reports that Fort Smith had been struck by a tornado.

Gwinnett, who signed the will as witness. Gwinnett also signed the Declaration of Independence. His signatures are rare. Mr. Rosenbach bought that Stanley will for $22,500.

Collecting autographs is an interesting survival of fetichism, a strange instinct going back thousands of centuries, to odds and ends that the medicine man carries in his witch bag, to the strange ingredients that Shakespeare makes the witches put into their hell broth, the finger of a babe born in a ditch—the toe of a frog, bob boons' blood, etc. In the same spirit, although they don't know it, men collect autographs, feeling that something magical clings to them. A man might pay $100,000 for the original manuscript of Milton's "Paradise Lost," that would refuse to read the poem through if you offered him $100,000 for the reading.

Mr. Gibson, who represents us in the League of Nations, where we have no business, tells European powers that this country would never allow the league to control our armaments. Satisfactory as far as it goes. Why can't we let the league attend to its affairs while we attend to ours?

When the total population of the United States was less than half the population of today's New York City we managed our own affairs without Europe's help. Why should it be impossible for 115,000,000 Americans to do the same?

New York State easily sells bonds to yield interest of only 3.65.

New York City alone has a debt greater than the whole debt of the United States before the war.

What a state, city or nation should fear is not debt, but unwise use of money in exchange for bonds.

Instead of spending our 21 billion dollars to buy dubious securities in Europe, we might well spend those thousands of millions making this country more comfortable and prosperous.

We might even build an air fleet to keep SOMEBODY some fine day from coming over and getting 21 billions more without "by your leave."

A negro applying for admission to a government training camp is told by the War Department that rules make it impossible to admit him. Regulations say colored men must enlist in colored regiments. Camps for colored young men will be established, which may solve the problem.

However, if whites have the right to decide in what regiments and camps colored young men may enroll, it would seem only fair to let the colored young men decide in what particular wars they would be enrolled.

THREE MEN GET JAIL TERMS

East End Youths Sentenced for Tire Theft.

Dale and Everett Brookes, brothers, and Clinton Murrell, East End youths, were sentenced to serve four months in the county jail and to pay the costs in the case when they were taken before Probate Judge Lodge Riddle, Lisbon, yesterday upon charges of stripping an automobile, owned by George Nick, Lisbon junk dealer, while it was parked near the Crubaugh-Chevrolet garage, south of Lisbon, Saturday morning.

Ernest Stitt, fourth member of the party, was fined $10 and costs and made a ward of the juvenile court. Manford Banfield, charged with the same offense and who is at liberty under bond, will face the court later.

The youths were held for action of the county grand jury when they faced Mayor Robert Clark, Lisbon, Saturday night, when they pleaded guilty. Inasmuch as the grand jury does not meet again until September the case was taken before the probate court by Prosecuting Attorney Brookes. Assistant Prosecuting Attorney John Bauknecht prosecuted the youths.

M. McIntosh, East Liverpool, issuing fraudulent checks, $300 bond.

Edgar Vess, East Liverpool, operating automobile without consent of the owner, $1,500 bond.

REPORTS FROM STOCK MARKETS

NEW YORK, April 19.—Unsettlement in the early trading today was the direct result of speculative selling of the industrial stocks, based on the $22,377,000 increase in brokers' borrowings, bringing the aggregate loans on securities to the peak of the year to date. Losses of a point or two were sustained by a number of the high-priced industrial and specialty stocks, oils continued under sharp selling pressure, while the rails were firm under comparatively light trading.

Bearish professionals launched an aggressive attack on various sections of the market, in an effort to "shake out" some of the weakly held stocks. Marland and Phillips were pounded down to the year's low prices in a deluge of selling orders, but the balance of the oil list held firmly, having the benefit of a 14,000-barrel decrease in weekly crude oil production, and an intimation that price-cutting had about run its course in both crude oil and gasoline.

The Japanese yen, which has been under pressure in the last few days, scored a moderate recovery at the opening of the foreign exchange markets. Call money renewal rates were unchanged at 4 per cent, with funds in good supply. After a firm opening, cotton eased off a few points, while grain markets were irregular, with narrow price changes.

United States Steel common and "new common" were freely offered in professional quarters in the second hour, on the theory that the good news was "out," and that profit taking would therefore be in order. The stock declined about two points to 170½. DuPont and Fox Film lost about three points, but recovered. The oils appeared to be in a "sold out" condition and moderate rallies were scored by the PanAmericans, the Standards and a few of the independent oils. Coppers were steady and sugar stocks firm.

Coolidge Lauds Secretary Hoover As Capable Aide

WASHINGTON, April 19.—President Coolidge today took steps to correct the impression that he had "rebuked" Herbert Hoover when he stated last week that Secretary of State Kellogg was not resigning, and that if he did resign Secretary Hoover would not be appointed to succeed him.

In the regular press conference today, President Coolidge explained that no rebuke to or reflection on Secretary Hoover's abilities had been intended. The president explained that he considered the secretary of commerce highly capable of filling any post in the cabinet, and that he had meant to convey only that Hoover's work in the department of commerce was too important to be dispensed with.

ROTARY HONORS ESSAY WRITERS

Eight Boys Given Fountain Pens at Luncheon.

One hundred and fourteen boys in the public and parochial schools, winners in the book-reading and essay-writing contest conducted by the club, were guests at the Rotary luncheon meeting in the Ceramic cafeteria hall, West Fifth street, at noon today.

Eight guests, ranging in age from 6 to 16 years, whose essays were judged the best written among other contestants in the same grades, were awarded fountain pens. They were:

Randall Green, Central school, first grade; William Hodgson, St. Aloysius school, second grade; William Wurzel, St. Aloysius school, third grade; C. M. Tarvar, Horace Mann school, fourth grade; Edward Weigle, Sixth street school, fifth grade; John Rayl, Central school, seventh grade; Rigby Mast, Central school, eighth grade. Donald Ogilvie, Lincoln school, was the sixth grade winner.

To every school room where every boy qualified by reading two or more books during the term and writing an essay on the subject, "What I Liked Best About the Book I Read," will be given an American flag or a framed picture of Lincoln or Washington. Eighty-four rooms qualified for these prizes.

Charles Boyce, chairman of the boys' work committee, under whose auspices the contest was conducted, presided. He was introduced by President Martin Abbott, club president.

Program for the meeting was given by eight boys from the Horace Mann school, in charge of Miss Maud Baum, principal of the building, and Miss Phyllis Boyd, teacher. Every boy in this building for the last two years has qualified in the Rotary club's annual contest. The program included chorus and orchestra numbers, with Miss Boyd as the accompanist.

Students of the Carnegie Institute of Technology, Pittsburgh, will visit East Liverpool next Tuesday, when they will be guests of the Rotarians at a luncheon meeting. Herbert Brenneman will be chairman of the meeting.

TWO UNHURT AS BEAVER CREEK BRIDGE FALLS

Tractor Plunges 25 Feet; Another Man Jumps.

MACHINES ARE O. K.

Contractors Begin Work on Temporary Span at Williamsport.

Construction of a temporary bridge across Beaver creek at Williamsport, was started by Williams, Howard & Smith, Youngstown contractors, today, following the collapse of the old iron structure Saturday, when two tractor drivers narrowly escaped serious injury.

The temporary span will be used by the contractors until the new concrete bridge, to be erected at another point along the creek, is completed. Other traffic along the road will be required to cross the creek at a shallow ford a short distance below the site of the old span.

Two Fordson tractors, one of them attached to a road scaper, were passing over the bridge when the main girder, approximately 100 feet in length, buckled without warning. One of the men leaped from his seat on the tractor to the end of the bridge, but the other workman dropped with his machine to the bottom of the creek, about 25 feet below.

In the fall the driver's hip pocket was caught in a part of the machine and he was held fast in about three feet of water until he was extricated by fellow workmen. He was not hurt.

Neither of the two tractors were damaged.

The bridge was erected in 1890, and several years ago was condemned for heavy vehicles. The weight of the tractors and other materials, which the contractors have been transporting across the bridge, is believed to have been too great a strain

County commissioners and County Surveyor Lloyd C. Kirk visited the scene of the accident yesterday afternoon after word was received in Lisbon.

The contractors, in charge of road grading work between the Township Line school and Williamsport, plan to have the new span across the creek completed before fall. Surfacing work on this road will also be completed before that date.

This whole-grain food
brings extra flavor—extra nourishment

The natural, unspoiled flavor of the whole grain—that's what makes a bowl of Mother's Oats taste so good. It cooks so smoothly, too—and you can always count on it being the same.

For the careful millers of Mother's Oats have learned how to make oats finer—smoother—more uniform—through 50 years of experience.

Children notice the difference at once.

And mothers are especially glad to see their growing children enjoy this nourishing breakfast. They know how child health specialists are urging the whole grains these days.

Mother's Oats with milk makes a liberal contribution of vitamins—minerals—protein and other elements that are necessary for sound and perfect development.

Two kinds—the kind you have always known or Quick (cooks in 2½ to 5 minutes). Both with coupons interchangeable with Aunt Jemima coupons, good for silverware and many other handsome articles.

STATE EXPECTS TO REST TODAY IN HEWITT CASE

DEFENSE CALLS ALIENISTS IN MURDER TRIAL

Last-minute Move to Save Accused Youth.

DEFENDANT IS 16

"Second Confession" in Double Killing Introduced.

JEFFERSON, O., April 19.—Defense counsel for Floyd Hewitt, 16 year old Conneaut boy, this afternoon were to begin the introduction of evidence which they hope will clear the youth of charges of murdering Mrs. Celia Brown and her five year old son Fred, Jr., at the Brown home in North Conneaut, February 14.

The state rested its case at noon and the defense was to start its testimony at 1:30 p. m.

JEFFERSON, O., April 19.—The state today expected to rest its case against Floyd Hewitt 16-year-old Conneaut boy, on trial for first degree murder.

Sheriff F. S. Sheldon, who will probably be the state's concluding witness, was to be placed on the stand when court opened this morning and his testimony was to end the state's evidence against the Conneaut youth, who is charged with killing Mrs. Celia Brown and her five-year-old son at Conneaut last February 14.

The defense will put 12 witnesses and two alienists on the stand in an effort to save the boy from the electric chair, it became known here today.

George H. Voerge, Cleveland chemist, was on the witness stand Monday afternoon, and testified that he had analyzed threads which were still clinging to a button picked up at the Brown home following the murder, and found they corresponded with the shade and texture of the Mackinaw coat belonging to Hewitt. Tests of the coat, Voerge testified, proved that a large spot over a breast pocket was blood-stain.

Earlier in Monday's proceedings, the defense objection to introduction of testimony by the state concerning the "second confession" of Hewitt, was overruled. This statement was simply a reiteration of the first confession, with a few added details.

Court officials today predicted the case would go to the jury about Thursday.

THREE STEEL PLANTS MERGE

Henry A. Roemer, Canton, Heads New Organization.

CANTON, O., April 19.—Henry A. Roemer, president of the Superior Sheet Steel company of Canton, today announced a $15,000,000 steel merger involving his own company, the Kokomo Steel and Wire company, of Kokomo, Ind., and the Chapman-Price Steel company of Indianapolis, Ind.

The new organization, which will own and operate all three plants, will be known as the Continental Steel Corporation. Roemer will be manager and president.

The Kokomo factory is worth about $8,000,000, the Indianapolis plant about $4,000,000 and the local concern approximately $3,000,000.

Roemer said today that negotiations for the merger had been going on for a number of years but the matter was brought to a head only recently. The Superior Sheet Steel company was organized here in 1919, largely with local capital.

Shanghai was said to be quiet. The defense volunteers have been demobolized and patrol duty is being undertaken by tanks and other mechanical units.

Another Hongkong dispatch reported fighting between Communist students and conservatives in Honan province. The students inflicted numerous casualties upon their opponents before they were overpowered.

Moderates carried out a successful anti-Red campaign at Amoy.

Three Villages Burned.

HONGKONG, April 19.—Three villages were burned in the course of anti-communist operations near Yintek, a town on the North river near Canton, advices from Canton stated today.

Communist students in Honan are reported to have resisted the anti-communist drive, inflicting a number of casualties among the moderates before being overpowered and captured.

Heeding the demands of the powers for protection of their nationals in China, the Cantonese government has supplied all district magistrates with lists of foreign missionaries in their districts. The magistrates were told, reports stated, that it is their duty to protect these foreign workers.

Reports received here indicated that the anti-Communist drive in Amoy, a seaport town about midway between here on Shanghai, was successful.

Chinese Drown as Steamer Burns.

SHANGHAI, April 19.—Many Chinese were reported drowned today when the Chinese steamship Pengpu, carrying 2,000 Chinese civilians and 1,000 Chinese soldiers from Hankow to Shanghai, caught fire in the Yangtze river. Panic followed and fear-stricken men, women and children leaped overboard and were drowned before the Pengpu could be moored. After the vessel had reached the bank, flames were put out, but the ship was badly damaged. She left Hankow April 8.

Japan Tightens Policy.

TOKIO, April 19.—Tightening of Japan's policy toward China was forecast today by the appointment as premier of Gen. Baron Giichi Tanako, former minister of war and the president of the Seiyukai, or opposition party. Tanako succeeds Hejiiro Wakatsui, who resigned with his entire cabinet when the privy council vetoed their relief of the Bank of Formosa. Tanaka has consistently advanced a strong Chinese policy.

"We request a continuance until Thursday," said Hanley. "We intend to ask for a mistrial and we want time to prepare a formal notice for the counsel for the plaintiff."

Gallagher immediately said he had no objection as Sapiro desired Reed to end his cross-examination.

"We want the head of the defense to take charge of Mr. Sapiro's cross-examination at all times," said Gallagher. "We want no alibis or excuses from the defense that they were unable to have the head of their defense conduct this examination."

Governor Donahey Reports Veto of Three More Bills

COLUMBUS, O., April 19.—Governor Vic Donahey today informed Ohio legislators that he has vetoed three more measures passed this session: The Marshall bill, proposing to increase the salary of the penitentiary chaplain from $1,500 to $2,500 annually; the Abelene bill, authorizing theft insurance for funds of securities in custody of the county treasurer, and the Roberts bill, to increase salaries of county commissioners and to prohibit them from collecting certain fees.

Cooper G. O. P. Hope For Governor in 1928, Says Warner

MARION, O., April 19.—Myers Y. Cooper, Cincinnati, defeated Republican candidate for governor of Ohio in 1926, is the party's hope for governor in 1928, Fred W. Warner, Marion, chairman of the Republican state central committee, declared here today.

Other party "hopes," according to Warner, will be Edward C. Turner, attorney general, and Simeon D. Fess, for United States senator.

CALL FOR AID FOR REFUGEES IN MISSISSIPPI FLOOD AREAS

Between 25,000 and 40,000 Persons are Homeless.

RED CROSS BUSY

New Breaks Inundate Sections in Illinois and Arkansas.

ST. LOUIS, April 19.—With suffering increasing to sections south of here, the Red Cross sent out an appeal today for contributions to a fund to be used to house between 25,000 and 40,000 flood refugees until the waters recede along the Mississippi river and its tributaries.

New breaks late yesterday to the south of here inundated additional territories in southern Illinois and Arkansas.

William M. Baxter, Jr., in charge of the mid-western branch of the Red Cross in this city, directing the emergency relief in the states of Illinois, Arkansas and Missouri, declared today every resource of the organization, both national and local, was being used to relieve the suffering of refugees.

Railroads Dispatch Tents.

Railroads are co-operating in the dispatch of tents, which are being furnished by the United States army.

The latest break reported occurred in Illinois across the river from Cape Girardeau, Mo., driving 25 families from their homes. These refugees and others between Reynoldsville and Gale, Ill., are being taken across the river to Missouri for safety while hundreds are being housed in tents erected on high ground near Cairo.

The levee break at East Cape Girardeau caused a fall of the river at Cape Girardeau, Mo., and brought the Mississippi to a stationary stage at Cairo, relieving somewhat the anxiety in these two sections. The property loss in this section has been heavy but no loss of life has been reported.

Kansas Rivers Rising.

KANSAS CITY, Mo., April 19.—Southeast Kansas was today in the grip of a flood, the third in two weeks, with rivers rising at a rapid rate following heavy rains.

Burlington, Kas., and Iola, were hardest hit, the Neosho river at the latter place spreading out over lowlands for three miles.

The Cerdigris river at Madison was rising at the rate of 30 inches an hour during the night and by morning had flooded lowlands and driven residents from the town.

Many were again homeless today after they had returned from the two floods last week to set their homes in order.

Several small twisters visited the vicinity of eastern Oklahoma but no lives were lost. At Texarkana, Ark., one was killed and four injured in a tornado.

Ottawa, Kas., 80 miles from Kansas City, was threatened today with inundation. The Maires Des Cygne river had risen to the highest level for several years.

Flood waters were a foot deep on Main street in Burlington, Kas.. Two creeks north of the Iola were overflowing and swelling the flood waters of the Neosho.

At Chanute river lowlands were flooded and more than a thousand acres were inundated north of the city.

Heavy rains were reported at Hutchinson and Wichita.

St. Francis Basin in Jeopardy.

MEMPHIS, Tenn., April 19.—With the entire St. Francis basin in jeopardy from a break in the levee near New Madrid, Mo., government engineers today directed the efforts of hundreds of workmen to prevent a change of the course of the Mississippi river at that point.

Engineers said only an act of providence or a sudden standstill in the waters can prevent the Saint Francis basin from being flooded. The water was still rising steadily today, and efforts of engineers were directed toward "topping" the barriers and otherwise reinforcing them.

Reports that the levee at Farrensburg on the Little river had broken were denied, but it was admitted that water was lapping over the side. All night long more than 1,000 men labored to prevent the levee from crashing before the pressure of the high waters.

The flood situation, especially in Arkansas, Mississippi and along the lower Mississipi valley became worse today.

A dozen deaths are more or less attributed to the floods, while nearly 30,000 are homeless, according to Red Cross estimates. Property damage and loss to farmers, as the result of thousands of acres being inundated, is incalculable, but it probably will run into millions.

OKLAHOMA HIT BY WINDSTORM

MEMPHIS, Tenn., April 19.— A severe windstorm, the third in two weeks, is sweeping Oklahoma and eastern Arkansas today. Telephone and telegraph wires to Fort Smith, Ark., and vicinity, have been down since 8:30 a. m., giving rise to reports that Fort Smith had been struck by a tornado.

Gwinnett, who signed the will as witness. Gwinnett also signed the Declaration of Independence. His signatures are rare. Mr. Rosenbach bought that Stanley will for $22,500.

Collecting autographs is an interesting survival of fetichism, a strange instinct going back thousands of centuries, to odds and ends that the medicine man carries in his witch bag, to the strange ingredients that Shakespeare makes the witches put into their hell broth, the finger of a babe born in a ditch—the toe of a frog, bab boons' blood, etc. In the same spirit, although they don't know it, men collect autographs, feeling that something magical clings to them. A man might pay $100,000 for the original manuscript of Milton's "Paradise Lost," that would refuse to read the poem through if you offered him $100,000 for the reading.

Mr. Gibson, who represents us in the League of Nations, where we have no business, tells European powers that this country would never allow the league to control our armaments. Satisfactory as far as it goes. Why can't we let the league attend to its affairs while we attend to ours?

When the total population of the United States was less than half the population of today's New York City we managed our own affairs without Europe's help. Why should it be impossible for 115,000,000 Americans to do the same?

New York State easily sells bonds to yield interest of only 3.65.

New York City alone has a debt greater than the whole debt of the United States before the war.

What a state, city or nation should fear is not debt, but unwise use of money in exchange for bonds.

Instead of spending our 21 billion dollars to buy dubious securities in Europe, we might well spend those thousands of millions making this country more comfortable and prosperous.

We might even build an air fleet to keep SOMEBODY some fine day from coming over and getting 21 billions more without "by your leave."

A negro applying for admission to a government training camp is told by the War Department that rules make it impossible to admit him. Regulations say colored men must enlist in colored regiments. Camps for colored young men will be established, which may solve the problem.

However, if whites have the right to decide in what regiments and camps colored young men may enroll, it would seem only fair to let the colored young men decide in what particular wars they would be enrolled.

THREE MEN GET JAIL TERMS

East End Youths Sentenced for Tire Theft.

Dale and Everett Brookes, brothers, and Clinton Murrell, East End youths, were sentenced to serve four months in the county jail and to pay the costs in the case when they were taken before Probate Judge Lodge Riddle, Lisbon, yesterday upon charges of stripping an automobile, owned by George Nick, Lisbon junk dealer, while it was parked near the Crubaugh-Chevrolet garage, south of Lisbon, Saturday morning.

Ernest Stitt, fourth member of the party, was fined $10 and costs and made a ward of the juvenile court. Manford Banfield, charged with the same offense and who is at liberty under bond, will face the court later.

The youths were held for action of the county grand jury when they faced Mayor Robert Clark, Lisbon, Saturday night, when they pleaded guilty. Inasmuch as the grand jury does not meet again until September the case was taken before the probate court by Prosecuting Attorney Brookes. Assistant Prosecuting Attorney John Bauknecht prosecuted the youths.

Andrew Birchak, Salem, criminal assault, $2,000 bond. Represented by Metzger, McCarthy and McCorkhill, Salem.

Nathan Jones, colored, Wellsville, burning property with intent to prejudice insurers, 51,500 bond. Represented by Attorney W. A. O'Grady; also indictment charging arson, $1,500 bond.

James Miller, Leetonia, criminal assault, $1,000 bond, counsel to be appointed.

George Shurtz, Salem, uttering and publishing false instrument, $1,500 bond.

George Shultz, John Shultz, Lloyd Rager and Abe Katz, all of Wellsville, larceny, embezzlement, receiving and concealing stolen property, $1,000 bond each. Represented by W. A. O'Grady.

David Evans, Altoona, Pa., operating automobile owned by James R. Dillon, Salem, without consent of the owner, $1,500 bond.

M. McIntosh, East Liverpool, issuing fraudulent checks, $300 bond.

Edgar Vess, East Liverpool, operating automobile without consent of the owner, $1,500 bond.

REPORTS FROM STOCK MARKETS

NEW YORK, April 19.—Unsettlement in the early trading today was the direct result of speculative selling of the industrial stocks, based on the $22,377,000 increase in brokers' borrowings, bringing the aggregate loans on securities to the peak of the year to date. Losses of a point or two were sustained by a number of the high-priced industrial and specialty stocks, oils continued under sharp selling pressure, while the rails were firm under comparatively light trading.

Bearish professionals launched an aggressive attack on various sections of the market, in an effort to "shake out" some of the weakly held stocks. Marland and Phillips were pounded down to the year's low prices in a deluge of selling orders, but the balance of the oil list held firmly, having the benefit of a 14,000-barrel decrease in weekly crude oil production, and an intimation that price-cutting had about run its course in both crude oil and gasoline.

The Japanese yen, which has been under pressure in the last few days, scored a moderate recovery at the opening of the foreign exchange markets. Call money renewal rates were unchanged at 4 per cent, with funds in good supply. After a firm opening, cotton eased off a few points, while grain markets were irregular, with narrow price changes.

United States Steel common and "new common" were freely offered in professional quarters in the second hour, on the theory that the good news was "out," and that profit taking would therefore be in order. The stock declined about two points to 170¾. DuPont and Fox Film lost about three points, but recovered. The oils appeared to be in a "sold out" condition and moderate rallies were scored by the PanAmericans, the Standards and a few of the independent oils. Coppers were steady and sugar stocks firm.

Coolidge Lauds Secretary Hoover As Capable Aide

WASHINGTON, April 19.—President Coolidge today took steps to correct the impression that he had "rebuked" Herbert Hoover when he stated last week that Secretary of State Kellogg was not resigning, and that if he did resign Secretary Hoover would not be appointed to succeed him.

In the regular press conference today, President Coolidge explained that no rebuke to or reflection on Secretary Hoover's abilities had been intended. The president explained that he considered the secretary of commerce highly capable of filling any post in the cabinet, and that he had meant to convey only that Hoover's work in the department of commerce was too important to be dispensed with.

ROTARY HONORS ESSAY WRITERS

Eight Boys Given Fountain Pens at Luncheon.

One hundred and fourteen boys in the public and parochial schools, winners in the book-reading and essay-writing contest conducted by the club, were guests at the Rotary luncheon meeting in the Ceramic cafeteria hall, West Fifth street, at noon today.

Eight guests, ranging in age from 6 to 16 years, whose essays were judged the best written among other contestants in the same grades, were awarded fountain pens. They were:

Randall Green, Central school, first grade; William Hodgson, St. Aloysius school, second grade; William Wurzel, St. Aloysius school, third grade; C. M. Tarvar, Horace Mann school, fourth grade; Edward Weigle, Sixth street school, fifth grade; John Rayl, Central school, seventh grade; Rigby Mast, Central school, eighth grade. Donald Ogilvie, Lincoln school, was the sixth grade winner.

To every school room where every boy qualified by reading two or more books during the term and writing an essay on the subject, "What I Liked Best About the Book I Read," will be given an American flag or a framed picture of Lincoln or Washington. Eighty-four rooms qualified for these prizes.

Charles Boyce, chairman of the boys' work committee, under whose auspices the contest was conducted, presided. He was introduced by President Martin Abbott, club president.

Program for the meeting was given by eight boys from the Horace Mann school, in charge of Miss Maud Baum, principal of the building, and Miss Phyllis Boyd, teacher. Every boy in this building for the last two years has qualified in the Rotary club's annual contest. The program included chorus and orchestra numbers, with Miss Boyd as the accompanist.

Students of the Carnegie Institute of Technology, Pittsburgh, will visit East Liverpool next Tuesday, when they will be guests of the Rotarians at a luncheon meeting. Herbert Breneman will be chairman of the meeting.

TWO UNHURT AS BEAVER CREEK BRIDGE FALLS

Tractor Plunges 25 Feet; Another Man Jumps.

MACHINES ARE O. K.

Contractors Begin Work on Temporary Span at Williamsport.

Construction of a temporary bridge across Beaver creek at Williamsport, was started by Williams, Howard & Smith, Youngstown contractors, today, following the collapse of the old iron structure Saturday, when two tractor drivers narrowly escaped serious injury.

The temporary span will be used by the contractors until the new concrete bridge, to be erected at another point along the creek, is completed. Other traffic along the road will be required to cross the creek at a shallow ford a short distance below the site of the old span.

Two Fordson tractors, one of them attached to a road scaper, were passing over the bridge when the main girder, approximately 100 feet in length, buckled without warning. One of the men leaped from his seat on the tractor to the end of the bridge, but the other workman dropped with his machine to the bottom of the creek, about 25 feet below.

In the fall the driver's hip pocket was caught in a part of the machine and he was held fast in about three feet of water until he was extricated by fellow workmen. He was not hurt. Neither of the two tractors were damaged.

The bridge was erected in 1890, and several years ago was condemned for heavy vehicles. The weight of the tractors and other materials, which the contractors have been transporting across the bridge, is believed to have been too great a strain

County commissioners and County Surveyor Lloyd C. Kirk visited the scene of the accident yesterday afternoon after word was received in Lisbon.

The contractors, in charge of road grading work between the Township Line school and Williamsport, plan to have the new span across the creek completed before fall. Surfacing work on this road will also be completed before that date.

BORER CONTROL WORK LAUNCHED

Two Machines Operated by Tractors Remove Corn Stubbles.

Two stubble pulverizers for Corn Borer Control work are in operation in Columbiana county, and others are expected this week. These machines shred the corn stubbles as they stand on the ground. They are operated with tractors. One was placed in use in a 50 acre field on the Croxall farm in St. Clair township, and the other began work in a 50 acre field on the Firestone farm near Columbiana.

A public meeting was held in connection with the operation of the pulverizer at the Croxall farm Tuesday afternoon. A similar meeting has been announced for two o'clock Wednesday, at the Firestone farms. The other machines will be used in various parts of the county where farmers make applications for them. Six cars for use of the Corn Borer inspectors in Columbiana county also have arrived.

The Inspectors received instructions and began work Monday. Those appointed are: E. N. Hickman, East Liverpool, St. Clair, Madison and Elk run; J. M. Kerr, Wellsville, Liverpool, Yellow Creek and Washington townships; C. W. Alexander, Lisbon, Center, Wayne and Franklin townships; J. C. Gaston, Clarkson, Middleton, Unity and Fairfield townships; Ray Millen, Columbiana, Salem, Perry and Butler townships, and Walter Humphrey, E. Rochester, for Hanover, Knox and West townships. Other inspectors are expected to be appointed later.

Persons wishing to use a Government stubble pulverizer must make application to their respective inspectors. A charge of $1.00 per acre is made for use of the machines, this being deducted from the compensation allowed for clean-up.

ROAD GRADING PLANS APPROVED

Plans for the improvement by grading of the East Palestine-East Liverpool intercounty highway were approved by the county commissioners Monday afternoon. This road is to be graded this summer between Calcutta and Negley in Middleton township, bids for which work are now being asked by the commissioners. Grading on this project has been estimated at over $180,000, but because of considerable "casting" being possible on this job, the commissioners are of the opinion the contract will be awarded at a price considerable under the estimate.

The commissioners have also been informed by the Middleton township trustees of their intent to make temporary improvement on the Achortown road, which intersects the East Palestine-East Liverpool road.

BOOKLET MAILED WOOL PRODUCERS

A few minutes devoted to the preparation of wool for market at the time of shearing may make as much as five to ten cents a pound difference in the price received for that wool, according to a booklet on the "Preparation of Wools for Market," a supply of which has just been received by the Columbiana County Farm Bureau. The booklet, by J. F. Walker, now consulting specialist for the United States Department of Agriculture and R. A. Hammond, and has been mailed to nearly 10,000 wool producers of the state by the Ohio Wool Growers' Cooperation association.

Ohio wools have long set the standard of wools for the world, and are in most demand by mills, according to the booklet. Growers for their own benefit must exert every effort in the production and preparation of their wools to keep wools up to that standard.

COUNTY REPORTS CATTLE INCREASE

The Northeastern district of Ohio, which includes Columbiana county, ranks third in the state, according to information just received by County Agent Floyd Lower in the increase number of heifers kept on the farms for milk purposes. The rate of increase is 6.3 per cent over previous records, records received by Mr. Lower show.

Cows and heifers are greater in number now than a year ago, and only 30,000 less than the 1925 records disclosed. There are 38,000 fewer dairy cows than there were in 1925 but 8,000 more heifers. The increase in the number of heifers shows a larger potential supply of milk and reflects, according to Mr. Lower, the confidence the producer and distributor in the present economic method of marketing milk.

Milk prices paid the farmer are higher this season than a year ago, and the present market is likely to continue indefinately.

Deed Correction Sought.

A petition has been filed in common pleas court by Georgia Davidson against Lee R. Mackey seeking the correction of a deed and other equitable relief. The plaintiff purchased part of lot 10 in M. K. McKinnon's Ohio city addition for $125 June 14th, 1926 for which a warranty deed was given. Since that time, certain errors in the deed have been discovered, and the court is now asked to reform the instrument. Hill and Davidson are counsel for the plaintiff.

Property Transfers.

Real estate transfers have been recorded as follows:

James Cooley and others to the First Methodist Episcopal church, Salem, lots 324-325 Street's addition, Salem. $6.500.

Marion Grama to Ana Grame, part lot 277, Street's addition, Salem. $3,500.

Robert L. Farr and wife to John Fory and others, 3.4 acres, section 2, Perry township. $1.

Levi Yoder to Mary E. Risher, 8.02 acres, section 8, Fairfield township. $1.

Joseph P. Rhodes and others to Mabel Rutter, lots, 6-162, Brooks' second addition, Salem. $1.

Marriage Licenses.

A marriage license has been issued to Albert V. Birkey of Columbiana and Miss Bertha Schultz, daughter of Mr. and Mrs. George Schultz also of Columbiana.

Curtis W. Grindle of Washingtonville, a machinist and Thelma L. Richards of Washingtonville, but a former resident of Lisbon, and daughter of Mr. and Mrs. Henry Richards have been granted a marriage license.

Jacob Holzer of Alliance, and Melvina Paxson, of Salem, daughter of Mr. and Mrs. Harry Paxson after obtaining a marriage license returned to Salem where they were to be married by the Rev. Collier.

Guardian Named.

W. H. Spence has been appointed guardian ad litem for the minor defendants in the partition action pending in common pleas court wherein Alice Sharp is plaintiff and Harry R. Hogue, defendant. The court has is sue an order of partition. The commissioners are George Sharp, M. A. Brewster and D. E. Shamblen

Sebring

One of the foremost social events of the season was the home wedding of Miss Pauline Burris, daughter of Mr. and Mrs. Fred Burris, 126 East Michigan avenue and James Moody, son of Mr. and Mrs. Joseph Moody, of McDonald, O., which took place Thursday evening in the bride's home. The ring ceremony was performed by Rev. George A. Gibson, pastor of the Methodist church. The attendants were Miss Jennie Burris, sister of the bride, and Benjamin Moody, brother of the groom. The bride wore a gown of shell pink georgette and cream lace with accessories to match, and carried a bridal bouquet of snapdrogons and sweet peas. The brides-maid wore a gown of light blue georgette. Immediately following the wedding the couple left on a wedding trip. On their return they will make their home at McDonald, O. Mrs. Moody is a graduate of Sebring high school and also the Alliance Business college. For the past three years she has been employed as secretary in the office of Attorney Harry S. Wykoff of Alliance.

Mrs. Amelia Wilman, Hillcrest, Alliance, was hostess to the L. C. club at her home Thursday evening. The evening was spent in music and games. Prize winners were Miss Mildred Saunders and Miss Hester. Mrs. Zetta Fischel assisted the hostess. The next meeting will be held at the home of Miss Bernice Wallace, of Sebring.

Carl Hinkle, West Oregon avenue, who was operated on at the Salem City hospital three weeks ago, has been taken to the Alliance City hospital for further treatment.

Mrs. Clyde Calvin, Pleasant Heights is in the Alliance City hospital taking treatment.

Joseph Davis and Clarence Pail of Rochester, Pa., visited at the home of Mr. and Mrs. William Shell Sr. Sunday.

Harry Fitzsimmons and family of East Palestine spent Sunday with Mrs. Fitzsimmons' father, J. M. Underwood, of Glendale.

Miss Lois Sheilds, teacher of the intermediate grades of the local school, spent the weekend at Niagara Falls.

Tender, Aching, Swollen Feet

In Just Five Minutes Those Sore, Tender, Aching Feet Get Amazing Relief. Moone's Emerald Oil Is Guaranteed.

You probably feel like a lot of other people that about all you can do is dust some powder in your shoes or give your feet a special foot bath and let it go at that, but don't be foolish. Make up your mind today that you are going to give your feet a real chance to get well.

Go to Mathew's Med. Store, or Carnahan's Drug Store, or any other good druggist today and get an original bottle of Moone's Emerald Oil.

The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your foot troubles will be a thing of the past.

Don't expect a single bottle to do it all at once but one bottle we know will show you beyond all question that you have at last discovered the way to solid foot comfort.

Remember that Moone's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.

BORER CONTROL WORK LAUNCHED

Two Machines Operated by Tractors Remove Corn Stubbles.

Two stubble pulverizers for Corn Borer Control work are in operation in Columbiana county, and others are expected this week. These machines shred the corn stubbles as they stand on the ground. They are operated with tractors. One was placed in use in a 50 acre field on the Croxall farm in St. Clair township, and the other began work in a 50 acre field on the Firestone farm near Columbiana.

A public meeting was held in connection with the operation of the pulverizer at the Croxall farm Tuesday afternoon. A similar meeting has been announced for two o'clock Wednesday, at the Firestone farms. The other machines will be used in various parts of the county where farmers make applications for them. Six cars for use of the Corn Borer inspectors in Columbiana county also have arrived.

The Inspectors received instructions and began work Monday. Those appointed are: E. N. Hickman, East Liverpool, St. Clair, Madison and Elk run; J. M. Kerr, Wellsville, Liverpool, Yellow Creek and Washington townships; C. W. Alexander, Lisbon, Center, Wayne and Franklin townships; J. C. Gaston, Clarkson, Middleton, Unity and Fairfield townships; Ray Millen, Columbiana, Salem, Perry and Butler townships, and Walter Humphrey, E. Rochester, for Hanover, Knox and West townships. Other inspectors are expected to be appointed later.

Persons wishing to use a Government stubble pulverizer must make application to their respective inspectors. A charge of $1.00 per acre is made for use of the machines, this being deducted from the compensation allowed for clean-up.

ROAD GRADING PLANS APPROVED

Plans for the improvement by grading of the East Palestine-East Liverpool intercounty highway were approved by the county commissioners Monday afternoon. This road is to be graded this summer between Calcutta and Negley in Middleton township, bids for which work are now being asked by the commissioners. Grading on this project has been estimated at over $180,000, but because of considerable "casting" being possible on this job, the commissioners are of the opinion the contract will be awarded at a price considerable under the estimate.

The commissioners have also been informed by the Middleton township trustees of their intent to make temporary improvement on the Achortown road, which intersects the East Palestine-East Liverpool road.

BOOKLET MAILED WOOL PRODUCERS

A few minutes devoted to the preparation of wool for market at the time of shearing may make as much as five to ten cents a pound difference in the price received for that wool, according to a booklet on the "Preparation of Wools for Market," a supply of which has just been received by the Columbiana County Farm Bureau. The booklet, by J. F. Walker, now consulting specialist for the United States Department of Agriculture and R. A. Hammond, and has been mailed to nearly 10,000 wool producers of the state by the Ohio Wool Growers' Cooperation association.

Ohio wools have long set the standard of wools for the world, and are in most demand by mills, according to the booklet. Growers for their own benefit must exert every effort in the production and preparation of their wools to keep wools up to that standard.

COUNTY REPORTS CATTLE INCREASE

The Northeastern district of Ohio, which includes Columbiana county, ranks third in the state, according to information just received by County Agent Floyd Lower in the increase number of heifers kept on the farms for milk purposes. The rate of increase is 6.3 per cent over previous records, records received by Mr. Lower show.

Cows and heifers are greater in number now than a year ago, and only 30,000 less than the 1925 records disclosed. There are 38,000 fewer dairy cows than there were in 1925 but 8,000 more heifers. The increase in the number of heifers shows a larger potential supply of milk and reflects, according to Mr. Lower, the confidence the producer and distributor in the present economic method of marketing milk.

Milk prices paid the farmer are higher this season than a year ago, and the present market is likely to continue indefinately.

Deed Correction Sought.

A petition has been filed in common pleas court by Georgia Davidson against Lee R. Mackey seeking the correction of a deed and other equitable relief. The plaintiff purchased part of lot 10 in M. K. McKinnon's Ohio city addition for $125 June 14th, 1926 for which a warranty deed was given. Since that time, certain errors in the deed have been discovered, and the court is now asked to reform the instrument. Hill and Davidson are counsel for the plaintiff.

Property Transfers.

Real estate transfers have been recorded as follows:

James Cooley and others to the First Methodist Episcopal church, Salem, lots 324-325 Street's addition, Salem. $6.500.

Marion Grama to Ana Grame, part lot 277, Street's addition, Salem. $3,500.

Robert L. Farr and wife to John Fory and others, 3.4 acres, section 2, Perry township. $1.

Levi Yoder to Mary E. Risher, 8.02 acres, section 8, Fairfield township. $1.

Joseph P. Rhodes and others to Mabel Rutter, lots, 6-162, Brooks' second addition, Salem. $1.

Marriage Licenses.

A marriage license has been issued to Albert V. Birkey of Columbiana and Miss Bertha Schultz, daughter of Mr. and Mrs. George Schultz also of Columbiana.

Curtis W. Grindle of Washingtonville, a machinist and Thelma L. Richards of Washingtonville, but a former resident of Lisbon, and daughter of Mr. and Mrs. Henry Richards have been granted a marriage license.

Jacob Holzer of Alliance, and Melvina Paxson, of Salem, daughter of Mr. and Mrs. Harry Paxson after obtaining a marriage license returned to Salem where they were to be married by the Rev. Collier.

Guardian Named.

W. H. Spence has been appointed guardian ad litem for the minor defendants in the partition action pending in common pleas court wherein Alice Sharp is plaintiff and Harry R. Hogue, defendant. The court has issue an order of partition. The commissioners are George Sharp, M. A. Brewster and D. E. Shamblen

Tunney's Price For Next Title Fight Near Million Mark

Champion Is Said To Favor Philadelphia As Scene of Battle

And, Figured From the Money End, Experts Agree That no One Else But Dempsey Will do as Opponent, if he Ca n "Come Back."

By Davis J. Walsh.

NEW YORK, April 19.- Gene Tunney will take for his piffling bit of the next heavyweight championship fight the sum of $900,000, provided both the opponent and the scene of the great harvest are conducive to results, the writer learned today. It will be paid in the form of a guarantee, amounting to $525,000 laid right on the line before Tunney so much as lifts a glove, and a cut on the receipts, amounting to 50 per cent of all box office money in excess of $1,050,000.

Tunney himself and in person, not a vitaphone, will arrive in New York within a matter of several days primarily to collect the interest on the dear, old mortgage but incidentally to press Tex Rickard for an answer as to whether the heavyweight title fight will be dropped down in Philadelphia or New York or neither. The young man, they say, wants to fight this one in New York for old times sake or words to that general effects. But I'm not compelled to believe it and I don't.

In fact, Tunney has told friends that he wants to defend the title in the city where he won it, Philadelphia. This automatically would provide the proper setting for that $900,000 purse and it would be up to Rickard to provide the proper opponent, who, figured from the money end, can be no one else but Dempsey.

The boys, as a matter of fact, have it well figured in advance, leaving not a loose end except for the question of whether Dempsey can fight above a whisper. The last Dempsey-Tunney match drew about $1,800,000 in Philadelphia and there you have the answer to that odd sum on the percentage cut. Take $1,050,000 from $1,800,000 and you have a remainder of $750,000. Tunney's 50 per cent drag on this would be $375,00, which added to his guarantee, brings the total up to $900,000, exceeding Dempsey's record purse of last September by $150,000.

In brief, Dempsey is the necessary opponent; Philadelphia is the necessary scene, unless there is something in this talk about shifting the bout to Chicago, where as many, if not more, cloak and suit men can be accomodated. Anyhow, the word is that it will not be New York for several reasons.

One of them is said to be Tunney's irritation over the fact that New York would have none of his challenge of Dempsey last summer. Another is the financial and, therefore, more pressing reason that New York, as its present scale of prices and the size of its ball parks, cannot compete with the other two cities on receipts.

The boys may be in the game merely for the improvement of the breed of patrons, or something, but they want you to know that they can't improve anything, not even a three-card flush, without money. They got it in Philadelphia last time with Dempsey; they will try again with him, if he can be mustered out of his skin eruptions, and without him only under violent protest. No one else will ever get $1,800,000 worth of customers out in the open, Tunney or no Tunney.

Tunney's Price For Next Title Fight Near Million Mark

Champion Is Said To Favor Philadelphia As Scene of Battle

And, Figured From the Money End, Experts Agree That no One Else But Dempsey Will do as Opponent, if he Ca n "Come Back."

By Davis J. Walsh.

NEW YORK, April 19.- Gene Tunney will take for his piffling bit of the next heavyweight championship tight the sum of $900,000, provided both the opponent and the scene of the great harvest are conducive to results, the writer learned today. It will be paid in the form of a guarantee, amounting to $525,000 laid right on the line before Tunney so much as lifts a glove, and a cut on the receipts, amounting to 50 per cent of all box office money in excess of $1,050,000.

Tunney himself and in person, not a vitaphone, will arrive in New York within a matter of several days primarily to collect the interest on the dear, old mortgage but incidentally to press Tex Rickard for an answer as to whether the heavyweight title fight will be dropped down in Philadelphia or New York or neither. The young man, they say, wants to fight this one in New York for old times sake or words to that general effects. But I'm not compelled to believe it and I don't.

In fact, Tunney has told friends that he wants to defend the title in the city where he won it, Philadelphia. This automatically would provide the proper setting for that $900,000 purse and it would be up to Rickard to provide the proper opponent, who, figured from the money end, can be no one else but Dempsey.

The boys, as a matter of fact, have it well figured in advance, leaving not a loose end except for the question of whether Dempsey can fight above a whisper. The last Dempsey-Tunney match drew about $1,800,000 in Philadelphia and there you have the answer to that odd sum on the percentage cut. Take $1,050,000 from $1,800,000 and you have a remainder of $750,000. Tunney's 50 per cent drag on this would be $375,00, which added to his guarantee, brings the total up to $900,000, exceeding Dempsey's record purse of last September by $150,000.

In brief, Dempsey is the necessary opponent; Philadelphia is the necessary scene, unless there is something in this talk about shifting the bout to Chicago, where as many, if not more, cloak and suit men can be accomodated. Anyhow, the word is that it will not be New York for several reasons.

One of them is said to be Tunney's irritation over the fact that New York would have none of his challenge of Dempsey last summer. Another is the financial and, therefore, more pressing reason that New York, as its present scale of prices and the size of its ball parks, cannot compete with the other two cities on receipts.

The boys may be in the game merely for the improvement of the breed of patrons, or something, but they want you to know that they can't improve anything, not even a three-card flush, without money. They got it in Philadelphia last time with Dempsey; they will try again with him, if he can be mustered out of his skin eruptions, and without him only under violent protest. No one else will ever get $1,800,000 worth of customers out in the open, Tunney or no Tunney.

SEEK SLAYER OF OHIO MAN

Cleveland Clock-maker Found Beaten to Death.

CLEVELAND, O., April 19. — A search was being made today for the murderer of John C. Compton, 31, clock-maker, employed by the Webb C. Ball company here, who was found beaten to death near Chagrin Falls, late Monday night.

The body was found, with several deep gashes on the head, in a shack just outside the Chagrin Falls corporation line, by Joseph Fazekas, owner of a barbecue. Furniture was strewn about the shack, indicating that a terrific struggle had taken place.

Compton had been missing from his home here since Sunday, and relatives and friends were hunting him when the crime was discovered.

Police say John Burbridge, his wife and 15-year-old son, who occupied the shack near Chigrin Falls, are missing. Neighbors told detectives that the Burbridge family drove away from the cottage about noon Monday.

A bottle, which had apparently contained liquor, was found in the shack, police declared.

NATS SAVED BY THURSTON

Stops Macks, 4-0, and Hangs up Second Straight.

By Les Conklin.

NEW YORK, April 19.—They say that one man's paradise is another's prison, and maybe that accounts for the fact that Hollis Thurston, who won only six games for the White Sox last year, is leading the Washington pitchers today with two victories and no defeats. After holding the Red Sox to four hits last Thursday, the young man came back faster than a bad check yesterday and whitewashed the Athletics, 4 to 0.

Thurston is proving to be a lifesaver for Stanley Harris, whose pitching staff was crippled before the season started by the injury to Walter Johnson. He apparently has regained the form which once made him one of the leading pitchers in the league.

The Senators made all their runs in the first inning yesterday. Bluege made his first hit of the season with the bases jammed.

Dutch Ruether, of the Yankees, also won his second game within a week's time, blanking the Red Sox, 3 to 0. He allowed but three hits. The Yanks now have won six straight and apparently are determined to clinch the pennant by the Fourth of July.

The third pitcher of the day to win his second game this season was Lee Meadows, of the Pirates, who held the Cubs to four hits and beat them, 9 to 1.

Riggs Stephenson, converted from an outfielder into a third baseman by Manager Joe McCarthy, got to dreaming about his football days at the University of Alabama and booted two grounders for perfect drop kicks.

The Giants kept pace with the Pirates by nosing out the Braves, 11 to 10, in the eleventh inning. The Braves took a lot of beating and tied the score three times, once with a six-run rally.

The Brooklyn Dodgers, who apparently are endeavoring to discover a new route to China via the National league cellar, lost to the Phillies, 7 to 3, for their sixth straight defeat. Cy Williams and Irish Meusel each hit homers with two men on base.

Ted Blankenship, of the White Sox, drove in four runs with a double and a home run but lost to the Browns, 5 to 4. Gaston, who pitched for the winners, also hit for the circuit.

Cleveland managed to take a 3 to 2 decision from Detroit. Levsen weakened in the ninth but Buckeye, who relieved him in the box, stopped the Tigers in their tracks.

BOWLING COLUMN

City bowling sharks last night opened their drive on the maples in the inaugural performances of the Liberty singles and doubles duckpin tournament which will last through the week.

Five matches were turned in last night, with Johnny Green leading the list with a score of 508 for three attacks. Green rolled 171 the first game, 166 the second and another 171 in the third.

D. Irwin rolled two 141 scores and a 142 for a total of 424.

Majority of the singles bowlers will turn out tonight and tomorrow night.

Doubles will be started on Thursday night.

Cash prizes have been hung up for the winners.

Last night's scores:

L. Irwin	141	141	142—424
Blythe	139	112	111—362
Greene	171	166	171—508
Troiseme	95	125	149—369
Cunningham	111	112	124—347

TAYLOR ANNEXES NEW RING SCALP

LOS ANGELES, April 19.—A new scalp dangled today from the diamond studded belt of Bud Taylor, the "blond terror of Terre Haute," who is recognized in 18 states of the union as bantamweight champion of the world.

Taylor's latest victim is Young Nationalista ,who succumbed to a technical knockout in the fifth round in the main event at Wrigley field here last night.

After a poor start in the first round, Taylor came out like a panther and buried the Filipino under as one-sided a whipping as had been seen in any local ring.

In the semi-windup, George Godfrey knocked out Leon Chevalier in the fourth round of a scheduled ten round bout. Both are negroes and weighed over 200 pounds.

Moscow now charges the United States with making war on China. We knew it was only a question of time until Uncle Sam would be blamed for everything that happened over there. —Kenton News-Republican.

Recreation League Session Tomorrow

Will Wind up Plans for Opening of Season; Rules to be Submitted to Managers.

Representatives of 16 Recreation baseball league teams will meet tomorrow night at 7:30 at the Review-Tribune to wind up details incidental to the launching of the "soft ball" game in the East Liverpool district.

The following teams are requested to have managers or other representatives at the session:

Northside, Heimics, Printers, Pulper Drugs, Smith News, Homer Laughlin Ohio Power, Brian Clothiers, National Furnitures, Roselawns, Laughlin, East End (2), Laughlin Acmes, Smith Phillips, K. T. K. Decorators, Y. M. C. A.

Managers will be required to file entry fees at tomorrow night's meeting, the fees to cover merely actual expenses of the circuit for the season, such as umpires and the purchase of a small amount of initial equipment.

The rules committee, following a recent session, constructed the following code, which will be submitted to the league tomorrow night:

"The rules of regular baseball shall govern all but the following exceptions:

Pitching.

"The pitcher must take his position facing the batter and when in the act of delivering the ball to the batter must keep one foot in contact with the pitcher's plate. He must face the batter at all times. He shall not take more than one step forward in the act of delivering the ball to the batter, but he shall not be restricted as to curving the ball. The arm, however, must be swung parallel with the body, and the ball shall be delivered underhand.

Batting, Base-running, Etc.

"The batter is out if he bunts. The batter is out when three strikes are called whether the catcher holds the third strike or not. The batter, as in regular baseball, shall be entitled to take first base on four balls. A base runner must not leave his base while pitcher is standing in the box holding the ball. A base runner must not leave his base on a pitched ball not hit, until the ball has reached or passed the catcher. He shall be called back for premature starting. A base runner must be on the base when the pitcher is ready to deliver the ball to the bat.

"If a base runner leaves the base too soon, and the batter hits the ball in fair territory, the base runner is out but the batter may take as many bases as possible except if this is the third out. Such batter shall be first up in the next inning.

Base Lines and Pitcher's Box.

"The base lines shall be 60 feet long and the pitcher's plate shall be 38 feet from the center of home plate.

The Bat.

The bat shall be not more than 2¾ feet long and not more than two inches in diameter. The handle must be taped.

Equipment.

"It is suggested, but not compulsory, that players wear rubber soled shoes. In any event, spiked shoes are not permitted. The catcher is the only player permitted to use a glove, which must be a fielder's mitt.

Teams.

"Squads shall be limited to 12 players. Nine players shall constitute a team on the field, but teams shall be allowed to play it at least seven men are present.

"Players cannot transfer from one team to another without the consent of the respective managers of the two teams.

These minor changes are necessary in view of the type of game, the shortness of the diamond and other peculiarities of playing.

STRAIGHTS WIN LEAGUE CONTEST

Beating the rival Right Angles in a nip and tuck tilt yesterday afternoon the Straights won their second consecutive clash and undisputed possession of second place in the league standing, a half game ahead of the Centrals. The final count was 5 to 4.

The game marked the second defeat for the Rights in seven starts to date.

Bartley and Rabenstein were on the points for the winners while Kimble and Hindes were batterymates for the losers.

League Standing.

	W.	L.	Pct.
Right Angles	5	2	.714
Straight Angles	3	4	.429
Central Angles	2	4	.333

With a 60 foot base line, for instance, almost any player fast on his feet could make first on a bunt. The defense would be almost impossibly handicapped.

And in the matter of base stealing, the base runner must be kept on the sack until the ball reaches the catcher. Were he allowed a lead, the defense would have no chance at all. With the rule changed, it gives both sides an even break.

And while 38 feet may seem a good distance for an underhand pitch, batters will realize before the season is long under way and the respective hurlers have gotten pretty well warmed up and begin to zip the ball across that it's not so far after all.

AT PHILADELPHIA:—Honeyboy Finnegan, Boston, defeated Frankie Fink, New York, 10 rounds.

AT ATLANTIC CITY:—Dave Adelman, Philadelphia, knocked out Charlie "Kid" Lewis, Philadelphia, first round.

AT NEWARK:—Joe Glick, Brooklyn, knocked out Bobby Jones, Newark, first round.

SEEK SLAYER OF OHIO MAN

Cleveland Clock-maker Found Beaten to Death.

CLEVELAND, O., April 19. —A search was being made today for the murderer of John C. Compton, 31, clock-maker, employed by the Webb C. Ball company here, who was found beaten to death near Chagrin Falls, late Monday night.

The body was found, with several deep gashes on the head, in a shack just outside the Chagrin Falls corporation line, by Joseph Fazekas, owner of a barbecue. Furniture was strewn about the shack, indicating that a terrific struggle had taken place.

Compton had been missing from his home here since Sunday, and relatives and friends were hunting him when the crime was discovered.

Police say John Burbridge, his wife and 15-year-old son, who occupied the shack near Chigrin Falls, are missing. Neighbors told detectives that the Burbridge family drove away from the cottage about noon Monday.

A bottle, which had apparently contained liquor, was found in the shack, police declared.

NATS SAVED BY THURSTON

Stops Macks, 4-0, and Hangs up Second Straight.

By Les Conklin.

NEW YORK, April 19.—They say that one man's paradise is another's prison, and maybe that accounts for the fact that Hollis Thurston, who won only six games for the White Sox last year, is leading the Washington pitchers today with two victories and no defeats. After holding the Red Sox to four hits last Thursday, the young man came back faster than a bad check yesterday and whitewashed the Athletics, 4 to 0.

Thurston is proving to be a lifesaver for Stanley Harris, whose pitching staff was crippled before the season started by the injury to Walter Johnson. He apparently has regained the form which once made him one of the leading pitchers in the league.

The Senators made all their runs in the first inning yesterday. Bluege made his first hit of the season with the bases jammed.

Dutch Ruether, of the Yankees, also won his second game within a week's time, blanking the Red Sox, 3 to 0. He allowed but three hits. The Yanks now have won six straight and apparently are determined to clinch the pennant by the Fourth of July.

The third pitcher of the day to win his second game this season was Lee Meadows, of the Pirates, who held the Cubs to four hits and beat them, 9 to 1.

Riggs Stephenson, converted from an outfielder into a third baseman by Manager Joe McCarthy, got to dreaming about his football days at the University of Alabama and booted two grounders for perfect drop kicks.

The Giants kept pace with the Pirates by nosing out the Braves, 11 to 10, in the eleventh inning. The Braves took a lot of beating and tied the score three times, once with a six-run rally.

The Brooklyn Dodgers, who apparently are endeavoring to discover a new route to China via the National league cellar, lost to the Phillies, 7 to 3, for their sixth straight defeat. Cy Williams and Irish Meusel each hit homers with two men on base.

Ted Blankenship, of the White Sox, drove in four runs with a double and a home run but lost to the Browns, 5 to 4. Gaston, who pitched for the winners, also hit for the circuit.

Cleveland managed to take a 3 to 2 decision from Detroit. Levsen weakened in the ninth but Buckeye, who relieved him in the box, stopped the Tigers in their tracks.

Fight Results

AT NEW YORK:—Tony Canzoneri, New York, drew with Vic Burrone, New York, 10 rounds.

AT PITTSBURGH:—Cuddy Degarco, McKeesport, defeated Jack Zivic, New York, 10 rounds.

AT BUFFALO:—Young Stribling, defeated Benny Ross, Buffalo, 10 rounds.

BOWLING COLUMN

City bowling sharks last night opened their drive on the maples in the inaugural performances of the Liberty singles and doubles duckpin tournament which will last through the week.

Five matches were turned in last night, with Johnny Green leading the list with a score of 508 for three attacks. Green rolled 171 the first game, 166 the second and another 171 in the third.

D. Irwin rolled two 141 scores and a 142 for a total of 424.

Majority of the singles bowlers will turn out tonight and tomorrow night.

Doubles will be started on Thursday night.

Cash prizes have been hung up for the winners.

Last night's scores:

I. Irwin	141	141	142	424
Blythe	139	112	111	362
Greene	171	166	171	508
Troiseme	95	125	149	369
Cunningham	111	112	124	347

TAYLOR ANNEXES NEW RING SCALP

LOS ANGELES, April 19.—A new scalp dangled today from the diamond studded belt of Bud Taylor, the "bloody terror of Terre Haute," who is recognized in 18 states of the union as bantamweight champion of the world.

Taylor's latest victim is Young Nationalista, who succumbed to a technical knockout in the fifth round in the main event at Wrigley field here last night.

After a poor start in the first round, Taylor came out like a panther and buried the Filipino under an one-sided a whipping as had been seen in any local ring.

In the semi-windup, George Godfrey knocked out Leon Chevalier in the fourth round of a scheduled ten round bout. Both are negroes and weighed over 200 pounds.

Recreation League Session Tomorrow

Will Wind up Plans for Opening of Season; Rules to be Submitted to Managers.

Representatives of 16 Recreation baseball league teams will meet tomorrow night at 7:30 at the Review-Tribune to wind up details incidental to the launching of the "soft ball" game in the East Liverpool district.

The following teams are requested to have managers or other representatives at the session:

Northside, Heimics, Printers, Pulper Drugs, Smith News, Homer Laughlin, Ohio Power, Brian Clothiers, National Furnitures, Roselawns, Laughlin, East End (2), Laughlin Acmes, Smith Philips, K. T. K. Decorators, Y. M. C. A.

Managers will be required to file entry fees at tomorrow night's meeting, the fees to cover merely actual expenses of the circuit for the season, such as umpires and the purchase of a small amount of initial equipment.

The rules committee, following a recent session, constructed the following code, which will be submitted to the league tomorrow night:

"The rules of regular baseball shall govern all but the following exceptions:

Pitching.

"The pitcher must take his position facing the batter and when in the act of delivering the ball to the batter must keep one foot in contact with the pitcher's plate. He must face the batter at all times. He shall not take more than one step forward in the act of delivering the ball to the batter, but he shall not be restricted as to curving the ball. The arm, however, must be swung parallel with the body, and the ball shall be delivered underhand.

Batting, Base-running, Etc.

"The batter is out if he bunts. The batter is out when three strikes are called whether the catcher holds the third strike or not. The batter, as in regular baseball, shall be entitled to take first base on four balls. A base runner must not leave his base while pitcher is standing in the box holding the ball. A base runner must not leave his base on a pitched ball not hit, until the ball has reached or passed the catcher. He shall be called back for premature starting. A base runner must be on the base when the pitcher is ready to deliver the ball to the bat.

"If a base runner leaves the base too soon, and the batter hits the ball in fair territory, the base runner is out but the batter may take as many bases as possible except if this is the third out. Such batter shall be first up in the next inning.

Base Lines and Pitcher's Box.

"The base lines shall be 60 feet long and the pitcher's plate shall be 38 feet from the center of home plate.

The Bat.

The bat shall be not more than 2¾ feet long and not more than two inches in diameter. The handle must be taped.

Equipment.

"It is suggested, but not compulsory, that players wear rubber soled shoes. In any event, spiked shoes are not permitted. The catcher is the only player permitted to use a glove, which must be a fielder's mitt.

Teams.

"Squads shall be limited to 12 players. Nine players shall constitute a team on the field, but teams shall be allowed to play it at least seven men are present.

"Players cannot transfer from one team to another without the consent of the respective managers of the two teams.

These minor changes are necessary in view of the type of game, the shortness of the diamond and other peculiarities of playing.

Nominating

DWIGHT DAVIS, JR.

BECAUSE he is the son of Secretary of War Dwight F. Davis.

Because his father is the donor of the famous Davis Cup for the international tennis championship.

Because he is holding down the initial sack for the Harvard University freshman baseball nine in firstclass fashion.

And because he shows fine promise of becoming a real candidate for the 'varsity team in 1928.

STRAIGHTS WIN LEAGUE CONTEST

Beating the rival Right Angles in a nip and tuck tilt yesterday afternoon the Straights won their second consecutive clash and undisputed possession of second place in the league standing, a half game ahead of the Centrals. The final count was 5 to 4.

The game marked the second defeat for the Rights in seven starts to date.

Bartley and Rabenstein were on the points for the winners while Kimble and Hindes were batterymates for the losers.

League Standing.

	W.	L.	Pct.
Right Angles	5	2	.714
Straight Angles	3	4	.429
Central Angles	2	4	.333

With a 60 foot base line, for instance, almost any player fast on his feet could make first on a bunt. The defense would be almost impossibly handicapped.

And in the matter of base stealing, the base runner must be kept on the sack until the ball reaches the catcher. Were he allowed a lead, the defense would have no chance at all. With the rule changed, it gives both sides an even break.

And while 38 feet may seem a good distance for an underhand pitch, batters will realize before the season is long under way and the respective hurlers have gotten pretty well warmed up and begin to zip the ball across that it's not so far after all.

AT PHILADELPHIA:—Honeyboy Finnegan, Boston, defeated Frankie Fink, New York, 10 rounds.

AT ATLANTIC CITY:—Dave Adelman, Philadelphia, knocked out Charlie "Kid" Lewis, Philadelphia, first round.

AT NEWARK:—Joe Glick, Brooklyn, knocked out Bobby Jones, Newark, first round.

CHARLES RAY AT AMERICAN

Other Stars Appear in Cast of "Fire Brigade."

"Tears are useless in playing upon the emotions when used indiscriminately," declares Eugene Besserer, who portrays mother love with piognant effect in "The Fire Brigade" now playing at the American theatre. "As everyone knows, one always feels worst just before one begins to cry. The tears bring relief. For that reason an audience realizes on seeing an actress cry that the crux of her emotion is past."

Miss Besserer resorts to tears but once in "The Fire Brigade," in which May McAvoy and Charles Ray have the leading parts. Other players in the cast of this big Metro-Goldwyn-Mayer feature spectacle—one of the most absorbing love stories ever screened—are Holmes Herbert, Tom O'Brien, Warner P. Richmond and Vivia Ogden. William Nigh directed.

Just a little Kruschen in your morning cup

There's no need to envy those jolly, cheerful people who are always brimming over with fun and energy. Take two tablets of Kruschen in your morning tea or coffee. You can't taste it. You won't know you are taking salts. But you will soon notice the difference.

Any why?

Because the ingredients of Kruschen Salts are necessary for healthy life. You body must of necessity obtain these ingredients from somewhere, or you could not live. Normally your system should extract these vital salts from your food, but owing to sedentary occupation, errors of diet and overwork your system does not extract from food the correct proportions of these essential life-giving salts. Then what follows? Depression or headaches, constipation, or disordered liver, inactive kidneys, rheumatism, gout or sciatica, lumbago, or eczema—many of which arise from excess of Uric Acid, which is the cause of more troubles than many people suspect. Kruschen Salts should be your safeguard. Besides cleansing the body of impurities, they give new life and vitality to the whole system, mind and body.

Haskin's Letter

(Continued from Page Four)

careful weighing of many problems. It calls for study of complicated relationships. Trade and industries are entering new fields. Business units and conditions are changing. New points of contact with government and within commerce and industry are being developed.

"Business is achieving so many new things even the best observers can not keep abreast of them all. Industries are changing with new invention and the application of new methods. Selling goods at home and abroad is bringing out new features of distribution.

"The annual meeting of the National chamber will survey economic trends with the purpose of determining their meaning, with the hope of throwing light into the future. It will bring to bear on our national economic problems the best business thought of America. From it will come a program setting up principles to serve as guideposts for the future."

At one of the general sessions business problems from the viewpoint of the East, the South, the Mid-West, and the West will be considered. Surveys of business conditions will be presented by four outstanding business leaders, representing their respective sections.

At another session the future of business will be discussed in detail. Dwight B. Heard, of Phoenix, Ariz., will present the agricultural phase of the question; Charles W. Lonsdale, of Kansas City, will speak on Civic Development; Theodore F. Whitmarsh, of New York city, on Domestic Distribution; Felix M. McWhirter, of Indianapolis, on Finance; Henry D. Shrarpe, of Providence, R. I., on Foreign Commerce; H. A. Smith, of Hartford, Conn., on Insurance; A. J. Brosseau, of New York City, on Manufacture; Milton E. Marcus, of Richmond, Va., on Natural Resources Production; and A. L. Humphrey, of Pittsburgh, on Transportation and Communication.

Handled in Great Detail.

All these topics will be handled in great detail in group sessions. For example, the Civic Development unit will delve deep into the subject of what kind of buildings cities should have in the new business era, with Hugh R. Pomery, of the Los Angeles County Regional Planning Commission, leading the debate. Harvey W. Corbett, a New York architect, will advocate skyscrapers, while Major Henry Curran, of the New York City club, will oppose them. Realtors will have their innings when Arthur S. Bent, of Los Angeles, representating the National Association of Real Estate Boards, is heard.

The Finance group will feature taxation, stressing the idea that the Federal corporation income tax should be lowered and suggesting improvements in the Federal tax system. Manufactures will consider primarily the labor angle of production with special reference to wages in their bearing upon costs and to the future of industrial relations.

The resolutions of the Transportation and Communication group will touch upon the integrity and independence of the Interstate Commerce Commission, postal rates, and the relations of commercial organizations to aeronautical development and the city traffic problem. This group will oppose ownership of merchant shipping and the one on Natural Resources likewise will make it clear that the Chamber of Commerce is against government of the hydroelectric industry.

In addition to its serious features, the program for the annual meeting has its lighter moments. For one thing, there will be a golf tournament with an entry list so large that all the golf courses in the vicinity of Washington will be utilized. Then there will be a sight-seeing tour of the city and a trip to Mount Vernon by water.

Still another of the diversions will be the showing of a series of motion pictures in which Will Rogers, the comedian, will be the star. Some months ago Rogers appointed himself a special adviser to President Coolidge and gave the president a great deal of unsolicited advice in a number of European letters that were published in a magazine.

It seems that the Oklahoman who throws the lariat and language with equal facility had a photographer with him on his travels, with results that are to be revealed in the film, "Our Unofficial Ambassador Abroad."

Haskin's Letter

(Continued from Page Four)

careful weighing of many problems. It calls for study of complicated relationships. Trade and industries are entering new fields. Business units and conditions are changing. New points of contact with government and within commerce and industry are being developed.

"Business is achieving so many new things even the best observers can not keep abreast of them all. Industries are changing with new invention and the application of new methods. Selling goods at home and abroad is bringing out new features of distribution.

"The annual meeting of the National chamber will survey economic trends wtih the purpose of determining their meaning, with the hope of throwing light into the future. It will bring to bear on our national economic problems the best business thought of America. From it will come a program setting up principles to serve as guideposts for the future."

At one of the general sessions business problems from the viewpoint of the East, the South, the Mid-West, and the West will be considered. Surveys of business conditions will be presented by four outstanding business leaders, representing their respective sections.

At another session the future of business will be discussed in detail. Dwight B. Heard, of Phoenix, Ariz., will present the agricultural phase of the question; Charles W. Lonsdale, of Kansas City, will speak on Civic Development; Theodore F. Whitmarsh, of New York city, on Domestic Distribution; Felix M. McWhirter, of Indianapolis, on Finance; Henry D. Shrarpe, of Providence, R. I., on Foreign Commerce; H. A. Smith, of Hartford, Conn., on Insurance; A. J. Brosseau, of New York City, on Manufacture; Milton E. Marcus, of Richmond, Va., on Natural Resources Production; and A. L. Humphrey, of Pittsburgh, on Transportation and Communication.

Handled in Great Detail.

All these topics will be handled in great detail in group sessions. For example, the Civic Development unit will delve deep into the subject of what kind of buildings cities should have in the new business era, with Hugh R. Pomery, of the Los Angeles County Regional Planning Commission, leading the debate. Harvey W. Corbett, a New York architect, will advocate skyscrapers, while Major Henry Curran, of the New York City club, will oppose them. Realtors will have their innings when Arthur S. Bent, of Los Angeles, representating the National Association of Real Estate Boards, is heard.

The Finance group will feature taxation, stressing the idea that the Federal corporation income tax should be lowered and suggesting improvements in the Federal tax system. Manufactures will consider primarily the labor angle of production with special reference to wages in their bearing upon costs and to the future of industrial relations.

The resolutions of the Transportation and Communication group will touch upon the integrity and independence of the Interstate Commerce Commission, postal rates, and the relations of commercial organizations to aeronautical development and the city traffic problem. This group will oppose ownership of merchant shipping and the one on Natural Resources likewise will make it clear that the Chamber of Commerce is against government of the hydroelectric industry.

In addition to its serious features, the program for the annual meeting has its lighter moments. For one thing, there will be a golf tournament with an entry list so large that all the golf courses in the vicinity of Washington will be utilized. Then there will be a sight-seeing tour of the city and a trip to Mount Vernon by water.

Still another of the diversions will be the showing of a series of motion pictures in which Will Rogers, the comedian, will be the star. Some months ago Rogers appointed himself a special adviser to President Coolidge and gave the president a great deal of unsolicited advice in a number of European letters that were published in a magazine.

It seems that the Oklahoman who throws the lariat and language with equal facility had a photographer with him on his travels, with results that are to be revealed in the film, "Our Unofficial Ambassador Abroad."

HATTIE

By Samuel Merwin

SYNOPSIS:

HATTIE JOHNSON, just 17, is a somewhat colorless little girl, who works in the mailing room of a printing and bookbinding establishment. One day a girl who had formerly worked in the mailing room comes to call. Her name is

LUCILLE OVERMAN, and she is now working in pictures. She takes Hattie to the studio where she, Lucille, is to have a screen test. Hattie there is seen by the famous director,

DE BRISSAC, who makes a screen test of her and offers her a contract. Hattie lives with her married sister,

ALICE, and her baby daughter, Emily, and

GRANDMA, a querulous semi-invalid. They all start for California with De Brissac, who suggests books for Hattie to read to "form her mind." On the train she meets

HENRY O'MALLEY, De Brissac's head camera man, de Brissac makes love to Hattie as part of her training for screen work and Hattie seems powerless to resist him. She refuses to go with him on his yacht away from her family, however. O'Malley, to whom she becomes engaged, advises her to try to get work at another studio and invites a lawyer to look over her contract with De Brissac. A rival studio gives her a part and she goes to work for them.

She is a failure without De Brissac and finally she sees him in a restaurant. He asks her not to tie up with the other concern for more than one picture.

Then Alice's husband, who has deserted her some years before, comes back—one more for Hattie to support.

Hattie meets Lucille and tells her her troubles. Lucille advises her to go back to De Brissac in spite of his love-making.

The De Brissac picture is advertised and Hattie gets many fan letters.

CHAPTER TWENTY-SIX.

"The big banks use signing machines—" Arthur putting in, with a touch of assertiveness—"so that one signing makes a lot of little arms go. There was a picture in a magazine. Something like this." He was drawing on an envelope.

Mr. Harbin listened and looked with courtesy; then said—

"By the way, we're having a private showing of Bagdad at the studio this evening. I don't think you've seen it, Miss Johnson."

"Only the daily runs of my scenes."

"Well, Mr. Zeeck asked me to extend a cordial invitation to you." "I'm sure he'd be delighted to have you all come."

"Somebody'd have to stay with Emily and Gran'ma."

"I'll stay," said Arthur.

Alice considered this in some doubt. Said—"I think I'd better stay." She was disappointed. "But you could go, Arthur."

"I'm going to see Henry anyway," said Hattie. "I suppose he and I'll go together."

"My sister's engaged to be married, Mr. Harbin." Alice.

Hattie colored. She felt that Alice shouldn't have told. The family had lately had to know, as an explanation of their constant meetings and dinners and rides. But a moment later, after Mr. Harbin had said—"Oh indeed! I do congratulate you Miss Johnson. It's a happy time for you all around, isn't it!". Her eyes lingered on his genial face. Somehow she felt that he knew. Come to think of it, he would know. They always knew things at the studios. They knew everything. She heard the gossip. They had engaged Alice Armentiere for star parts because they knew she was Robert Ring Rush's girl, and they were really after Robert Ring Rush. He was a great director. They moved in those indirect ways. Yes, they always knew things. Possibly they knew all about her meetings with de Brissac. Perhaps they knew she was actually in the room when that dark girl .. . . she musn't flush . . . she hastily resumed opening letters . . . probably this was success, all those letters that had to be somehow laboriously answered, all the cheap prints of still pictures that would have to be sent. She didn't feel successful she felt hunted.

After supper, Alice followed her into the outer hall—after Henry blew up the speaking tube—and said—

"Arthur feels rather badly, Hattie, because you don't seem to value his judgment about things. He has had a lot of practical experience, you know. And he's the only man we have to lean on . . .. Oh, Hattie, I know I seem sharp and cross sometimes, but I don't want you to think I don't appreciate all you .. . . my life's been pretty hard. I know my nerves are worn to wires. More than once I've wondered they didn't snap. And if you knew what it means, after the years, to have him back. .. ."

Hattie tried to smile as she ran down the stairs. At the landing, as she turned, she contrived to smile, and waved her hand. She couldn't say anything. There was something that didn't feel right about Arthur. She didn't know what it was. But it bothered her.

It was unexpectedly stirring to sit in the dark projecting room and know that Mr. and Mrs. Zeeck were at her elbow, and other notables of the lot. She had wondered, riding over, sitting very close to Henry, if de Brissac would be there. He wasn't. The lot was a strange place without him. Rather a ghostly place, in which her unstable adolescent mind wandered like a wraith over familiar scenes that were now empty and still under the clear California moon.

The picture opened with double exposures of Rome, Damascus and Bagdad in an architectural frame, fading into flames and ruin as the title came softly into view; and then, with another fade, the billowy desert appeared behind the lettering with a line of camels, heavily laden, plodding in silhouette along a near horizon. De Brissac's name came next, of course; then the usual crowded list of minor claimants for publicity—camera men, technical and art directors, electricians, scenario and continuity writers and what not, and then an oddly familiar scene, an entrance to a palace, with a little beggar maiden sitting on marble steps . . . herself . . .. reaching out her hands plaintively, trying not to sob . . . letters began fading in, the name, "Harriet John."

Hers, then, was the second most conspicuous name on this great picture. De Brissac had done precisely as he promised. She had to fight down an unnervingly friendly glow toward him. He hadn't even done it for her; he had simply dared to hold to his plan, to present an unknown girl as a star. Her desertion of him, without a word of explanation, her plighting troth with another, a mere camera man—oh, he knew it, he knew it!—had not even swerved him from his course. More, as the picture swiftly progressed, it was clear that he had made no slightest error of judgment. The girl on the screen was wonderful. She seemed to be someone else. Hattie remembered, clearly enough, the dreary work in each of the scenes, but the effect of putting them together, the story-surface of the picture, came to her as a new thing. She was absorbed, moved, thrilled. Henry, too, was thrilled. He held her hand, there in the dark, so tightly that it hurt, and she didn't mind. The distinguished little audience felt the thing, too, as did she and Henry. They murmured, and applauded. Some of them cried; you could see that when the lights came on between the reels.

HATTIE

By Samuel Merwin

SYNOPSIS:

HATTIE JOHNSON, just 17, is a somewhat colorless little girl who works in the mailing room of a printing and bookbinding establishment. One day a girl who had formerly worked in the mailing room comes to call. Her name is

LUCILLE OVERMAN, and she is now working in pictures. She takes Hattie to the studio where she, Lucille, is to have a screen test. Hattie there is seen by the famous director,

DE BRISSAC, who makes a screen test of her and offers her a contract. Hattie lives with her married sister,

ALICE, and her baby daughter, Emily, and

GRANDMA, a querulous semi-invalid. They all start for California with De Brissac, who suggests books for Hattie to read to "form her mind." On the train she meets

HENRY O'MALLEY, De Brissac's head camera man. de Brissac makes love to Hattie as part of her training for screen work and Hattie seems powerless to resist him. She refuses to go with him on his yacht away from her family, however. O'Malley, to whom she becomes engaged, advises her to try to get work at another studio and invites a lawyer to look over her contract with De Brissac. A rival studio gives her a part and she goes to work for them.

She is a failure without De Brissac and finally she sees him in a restaurant. He asks her not to tie up with the other concern for more than one picture.

Then Alice's husband, who has deserted her some years before, comes back—one more for Hattie to support.

Hattie meets Lucille and tells her her troubles. Lucille advises her to go back to De Brissac in spite of his love-making.

The De Brissac picture is advertised and Hattie gets many fan letters.

CHAPTER TWENTY-SIX.

"The big banks use signing machines—" Arthur putting in, with a touch of assertiveness—"so that one signing makes a lot of little arms go. There was a picture in a magazine. Something like this." He was drawing on an envelope.

Mr. Harbin listened and looked with courtesy; then said—

"By the way, we're having a private showing of Bagdad at the studio this evening. I don't think you've seen it, Miss Johnson."

"Only the daily runs of my scenes."

"Well, Mr. Zeeck asked me to extend a cordial invitation to you." "I'm sure he'd be delighted to have you all come."

"Somebody'd have to stay with Emily and Gran'ma."

"I'll stay," said Arthur.

Alice considered this in some doubt. Said—"I think I'd better stay." She was disappointed. "But you could go, Arthur."

"I'm going to see Henry anyway," said Hattie. "I suppose he and I'll go together."

"My sister's engaged to be married, Mr. Harbin." Alice.

Hattie colored. She felt that Alice shouldn't have told. The family had lately had to know, as an explanation of their constant meetings and dinners and rides. But a moment later, after Mr. Harbin had said—"Oh indeed! I do congratulate you Miss Johnson. It's a happy time for you all around, isn't it!". Her eyes lingered on his genial face. Somehow she felt that he knew. Come to think of it, he would know. They always knew things at the studios. They knew everything. She heard the gossip. They had engaged Alice Armentiere for star parts because they knew she was Robert Ring Rush's girl, and they were really after Robert Ring Rush. He was a great director. They moved in those indirect ways. Yes, they always knew things. Possibly they knew all about her meetings with de Brissac. Perhaps they knew she was actually in the room when that dark girl . . . she musn't flush . . . she hastily resumed opening letters . . . probably this was success, all those letters that had to be somehow laboriously answered, all the cheap prints of still pictures that would have to be sent. Don't Forget Intelligence. He Had Ambition. Baboons' Blood, Etc. Buying Autographs.

By ARTHUR BRISBANE

[The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review-Tribune.]

"THERE is no life save in protein." Wise chemists gathered at Richmond, Virginia, say it and add, "environment and chemical agency are the dominant factors of life."

That may be true, and still you need not accept "the chemical concept of the origin and development of life."

If inhabitants of another world, where machinery is unknown, should study an automobile supplied with gas and electricity and running, they would say, "No life in this machine without gas. Iron, gas and electricity are all of that automobile."

They would overlook just one little thing, namely, the INTELLIGENCE that put the gas, electricity and steel together, mounted them on pneumatic tires and set them going.

So it is with life. Explain it as you please, but don't forget the INTELLIGENCE back of it.

We are proud of our national prosperity and high wages. Bootleggers are even prouder of their prosperity and high wages. This is shown by Norman Klein, an investigator. One rum-running syndicate could afford to invest $10,000,000 and to pay men on their rum-running crews $50 a night for a good deal less than eight hours' work. One man tells how he used to get only $30 to $37 a week, "but I was ambitious," says he, "so they put me on a runner, and I got $50 a night."

He worked on the "converted sub chaser SC-217," Uncle Sam thus supplying the rum-running boat at bargain prices. There is nothing like ambition.

A dozen lawyers, a judge and experts are fighting for possession of the will of Joseph Stanley. They don't care about Stanley, but Button

The Review-Tribune Offers Booklet on Correct English

Speak and write better, with the help of this simple guide to the proper use of words in the English language.

World famous authorities have compiled for our Washington Information Bureau a concise booklet about words commonly misused, mispronounced, and misspelled.

Promotion in business, success in social and club life, often depends on proper use of words—good English as we call it. Many of us are careless about our language. Many of us had small opportunity to study language in school. We can correct our English by a little study, with the help of the Word Booklet.

Any reader may have a copy for the six cent postage and handling cost. Use the coupon.

SUSPECTS IN ANANIA DEATH ENTER PLEAS OF NOT GUILTY AT LISBON

MOTORIST DIES AS CAR SKIDS

MARION, O., April 19—Funeral arrangements were being made here today for Howard A. Ward, 47, who was instantly killed late Monday when his auto skidded on the Harding highway near his home at Caledonia. A tire split as Ward attempted to pass another car.

MANGLED AUTO VICTIM SHOWS RECOVERY SIGN

John Randolph, Newell, Has Good Night at Salem.

SERIOUSLY HURT

Allen McGonigal's Eye, Injured in Crash, Removed.

Condition of John Randolph, 26, of Newell, whose right leg was amputated after being crushed between two automobiles in a traffic wreck south of Lisbon yesterday, was reported to be "encouraging" at the Salem City hospital today.

Hospital attendants said he spent a good night although his condition is still critical. He was said to be weak from the loss of blood.

Randolph, enroute to Newell, was cranking his car when he was struck by a machine driven by Lewis Dorrance, Hammondsville, traveling in the opposite direction. His leg was severed at the knee when caught between the bumpers of the two cars.

Allen McGonigal, West Third street potter, is in the City hospital today awaiting an operation for the removal of his right eye as the result of automobile crash between East Palestine and Darlington, Pa., Sunday evening. The eye ball was cut with a piece of glass from the windshield of the car in which he was a passenger when it was struck by a Youngstown-owned automobile.

McGonigal is almost totally blind, as a result of the crash, for the vision of his left eye was impaired in an accident several years ago.

Wellsville Mayor Injured When he Falls Into Sewer

Mayor W. L. Fogo of Wellsville is bedfast at his home in Broadway as a result of injuries sustained this morning when he slipped and fell into an open sewer in Tenth street.

One rib in his right side was broken.

Mayor Fogo was supervising city workmen on a sewer repair job, and equipped with hip boots, was preparing to descend into the sewer itself when one of his feet slipped and he was thrown against the edge of the sewering.

Dr. M. C. Tarr rendered medical attention.

Mrs. Marie Chorgas and East Liverpool Man Probably Will Face Trial Late Next Month.

14 OTHER PERSONS ARE ARRAIGNED

Lewis Hamilton, Leetonia, Given Prison Sentence of One to Ten Years for Grave Charge.

Pleas of not guilty to indictments charging second degree murder in the death of Pasquale (Patsy) Anania, 25, Wellsville, were entered by Salvatore Rini, 27, East Liverpool, and his sister-in-law, Mrs. Marie Chorgas, 28, Minneapolis, when they were arraigned before Judge W. F. Lones in common pleas court at Lisbon today.

Mrs. Chorgas Sobs.

Anania, with a knife wound in his heart, was found dead in Rini's apartment in Walnut street on March 22.

Rini appeared in court accompanied by his attorney, W. A. O'Grady, of Wellsville, while Mrs. Chorgas' counsel was Attorney S. W. Crawford, of East Liverpool. Rini was the first prisoner arraigned.

When Mrs. Chorgas took her seat after pleading not guilty she burst into tears and sobbed until she was taken to the county jail.

Trials of the two will probably take place during the latter part of May. Court will convene on Monday, May 2, when Judge H. M. Whitcraft of Logan arrives in Lisbon to assist Judge Lones for a period of four weeks.

Leetonia Man Pleads Guilty.

Lewis Hamilton, 57, Leetonia, indicted upon a charge of a serious nature following disclosures of his daughter, pleaded guilty and was sentenced to serve from one to ten years in the penitentiary. He declined the services of an attorney.

Not guilty pleas were also entered

FORD-SAPIRO SUIT HALTS AS WOMAN JUROR QUIZ BEGINS

Detroit Libel Case Adjourned Until Thursday.

JIM REED ILL

Official Notice Given That Mistrial Will be Demanded.

DETROIT, April 19.—The $1,000,000 Ford-Sapiro libel suit was adjourned today until Thursday pending further investigation by Federal Judge Fred S. Raymond of sericus charges against a woman juror in the case.

Official notice that a mistrial would be demanded as a result of the charges levelled at the woman juror was served on the court by Stewart Hanley, of Henry Ford's counsel.

The illness of Senator James A. Reed, chief of Ford's attorneys, was cited by Hanley as an additional reason for the adjournment. The delay was granted at once by Judge Raymond.

Gallagher Creates Stir.

William H. Gallagher, chief of Aaron Sapiro's counsel, created another stir by complaining to the court against the activities of Ford detectives in and about the courtroom. Gallagher said he had been informed that the Ford secret police were talking to jurors "whether to learn their state of mind or to influence them, I am unable to say."

When called upon by the court to produce some proof, Gallagher said he was without evidence necessary for formal action.

The possibility that a mistrial will be declared loomed strongly after the brief morning session. This would eliminate the five weeks of testimony taken so far and necessitate starting the trial all over again.

The charges against the woman juror, whose name was known but withheld at the direction of the court, were that she expressed strong opposition to Henry Ford. On one occasion, she was reported to have said she would "give Ford the limit" in the libel case. A number of affidavits, reciting the juror's remarks, were filed with the court.

Federal Agents Investigate.

An investigation, ordered by Judge Raymond, is now being conducted by agents for the department of justice. They are expected to report to the court by Thursday morning.

Counsel for Ford meanwhile will prepare a formal motion, asking a mistrial.

The session this morning was brief. Hanley arose as soon as court con-

MURDER SUSPECT DENIES CHARGE

CRESTLINE, O., April 19.—The hearing of William C. Curtis, charged with the murder of Clarence Lowe at Leesville, April, has been set for 1 p. m. Friday. Arraigned before Mayor Waldbauer here last night, Curtis entered a plea of not guilty.

Authorities today expressed the belief that they have sufficient evidence to convict Curtis of being implicated in the killing, which is now thought to have been the result of mistaken identity, Lowe being taken for a collector who was supposed to have a large sum of money in his possession.

12 More Talesmen Called In Snyder-Gray Murder Case

Judge Directs Questioning as Prospective Jurors Claim Previously Formed Opinion in Killing of Editor.

COURTHOUSE, LONG ISLAND CITY, N. Y., April 19.—The tedious task of examining prospective jurymen was resumed today, the second day of the trial of Mrs. Ruth Brown Snyder and Henry Judd Gray for the murder of Albert Snyder, the woman's husband. Twelve more talesmen were summoned to the jury box when court was called to order this morning by Justice Townsend Scudder. Fifty talesmen were examined yesterday and none accepted.

Judge Scudder finally took the questioning out of the hands of the lawyers.

"Have you not sufficient strength of mind to disregard a previously formed opinion and give a fair and impartial verdict?" he asked one talesman.

"No," replied the man, and he was ex d.

ge Scudder continued to questio talesmen, putting the weight of his position back of an attempt to get a jury, but one after another, those questioned stated that they had formed unalterable opinions.

Juror No. 1 Chosen.

William E. Young, publicity man, finally was accepted as the first juror. He will act as foreman.

Young was the fifty-eighth talesman examined.

Mrs. Snyder studied him intently, as he took seat No. 1 in the jury box. She craned her neck to see him better, but Gray showed little interest.

Mae West, "Sex" Star and Co-author, Given Jail Term

NEW YORK, April 19.—Mae West, star and co-author of "Sex" was today sentenced to ten days in jail and to pay a fine of $500 for participating in an "obscene theatrical performance."

The same sentence was meted out to James A. Timony, lawyer and financial backer of the play, while Clarence William Morganstern, the producer, was given a ten-day workhouse sentence without the fine.

Two Parma, Mich., Bank Bandits are Caught in Toledo

TOLEDO, April 19.—Ira E. Huffmann, 30, and Harry Evans, 47, two of the three bandits who held up the Parma State bank, at Parma, Michigan, January 18, in which they secured $3,800, after lining up three bank clerk and several customers, were taken to Jackson, Mich., today after being captured here last night. The two men have both made confessions, police said.

According to detectives, Huffmann said he drove the automobile in which the robbers escaped and received $300 as his share of the loot. Evans received $2,000, according to Huffman.

PORTUGAL FEELS EARTH TREMORS

LISBON, April 19.—A short, but violent, earthquake shock was felt at Figueira Barros today. The population fled to the open fields in panic. No casualties are reported but there was some property damage.

VICTIM'S BODY FOUND ALONG TRACKS NEAR SUMMITVILLE

Well-dressed Man Horribly Mangled Under Wheels.

25 YEARS OLD

Penknife and Cigarettes Only Clues to Identity.

Badly mangled body of an unidentified man, between 25 and 30 years of age, was found by a section crew along the Cleveland & Pittsburgh division railroad tracks, near the Rose Hill crossing, two miles east of Summitville, at 7 o'clock this morning. He is believed to have been killed by a freight train.

Arms and Legs Severed.

The victim's arms and legs were severed and his skull crushed. Condition of the body, which was lying on the eastbound tracks, indicated it had been dragged.

The man, railroad officials indicated, was probably killed while walking along the tracks.

Body at Kensington.

He wore a blue suit, light shirt, pink-striped necktie, low cut tan shoes, black sweater, light cap and silk muffler. He was about five feet four inches tall and weighed about 145 pounds. In his pockets were found a penknife and a package of cigarettes.

The body was removed to the Maple undertaking establishment, Kensington.

Coroner J. M. Van Fossan, East Palestine was to conduct an inquest this afternoon.

Four Motorists Pay Fines of $2 Under "No Parking" Law

Four parking offenders, arrested in the downtown district by Patrolman Norman McFarland last night, paid fines of $2.

They were Walter Fisher, Wellsville, who is alleged to have parked in a restricted zone in St. Clair avenue; G. D. Lowry and L. F. Wright of this city, and J. P. Powers, of Pittsburgh, who are said to have exceeded the 30-minute limit in East Sixth street.

Anthony Tock who was arrested in the Diamond by Patrolman McFarland at 6:35 o'clock last evening, charged with fast and reckless driving, posted a $6.80 bond for his appearance for a hearing before Judge Hanley at 9 o'clock Thursday morning.

No Appointee Named To Fill City Court Clerkship Vacancy

No appointment had been made up to 2 p. m. today by Judge J. C. Hanley to fill the vacancy in the municipal court clerkship caused by the death of Miss Ruth Finnie at Potsdam, N. Y., last Friday.

Miss Lulu Bennett, court stenographer, has been acting clerk since last August. Mrs. Alice Birch has been assistant in the office for several months.

The appointment will be for the unexpired term of Miss Finnie who ends December 31. The job pays $1,800 a year.

CHINA TORN WITH INTERNAL DISSENSION AND THREATS FROM WITHOUT WHILE THREE GOVERNMENTS FUNCTION; POWERS PLAN NAVAL SHOW

SHANGHAI, April 19.—China today is torn with internal dissension and threats from without.

While three Chinese governments—and perhaps more — are striving to function there are indications in Shanghai that the powers are preparing to make naval demonstrations to back up their demands for reparation for the Nanking incidents.

Chiang Kai Shek has created a new Nationalist government at Hankow, according to reports received here. This government is anti-communist and may find itself in open warfare against the more extreme Nationalist government of Hankow. The northern government of Peking is, of course, still effective and gains strength by the split between the southerners.

Anti-Communist Raids.

Meanwhile there are anti-communist raids in a number of cities and indications that the commanders of the cities may elect to create their own governments, possibly in opposition to Chiang Kai Shek and the Hankow government.

The British flagship Hawkins is being made ready to depart up the Yangtze for an unknown destination which is believed to be Hankow. Other British, American, Japanese, Italian and French warship have already proceeded up the river. Officials remain silent, but there is a belief here that concentrations of warships are being arranged off Nanking and Hankow to enforce the demands of the powers which will be made anew in a second note of protest against the Nanking incident.

The American consul general at Hankow has chartered a British steamship to complete the evacuation of the Americans in that district owing to the growing seriousness of the situation.

Japanese field guns, which were landed from warcraft at Hankow, have been planted at strategic points to defend the Japanese concession at Hankow.

The increasing menace at Hankow is causing departure of many wealthy Chinese residents.

Northern troops continue shelling southern positions at Nanking, especially in the Hsiakwan district.

Official advices state that the looting of foreign properties continues. Pillagers again visited the factories and warehouses of the International Export company, carrying off or damaging property worth $10,000,000 (in United States money.)

It is feared the looters will wreck machinery and stocks worth another $10,000,000.

Other American and British losses are estimated at $10,000,000.

No news has been received here as to the fate of Miss Mary Craig, of Philadelphia, American missionary, who has been missing since April 8, when she was kidnaped by Chinese brigands while trying to make her way to Shanghai from the interior Kweichow province.

Await Nanking-Hankow Split Result.

LONDON, April 19.—Further action by the powers in connection with the Nanking protests may be delayed by the establishment of Chiang Kai Shek's government in Nanking, it was stated today.

The dispatch of a new note of protest may await the outcome of the anticipated struggle between Chiang Kai Shek's Nanking government and the Hankow government.

Great significance is attached here to the apparent momentary success of Chiang in rising to the head of a government, since he is held responsible for the widespread anti-Communist raids throughout China.

Hongkong reports that the Japanese have landed field guns to protect their concession at Changsha.

The Chinese peasants' union is creating trouble at Hangchow where a Catholic mission was reported looted.

British Cruisers Go to Hankow.

The British cruisers Vindictive and Carlisle have been ordered to proceed to Hankow under full head of steam as the result of reports that passing ships in that district are being bombarded by the Chinese, said a Shanghai cablegram.

Charming Frocks For Children

"Doesn't she look sweet?" How often you've said that about some prettily dressed girl. Your daughter can look just as sweet, if you choose her summer wardrobe of frocks from our extensive stock.

On the last day of school, mothers will beam and be as proud of their daughters as can be. There will be no doubtful moments as to whether she looks well on this day, if she wears one of these exquisite dainty frocks we have chosen for Junior commencement.

Lovely frocks of georgette, taffeta and silk crepe, some with just a suggestion of a sleeve—others a trifle longer.

These frocks are charmingly youthful—in styles that will become the Growing Girl. Bouffant skirts or skirts with tiers of ruffles or lace—on basque waists. In pink, lavender, light blue, mais, Nile and Copen. Trimmed with lace, rosebud banding, ruffles, shoulder bouquets, etc. Sizes 8 to 14.

For Sunday and dress-up wear we are showing a splendid selection of taffeta and silk crepe frocks in darker shades. Sizes 8 to 14. In rose, greens, tans, blues, red and dark orchid. Long and short sleeve models, trimmed with embroidery, ruffles and bows.

For every day wear you will find a variety of styles in English prints, broadcloths, ginghams and Rayons. Lovely colorings and combinations. Trimmed with stitchery, buttons, white collar and cuffs. Plain and plaid combinations. With and without bloomers. Styles easily laundered—with long-wearing qualities so necessary in children's garments. Sizes 6 to 14.

Darling frocks for tinty-tots—sizes 2 to 6. Silks, georgettes, voiles, prints and ginghams. With or without bloomers. All colors.

The Smartest Frocks of the Season.

Though every magazine and newspaper contain advice on how the blonde should dress, what colors the brunette should avoid, the importance of emphasizing your type, and what the last word in style is, the only way to find out what frock suits you, is to come in and try some of the new ones on.

It will take a personal visit to prove how interesting the new tie dresses are, how fetching the bolero has become, how slenderiz ing a pleated front, plain-back skirt is and what a lot is to be gained by adhering to Fashion's dictates of long sleeves. Here in the privacy of our fitting room you can determine what color and what style becomes you best—then buy that.

The new frocks come in plain shades, or combined tints, (called compose' this season) or prints. New 1927 necklines come square or V and more often than not, collarless. Skirts swing gracefully, due to many fine pleats, soft shirrng or intricate ruffling.

Our display contains frocks for country club, parties, evening wear, as well as those easy to wear and easier-to-look-at daytime frocks, misnamed "Sports clothes". The newest fabrics including flat crepes, georgettes, prints and sports materials.

The newest colors are Mother Goose, Athenia, Palmetto green, Queen blue, Cork, June Rose, Shell pink, Maize, Biege rose and the ever-popular colar, poudre blue, nude, orchid, navy, tan and black.

Sizes for every figure. We can fit Juniors with frocks suitable for all Commencement festivities.

A frock for every ocasion for Misses', Little Women, Women and Stylish Stouts.

CLEAN-UP DRIVE PLANNED HERE

Annual Campaign Will be Conducted First Two Weeks in May.

Annual "clean-up" campaign here will be conducted during the first two weeks in May, according to a decision reached last night at a meeting of council in the municipal building, Fourth street and Indiana avenue.

The drive will be along lines of other years in which householders are asked to place refuse in containers and place same on sidewalks where they will be hauled away by city teams. This order does not include the removal of garbage.

Remainder of the session was given over to the transaction of routine business in which reports of officers were read and ordered made part of the records.

DISTRICT COURT RULING UPHELD

RICHMOND, Va., April 19.—The U. S. circuit court of appeals today upheld the decision of the southern district court of West Virginia in granting an injunction against union leaders during suspensions in the West Virginia coal fields in 1920 and 1921.

The court held that while the legality of labor unions had been provided for in the Clayton act, efforts of union leaders to halt production in the coal fields at that time constituted a restraint of trade.

Evidence in the case, said an opinion prepared by Judge Parker, showed that defendants had combined to interfere with the production and shipment of coal by non-union operators in West Virginia to make effective the strike called in 1920 and 1922, and that the campaign of "intimidation and violence incident thereto" was merely the carrying out of the conspiracy.

Although no direct evidence was said to have been made in the appeal to the so-called "check-off" system, the court ruled that nothing illegal appeared in the system.

Prayer Meeting Listed.

'NEW YORK' WINS SCREEN FANS

Ricardo Cortez and Lois Wilson in Ceramic Picture.

Richardo Cortez, Lois Wilson, Estelle Taylor, William Powell and Norman Trevor all helped Director Luther Reed in his endeavor to make "New York" a picture worthy of the city for which it is named. After seeing Paramount's latest at the Ceramic last night, critics can do no more than assure you that Paramount has "done right" by our Melting Pot.

For those whose minds run that way, let it be said that "New York" offers the following:—at least eight definite characterizations, all of which are decidedly worth while; some mighty capable direction from Luther Reed; a not-to-be-scoffed-at story by Barbara Chambers and Becky Gardiner; a ship-shape scenario straight from Forrest Halsey's ingenious mind; and some remarkable shots of New York life, not stuck in here and there as "atmosphere," but which have definite places in the film's background.

"New York" opens in a Bowery dive. Cortez, Powell, "Skeets" Gallagher and Lester Scharff are introduced as a quartet who have grown to manhood on the city's East Side. The first has become a jazz drummer, Gallaghr (making a very acceptable screen debut) is his pianist, Powell has developed into a typical gangster and Scharff is entering politics. It is then that Cortez meets Lois Wilson, a girl of the "four hundred." He determines to raise himself to her level.

Five years later, things have chang-

ENDURED AGONY FROM BRUISES AND STRAIN

Hurt in bad fall, young woman makes quick recovery

A young woman at Bushnell's Basin, Monroe County, New York, fell and was badly bruised and strained.

"I suffered agony," she writes, "but I used Sloan's Liniment and it relieved the pain right away. Now I don't feel it at all."

What is the secret of the almost magical powers of this remarkable remedy?

Simply the fact that Sloan's doesn't merely deaden the nerves so that you don't feel the pain. It really drives out the pain by helping the conditions that are causing it.

Right to the affected spot it brings a healing stream of fresh, revitalizing blood, driving out conjestion, relaxing contracted muscles. The pain stops as a natural consequence.

So clean and easy to use, too. Just pat it on lightly without rubbing, and the liniment will do its work. Get a bottle today and have it on hand. All druggists have it—35 cents.

Salem Woman, Victim Of State Hospital Assault, Gets $1,000

sundry claims board, it was announced today, has authorized payment by the state of $1,000 to Anna Thompson, Salem, as compensation for injuries resulting from an assault by a patient at the Columbus state hospital.

Ann Thompson was an attendant at the hospital Nov. 1, 1905, when a patient hit her in an eye, which, later had to be removed. As a result of this injury, sight of the other eye was destroyed.

The money is to be expended at the discretion of the Columbiana county common pleas judge, it was announced.

CLEVELAND BLAST BLAMED ON GAS

CLEVELAND, April 19.—The cause of the explosion which wrecked the palatial residence of James C. Pettee here Saturday, has been attributed by fire marshals to explosion of natural gas, escaping from over-head pipe-lines, leading from gas wells on the estate.

Detectives have practically abandoned the bombing theory.

Busy Airways

"Even if only a majority of the proposed flights for 1927 are actually made, there will be more countries represented in long flights this year than ever before," says an official of the Aeronautical Chamber of Commerce of America.

First there are the filghts already completed or now under way, which include the American Good Will flight to South America, the De Pinedo four-continent flight, the round trip from France to Madagascar completed by a French flier in February, and a round-the-world flight begun by a Portuguese flier.

Five trans-Atlantic flights are proposed. One is the Orteig prize flight from Paris to New York, which is interesting such aviators as Commander Richard Byrd and Captain Rene Fonck. Another, from Germany to the United States, is being promoted in the interest of passenger and mail service between those countries. Two others are scheduled to start from Spain and from Rome.

Capt. George H. Wilkins is attempting a North Pole flight, and Commander Byrd is planning to fly across the South Pole.

Flights to Hawaii are proposed starting from San Francisco, San Diego and Vancouver. British and Spanish air officers are to fly across India. The holder of the present French altitude record is going to try his luck at flying over Mount Everest, taking pictures which he hopes may be of service to future foot expeditions to the summit of that mighty peak. French fliers are planning to circle the Atlantic and Australian fliers have Samoa as a goal.

There are other plans not yet revealed to the public.

Much will be learned from all these endeavors. It is to be hoped that accidents, and particularly fatalities to fliers, may be avoided. Flying is a great game and an important one. It is well that interest in it is growing.

Rules For Springtime

The Garden club of Los Angeles has prepared a set of seven rules for spring hikers and motorists to follow in regard to wild flowers.

1. Never gather many flowers of one kind in any one locality, no matter how common they seem there.

2. Leave the roots of perennials. Otherwise the plant is killed.

3. Pick the flowers of annuals very sparingly, or there will be no seeds for next year.

4. Do not break or tear off woody flowering branches; cut them close to the base so the wound may heal over and prevent fungous disease from entering.

5. Protect all the plants furnishing food and shelter to birds.

6. Remember that most wild flowers fade soon after picking. If left in their natural state their bloom lasts longer and gives pleasure to more people.

7. Do not drop lighted matches, cigars or cigarets in the woods or fields, or burn them intentionally, as burning destroys humus in the soil necessary for the growth of desirable plants and causes them to be replaced by troublesome weeds.

An eighth rule, summing all the others, might be added:

Visit the woods and fields, feast your eyes and soul on the beauty found there, and go away without destroying any of it.

The Mother Lawyer

The wife of a successful business man, while taking care of a home and two children, has been studying law, and expects to begin practising in a few weeks. Asked how she can find time for such professional work, she says:

"I don't give any more time to my law than many of my friends devote to bridge. I am merely substituting a profession for a pastime. I like it as much, too, as other women like bridge. And I believe it will be more profitable."

Very likely it will. And when you think it over, there's really no reason why anybody who prefers a time-saving and money-making pursuit to a time-killing and money-spending one shouldn't indulge his or her whim. There is a sort of tradition that it isn't good form to indulge in any avocation or creation unless it costs money, but we're getting away from that lately.

Baseball Triumphant

Baseball appears to have as many lives as a cat. It can't be killed by scandal. Its popularity and necessity to the American public have been demonstrated once more.

The thousands of fans who eagerly greeted the season's opening games in various cities showed unshaken faith in the game and in its players. If the game is well played and remains reasonable honest, if the expected quota of home runs and other thrilling episodes of the diamond are regularly forthcoming, the public asks nothing further.

And perhaps it is a good thing that the country can be so wholeheartedly childlike and devoted to at least one perennial pastime. It is fickle and cynical enough about plenty of other things.

Fewer children learn to play instruments in this age of mechanical music. That may be unfortunate for the children, but it's better for the music.

The Terrible Tempered Mr. Bang— By Fontaine Fox

My Favorite Stories
By IRVIN S. COBB

ONE WHO PASSED RIGHT ON THROUGH

There are people in this great country of ours who either do not care deeply for Manhattan Island or else let on that they don't care for it. To a dweller on said Island small town prejudice against the metropolis is a complete mystery.

The manager for a theatrical company which had taken to the road after a long and successful run on Broadway, met one of these prejudiced persons at a small way-station out in Ohio where the troupe had piled out to change cars. The train which they meant to board was late, so the actors idled about the junction and admired the peaceful rural landscape.

A citizen approached the manager with the customary question:

"Where do you go from here?"

The manager told him.

"Are you from New York?" asked the local next.

"Yes."

There was a short pause and then, with a fine show of fatigue and a repressed yawn of boredom, the native spoke:

"Well," he said "I've been by New York several times, but I never stopped off."

NEW YORK DAYBYDAY
By O. O. McINTYRE

NEW YORK, April 19.—The reason Broadway remains the world's most interesting street is perhaps because it is typically only of itself. It has no comparisons. Indeed, it is not so much a street as a state of mind. The glittering facets are merely the outward show.

No street so perpetually maintains the spirit of the carnival. Clockers have discovered that people turning into Broadway from side streets step more sprightly. They are touched as the small boy is touched by sight of the circus elephant.

Broadway has not grown up to attain a dignity. Its chilliness is expressed in a jinkle-jumple of waffle shops, magic stores, pastry parlors, quick photographers, souvenir hutches, auction sales, flea circuses, orange and pineapple drink stands and other felderal.

The surface is cynical but underneath is that shallow optimism prompting hundreds of men and women to live solely for the day by their wits. To be broke on Broadway is rarely a calamity. It is merely a laugh. A former "millionaire kid" often sells pencils with a smile.

The confirmed Broadwayite believes with Elizabeth that life is a bog over which one must travel lightly for if there is a stop one sinks. Camaraderie is free but rarely lasting. Broadway has few friends of yesteryear. It lives in the now.

This morning on Broadway was a roguishly rouged girl leading a dog that wore a collar inset with a watch. A block away was another of the same type with court plaster flower designs showing through sheer stockings. Nobody turned to stare. Nobody cared.

For say what you please about Broadway it minds it own business. Life there is largely a highball and a headache. A punchbowl of champagne with roses floating on top and thorns underneath. It welcomes everybody—except the whiner. There is no place for him.

Broadway is often a term applied to side streets and districts running off either hip. These are not a part, strictly speaking, of the street. They merely bask in the glamour of the real thing. There is only one Broadway.

The biggest change in [illegible] in the past few years is on Sixth Avenue above 53d street. The metamorphosis began with the demolition of the elevated railroad. Ziegfeld's new theatre stands out like a white bellying sail where delicatessens and valet shops once flourished. Hotels and apartment houses on a grand scale are going up with a furious rush. It used to be a section where thrifty chorus girls could buy a single egg or potato to cook over a hall room jet. Today it displays orchids at $20 a stem, and haughty drug stores without window displays.

A fashion spy tells me a spray of gardenias for Milady is smarter than orchids. The orchid has gone out with the suddenness of a French cabinet. A single gardenia for a gentleman's lapel sets a dandy back $1.25. Orchids it appears clash with various colors in gowns and ladies would often, after the corsage arrived, be forced hurriedly to change gowns to match. Gardenias will blend with any coloring. Hence the popularity.

After so much war time mourning, black became passe. Fashionable ladies went in for dash and color but black is becoming popular again. This fall it will dominate the feminine wardrobe.

He is a tittupy man with a whinnying laugh who seems to be constantly rubbing his hands together. Almost every day as he crosses 42d street he yells to a certain crossing cop, "Hello you big stiff!" grins and scuttles away. "Exercising his inferiority complex," smiled the cop yesterday.

HASKIN'S LETTER
By FREDERIC J. HASKIN

Business Men to Meet.

WASHINGTON, D. C., April 19.—During the first week in May the representatives of 1,500 chambers of commerce, boards of trade, and similar organizations throughout the country will gather in Washington for the fifteenth annual meeting of the Chamber of Commerce of the United States. They will include the leading business executives of every state and their three days' session is heralded as one of the most important that has ever been held.

It will be featured by notable addresses and discussions, by committee reports on weighty business subjects, and by the adoption of resolutions that will inform congress and the country where American business men stand on problems of production, distribution, transportation, finance, foreign and domestic trade, and legislation and government activity affecting industry and commerce.

Most significant of the addresses, it is anticipated, will be that of President Coolidge at the night session of May 3, which will be a joint session with the delegates to the Third Pan American Commercial Congress, which will also be held in this city that week under the auspices of the Pan American Union. At the annual dinner of the Chamber of Commerce the following night Secretary of Commerce Herbert Hoover will be the principal speaker, taking for his subject, "New Contributions to Our Economic Life."

At the Tuesday night meeting, prior to President Coolidge's speech, there will be an interesting ceremony of raising the flags of all of the twenty-one American Republics while the United States Army band plays the national anthems of the different countries. After the president has concluded, a brilliant reception and ball will be held in honor of the visitors from Latin America and those from the United States.

The New Business Era.

"The New Business Era" is the general theme for this annual meeting of the Chamber of Commerce. The new competition, with entire groups battling for markets, hand-to-mouth buying, instalment selling, improved business standards, the need of more adequate statistical data, simplification, elimination of waste, and a score of other modern developments in business will be considered.

"American business sweeping forward under the play of new economic forces finds it more necessary than ever to look into the future," says the announcement of the chamber. "What do changes that are taking place foretoken? How sharp is the break from the conditions before the war? In what direction are we headed? Are we approaching even more important developments than we have seen in the recent past?

"The new business era demands the

What's What in Washington

BY CHARLES P. STEWART

GUESSING AS TO WHY COOLIDGE CALLED HUGHES FROM NEW YORK

WASHINGTON, April 19.—It's anybody's privilege to guess for himself why President Coolidge sent for Charles Evans Hughes the other day in the midst of all the foreign entanglements the administration is struggling with.

CHARLES E. HUGHES

That Hughes called on the president is certain. That his advice was asked concerning China, Mexico, Nicaragua and disarmament is only hinted—but mighty broadly.

No, the inference isn't that the ex-secretary of state is being urged to take his old portfolio back. He's out of the cabinet for keeps, undoubtedly.

The question Washington would like to have answered is:

If the president's satisfied with the advice he's getting locally on the subject of foreign affairs, why does he have to send up to New York after it?

IN case Secretary of State Kellogg resigns, no prediction as to his successor is a safe one which fails to take into account the qualification:

Provided it suits Secretary of Commerce Hoover.

It's no secret that not an important appointment is made in Washington against Hoover's opposition. It's equally well accepted that anybody he wants appointed is as good as appointed. No appointee, already in office, cares to have Hoover suggesting his removal.

It's agreed that Hoover could have the state portfolie in a minute if he cared for it.

The only reason he isn't more prominently mentioned for it is that he's added so many functions to the commerce department and organized it so completely to suit himself that it's doubted if he'd care to leave it.

"ONLY over my dead body," says Senator Keyes of New Hampshire. And he isn't dead yet. Thus the Senator Jim Reed slush fund committee is stalled, despite everything.

The committee was named last summer to probe the high cost of certain senatorial campaigns. Chairman Reed was almost the whole thing. The probe was all to Reed's glory, and the Democrats, of whom he's one; to the dreadful discomfiture of every Republican he found a chance to pan.

When congress ended, the bedevilled Republicans said the committee was dead, too. Reed said he'd show 'em it wasn't by probing some more.

But he needed expense money. Keyes, a Republican, who considers the committee dead, has charge of senate expenditures and wouldn't give him a cent.

THE dispute waxed hot. It's for the senate to decide finally, but this was an emergency. Vice President Dawes announced he'd act in it. He decided for Reed.

Did this squelch Keyes? It did not. He promptly invited Dawes, as well as Reed, to go take a long running jump. What's more, there's no power short of the senate which can make Keyes loosen, and the senate won't meet until December.

That's a long time for Reed and Dawes to chafe and cuss.

IT'S pretty sure to be a swell row when it does come up.

It will be noted that Senator Fess, who was appointed by Dawes to fill a vacancy on the committee, has discreetly declined.

The cautious Ohioan doesn't care to be caught in any jam between such a trio of Helen Maria, "show me" and Old Granite scrappers as Dawes, Reed and Keyes, respectively.

IN MEMORIAM.

In loving memory of my dear husband, Hiram H. Mercer, who departed from this life six years ago today, April 18, 1921.

This day brings sad memories of a loved one gone to rest,
May Jesus bless him in his loving way,
I am lonely, yet not alone, for Jesus speaks with loving tones,
And bids me wipe those tears away, and follow him from day to day.

Rest ever his own,
In thy Heavenly home
For in Jesus thou are truly blessed, in blessed sleep.
Sadly missed by his wife.
CAROLINE MERCER.

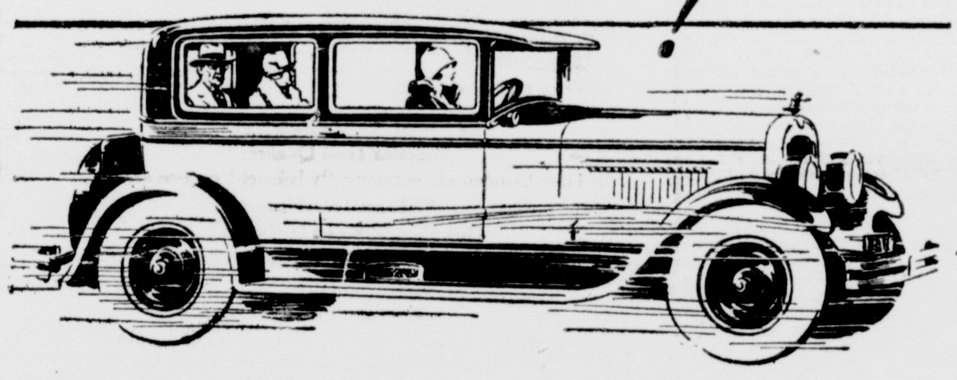
EAGER ALERT ALIVE!



For this is a Pleasure *Car*

HAVE you ever thrilled at the elusive rush of a fast quarterback through a field of ordinary players? Have you ever seen a destroyer darting, twisting, turning through a slow fleet of merchantmen? Or a Reo Flying Cloud scurrying lightly and nimbly through the clutter of down-town traffic?

There is more than mere speed in the Flying Cloud, more than mere ease of steering alone, more than sureness of braking. For the Flying Cloud combines all these qualities in a way that makes it a thing apart from the rest of motordom.

You'll understand it, the moment you get behind a Flying Cloud's wheel. You'll find whole minutes cut off short city trips—whole hours off cross country journeys. And you'll have found also a new pleasure in motoring, the pleasure of a car that does its work with gaiety, a car that eternally strains joyfully at its leash.

Try out a Flying Cloud today. It is a pleasure car. Start it, step on it, stop it. You'll realize a new joy no matter how old a hand at motoring you may be.

TWO WELLSVILLE BOOTLEGGERS GO TO WORKHOUSE

POLICE LAUNCH DRIVE AGAINST HIP-POCKET RUM

William Kessler and Jacob Baker Sentenced.

FINED $100 EACH

Chief Fultz Leads War on "Canned Heat Squads."

Two men were sent to the Stark county workhouse at Canton today in charge of Chief of Police John Fultz as Wellsville authorities launched a campaign against so-called "hip pocket bootleggers."

The men, William Kessler and Jacob Baker, were arrested last night in Third street by Fultz on liquor charges, along with Dick Malone.

Kessler and Malone were charged with possession and Baker was charged with furnishing liquor.

Kessler and Baker were fined $100 each and committed to the workhouse. Malone is being held in jail pending disposition of his case.

Chief Fultz announced that police will make every effort to cut down the operations of the "canned heat squads" in the district.

In every case possible workhouse sentences will be meted out to offenders, he asserted.

Members of the O. N. O. club will be entertained on Wednesday night at the home of Mrs. Clyde McIlvane, 1789 Clark avenue.

There are lots of "prepared tints" for home tinting of your dainty lingerie, but did you ever try real dye-tinting with a real dye? You get glorious effects when you begin with the true tones that only real dyes can impart to fabrics!

An envelope of the actual dye powder is only fifteen cents at any drug-store. Sift a bit in cold water—dip the garment—and it's done. Only, you'll have a smooth, even tone just exactly like materials have when bought; none of that streaky look; never weak or "washy" no matter how much you dilute or lighten the color. Furthermore, you can "set" the tint if you want, by merely having the water boil.

Every drugstore has Diamond dyes, color cards and suggestions for exquisite tinting or regular, permanent dyeing of anything. Or, write for Color Craft—a marvelous book of ideas in full colors; free from DIAMOND DYES, Dept. N33, Burlington, Vermont.

Some Frank Words on Catarrh

Because catarrh is unpleasant, few like to discuss it. Yet all know its prevalence. Many think "It will go away of itself," and ignore it until finally a chronic catarrhal condition exists.

To endure the constant raising of mucus, the clogged nasal passages, the offensive breath of catarrh is today inexcusable. Thousands have proved that Hall's Catarrh Medicine drives away catarrh because it tones and strengthens the mucous membranes.

When the inflammation of these delicate linings of nose, throat and head is reduced, catarrh vanishes. You owe it to yourself to get Hall's Catarrh Medicine today. Ask your druggist. Price 85c. F. J. Cheney & Co., Toledo, Ohio.

HOLD JOBLING FUNERAL HERE

Funeral services for John Jobling, 76, of Akron, who died Friday in the home of a daughter, Mrs. George Wilson, Commerce street, were held yesterday afternoon at the Wilson residence, in charge of Rev. L. C. Momberg, pastor of the First Methodist Protestant church. Burial was made in Spring Grove cemetery, East Liverpool.

Mr. and Mrs. William Jobling and Mrs. John Jobling have returned to Akron and Miss Edith Jobling, the latter a granddaughter, has returned to Lorain, after attending the services.

PERSONALS

Joseph Lewis, little son of Mr. and Mrs. E. J. Lewis, Henry avenue, is recovering from bruises sustained Sunday when he was accidentally struck by an automobile driven by Miss Mildred Armstrong. The child jumped off the curb into the path of the machine. He was taken home by the driver and medical attention was rendered by Dr. J. M. King.

Miss Mary Rosenberg, grade school student, is suffering from the effects of a broken nose sustained when she was struck by a bat during a ball game by school girls Friday.

Mr. and Mrs. Raymond Murdock, of Wilkinsburg, Pa., have concluded a week-end visit with the former's parents, Mr. and Mrs. A. B. Murdock, of Broadway.

J. S. Burnett, Center street, has concluded a visit with his sister, Mrs. J. F. Clark, of Alliance.

Rev. K. J. Stewart, pastor of the Yellow Creek Presbyterian church, is recovering from a recent illness.

LOCAL CHECKER TEAM WINNER

Defeat Toronto Squad, 6-3, in Contest Here.

A four-man team of Toronto checker experts fell before the prowess of a Wellsville squad, 6 to 3, in the first match of a home and home series here last night.

The contests were staged in the chamber of commerce headquarters in the city hall building and drew a crowd of approximately 75 fans.

In every match, competition was keen. Willis Gilmore, of the Wellsville squad, finished with a record of three victories over his opponent's one.

The complete score follows:

Wellsville—C. McElroy won 2, H. Todd Sr. won 1, E. W. Urie won 0, W. Gilmore won 3.

Toronto—John Martin, won 0, drew 2; C. B. Hall, won 1, drew 2; H. Pittinger, won 1, drew 3; Bob Moser, won 1, drew 0.

A return match will be staged in Toronto in two weeks.

SALINEVILLE

Easter Sunday was observed in the Presbyterian Sunday school by an Easter lesson, two special numbers by the orchestra, and two special selections by the children's choir.

The following officers were installed: O. M. Ashbaugh, and William Heatherington, elders; Herman Graubner, S. B. Larkins, and John Johnson, deacons. Communion of the Lord's Supper was held at the eleven o'clock service. It was decided to observe mothers' day on Sabbath, May 8th. The following committee was appointed to have charge of the program: Chairman, Mrs. Verne Randolph, Miss Pauline James, Mrs. Mabel H. Martin, Miss Elizabeth Loch, and Miss Fae Heatherington. The program will be rendered at the 11 o'clock service.

The sacred cantata, "Easter Praise," given by the combined choirs of the United Presbyterian and Presbyterian churches, in the Presbyterian church, was well attended. Rev. Ross S. Wilson gave the invocation and Rev. W. S. Martin pronounced the benediction. Mrs. S. B. Larkins presided at the pipe organ.

The church was crowded and the large congregation was pleased with the splendid rendition.

All of the churches in Salineville report good congregations on Easter Sabbath, with the best of interest. Special music and sermons on the Resurrection of Christ, were features.

Born to Mr. and Mrs. Orville Madison, of Wellsville, Sunday, April 17, a son. Mrs. Madison was formerly Miss Fae Foddy, of Salineville.

The infant son of Mr. and Mrs. Lloyd Hetzel, who died Sunday morning was buried Monday from the home of its parents. Interment was made in Woodlawn cemetery.

DONAHEY SAYS HE WILL VETO ROBERTS BILL

Governor Opposed to Salary Boosts for Commissioners.

JONES ACT O. K.

State Executive Puts His Signature on Several Measures.

COLUMBUS, April 19.—Governor Vic Donahey, it was announced today, will veto the Roberts bill, which passed the present session of the Ohio legislature, placing county commissioners on a salary basis.

The governor declared he had received no request to permit increases of salaries of public officials, but had received numerous pleas that he oppose all such increases.

It was estimated that the Roberts bill, if it becomes operative as law, would provide for a total increase of $120,000 annually in the salaries of county commissioners throughout Ohio, the proposed increases to be based upon population and on tax duplicates.

The governor indicated his intention of permitting the Jones emergency act, which has passed both the senate and house, to become a law without his signature. The Jones bill is designed to afford immediate financial relief for weak school districts in order to eliminate threatened closing of many public schools throughout the state.

Under provisions of the Jones bill, [illegible] boards may issue short-time notes immediately for the purpose of borrowing, either from the state teachers' retirement fund or from private financial institutions, funds sufficient to pay teachers' salaries until the regular appropriation for these schools becomes effective July 1, next.

Measures receiving the governor's signature today include:

By Herbert, permitting church to transfer property to national governing boards by a majority vote of the congregation. Present law required a two-thirds affirmative vote.

By Burnett, increasing pension paid to needy blind; by Morgan, repealing scores of obsolete and unconstitutional sections of the Ohio laws; Johnson, requiring county officers to give surety bonds instead of any type they desire; Walther, requiring drivers of vehicles transporting explosives, or inflammables, to stop at railroad crossings; Norton, appropriating $150,000 from the residue of the sesqui-centennial appropriation and from the state general revenue fund for construction of monuments in France and Belgium commemorating activities of the 37th division during the World War; McKinley, providing that when a civil service employes' list is reduced for reasons other than "cause," the employes thus removed shall be the youngest in point of time of service; Myers, authorizing the Northwestern Ohio Gas company to lay a pipe line across property at the Toledo state hospital; Stevens, to authorize the city of Dayton to purchase more than a mile of the Miami and Erie canal in Dayton for the purpose of elevating railroad tracks; Ward, of Franklin, giving the Pennsylvania railroad company a new right of way along the state fair grounds, Columbus, the state taking over the present right of way.

Norton Also Signed.

The governor, also, signed the Norton bill, allowing boards of education to contract with art museums and other such institutions for the training of pupils.

Governor Donahey, it was stated, has until next Monday to pass upon the question of vetoing the Dodd bill which authorizes collection this year of a half-mill direct state tax levy.

The governor did not indicate what action he will take concerning the Dodd bill.

STATE OFFERS ANTI-TOXIN IN TYPHOID CASES

Health Commissioner Advised of Action at Columbus.

FIGHT ON FEVER

Infection Spread by Pollution of Water and Food.

As a special inducement to encourage typhoid fever vaccination the state department of health will furnish physicians with anti-toxin free of charge during April, according to word which has been received from Columbus by City Health Commissioner Edward Miskall.

Typhoid occurs most frequently during that period of the year in which people are outdoors the most. It is known as the vacation disease. As the population increases so do the chances for spread of infection through pollution of water and food supplies by active cases and carriers.

Typhoid vaccination performs its greatest office in fortifying the individual against this chance infection and making his system more resistant to the effects of the disease in case the amount of infection is overwhelming.

Anti-typhoid vaccination was introduced into the American army in 1909 and made compulsory in 1911 for all men under 45 years of age. This measure has abundantly justified itself as proven by the very small incidence of typhoid fever in the army since then.

During the World war there were 1,431 cases of typhoid with 159 deaths. Most of these cases occurred among troops who had been exposed to infection of unusual strength and severity.

It is estimated that there were 230,000 Ohio soldiers during the World war. Considering the entire number of cases of typhoid the Ohio men would have had but 80 cases. The same number of men during the Spanish-American war would have had 44,000 cases.

Vaccination alone will not protect against a heavy infection. Those who have been vaccinated within the three preceding years—immunity lasting from two to four years—have 16 times better chances for escaping the disease than those not protected by vaccination. Sanitation plus vaccination can eliminate typhoid fever, but neither one alone can do it.

Ordinarily typhoid germs do not live very long if diluted and exposed to sunlight, two hours to two weeks. They may live a long while if protected by a coating of moist organic matter.

A carrier is a person who has the germs in his system, usually without showing any evidence of their presence. A person may be a carrier of typhoid and never have, or have had the disease.

One case is on record where a dairy man who had had typhoid fever 47 years previously was the cause of several hundred cases of typhoid fever.

A new railroad has just been opened in Sumatra.

MAIN CIRCUS HERE MAY 11

Street Parade Will Precede Performance, Agent Says.

With the arrival in East Liverpool of J. C. Admire, contracting agent of Walter L. Main circus, arrangements have been completed with citl officials for the parade and exhibition of this old-time favorite on December, May 11.

Admire is emphatic in his denial that circus parades have been abandoned, and claims that while one circus has abandoned the street parade, his managers have taken the opposite view and have increased the street pageant of the Walter L. Main circus until now it is the largest one in existence. They figure the parade is the show window of the exhibition, with exactly the same object in view that causes a merchant to display his wares. Another object of the parade is to give joy to many poor children whose only glimpse of the world's wonders is the time-honored circus procession. All dens and cages are wide open, so that all may see the many animals from every clime. Five brass bands dispense real music, along with the largest steam calliope ever constructed, while 20 clowns furnish the comedy.

At the circus grounds, after the parade, the visitors are entertained, while waiting for the doors to open at 1 o'clock, after which, an inspection of the menagerie is in order; practically every known jungle animal is represented, also many denizens of the Arctic regions, the entire collection of 563 beasts being a complete education in animal-land. At 2 p. m and 8 p. m., the performances start and from the opening spectacle to the closing overture, the air, the rings and the track are filled with acrobats, aerialists, clowns and performing animals of all kinds, accompained by the best band in circusdom.

Admire says the Walter L. Main circus is the only large organization booked into this territory this season, and that his show will positively parade and exhibit here on the date above mentioned, whether rain or shine. The parade is at 11 a. m. The doors open at 1 and 7 p. m.

Ruts

MANY a man of brilliant promise has been lost in a rut of despair. Has seen his enthusiasm, his prospects, blighted! Himself powerless to prevent it—dully realizing that he no longer had the energy to stand the pace. . . . What can crush a man's spirit so completely?

Indeed, what is constipation? More—far more—than the average person realizes. It destroys health. It steals strength. It sickens the mind and leads to suffering and disease! Yet no one need be afflicted with this curse. Kellogg's ALL-BRAN is guaranteed to relieve constipation—promptly, safely.

Why part-bran products fail!

ALL-BRAN is 100% "bulk." This bulk absorbs moisture and carries it throughout the intestines, gently distending them—cleansing, removing wastes and poisons. In a part-bran product the quantity of bulk is so small it scarcely accomplishes anything! Doctors recommend ALL-BRAN because they know it is 100% bran—100% effective.

Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

So different from dangerous pills!

How much better to rely upon healthful ALL-BRAN than habit-forming pills and drugs. ALL-BRAN is delicious with milk or cream—and add fruits or honey. Let it soak a few moments to bring out all its nut-like flavor. Use it with other cereals. In soups. Try the recipes on every package.

Don't risk part-bran substitutes. Insist on genuine Kellogg's. Sold by all grocers. Served at hotels, restaurants. On diners. Made by Kellogg in Battle Creek.

Lombardo Orchestra To Play For Elks at Virginia Gardens

If the ghosts of the musical ancestors of the Lombardo family are not turning over in their revered graves in Italy, it must be because they are proud of their descendants in America, chiefly of Guy Lombardo, young director of the Royal Canadians, famous dance orchestra that will play tonight at Rock Springs park under the auspices of the East Liverpool Elks' lodge. Elks and their friends from this city, Wellsville, Lisbon, Salem, East Palestine, Beaver, Steubenville, Alliance and other places in the district are expected. The hours will be from 8:30 to 12:30.

For generations the Lombardo family has been prominent in Italian operatic circles, one great-uncle of Guy having played under the direction of the immortal composer, Verdi.

There are three brothers in the Lombardo orchestra, which has been playing at the Music Box and the Blossom Heath Inn, Cleveland, and broadcasting from Station WTAM. Besides Guy, the violinist-leader of the organization, there are Carmen and Leiber Lombardo, both clever musicians.

The Royal Canadians is one of the most promising of the younger dance orchestras.

Miss Sara Landy Becomes Bride of Bernard Campbell

Miss Sara Landy, daughter of W. H. Landy of Marietta, became the bride of Bernard J. Campbell, son of Mr. and Mrs. Jesse Campbell, of Ohio avenue, East End, Friday afternoon, April 15, in the parsonage of the Boyce Methodist Episcopal church. Rev. J. Lloyd McQueen, pastor, performed the ring ceremony. The attendants were the bridegroom's parents.

The bride was gowned in royal blue crepe, and wore a corsage of bride's roses and lilies of the valley.

The bridegroom is employed by the Pittsburgh Crucible Steel company in Midland.

A wedding dinner was served in the bridegroom's home, covers being arranged for the immediate families. Mr. and Mrs. Campbell will reside temporarily with the bridegroom's parents in Ohio avenue.

Birthday Anniversary Observed.

Honoring the birthday of Miss Wilma Gregory, of Broadway, Wellsville, friends were entertained last evening at the home of Mr. and Mrs. I. N. Capehart in LaCroft. The social hours were spent with music, games and dancing. Refreshments were served by Mrs. Capehart, assisted by the honor guest's mother, Mrs. William Gregory. Covers were arranged for 40.

The honor guest received many gifts.

Dancing, Danceland Thursday. 50c.

Honor Newlyweds.

Mr. and Mrs. Albert Pelly of Lisbon street entertained last evening, honoring Mr. and Mrs. Arthur Haney, who were recently married. The bride will be remembered as Minnie Singer. Dancing and cards were diversions.

Refreshments were served by Mrs. Pelly, assisted by Mrs. Haney, covers being arranged for 15 guests.

The honor guests were presented with many gifts.

Mrs. Howard Goddard Hostess.

Mrs. Howard Goddard received the Chester Woman's club at her home in Carolina avenue, Chester, yesterday afternoon. A spelling bee was won by Mrs. C. F. Allison. The club members presented a one-act playlet, under the direction of Mrs. C. R. Campbell. Mrs. John Rice gave a short story.

Refreshments were served by the hostess, assisted by Mrs. John Swindell. Spring flowers and a color scheme of yellow and green predominated in the appointments. Covers were arranged for 25.

Miss Carolyn Brown of New Cumberland was a special guest.

The next meeting will be held May 2, at the home of Mrs. Mary L. Collins in Carolina avenue, Chester.

Loyal Workers' Session.

The Loyal Workers' class of the First Church of Christ will meet tonight in the church parlors. Miss Gladys Robinson will be the hostess.

DeMolay Dancing Party.

A DeMolay dancing party will be staged at Virginia Gardens, Chester, on Wednesday, April 27, under the auspices of Harding chapter. DeMar Miller's orchestra will play. The public is invited.

STRAND STOCK PROVES WINNER

"The Patsy," Comedy, Opening Show at Playhouse.

A large crowd greeted the Strand Players yesterday afternoon and last night, when they opened a stock run at the St. Clair avenue theatre.

"The Patsy," with a record engagement of 300 nights at the Booth theatre, New York, was the initial presentation. This comedy, by Barry Conners, author of "Applesauce" and "The Mad Honeymoon," proved a decided hit.

"The Patsy" deals with the trials and tribulations of a highly sensitive young girl in the home of a modern American family consisting of a father whose love for her is the only sustaining note in her life, and her mother and older sister who are unendingly nagging and bullying her into taking the blame for everything, though hers is not the fault. Considering herself almost a failure she takes a book which is purchased through an ad in a comic magazine and from which she learns many wise and witty sayings in order to become a social success and a "hit of the party." To the further distress of both her mother and sister she wins Tony, the discarded suitor of her older sister for whom she has secretly cared for a long time. Unwittingly he is won through an effort to have Pat win the man she loves by giving her six lessons in love-making. As the last lesson hits its target Grace, Pat's older sister turns, down her new and richer suitor and decides she wants Tony back. And for a time things seem pretty bad for our heroine.

Matinees will be featured today, Thursday and Saturday, with a show every night.

WE DOUBLE YOUR GASOLINE EXPECTATIONS

Constant betterment is the spirit of the day. And nowhere is this so strikingly illustrated as in the modern motor car.

Compare the automobile of the present—its beauty of line, its swift, silent motors, its comforts and convenience—with that of former years.

As motors have changed in speed, stroke and bore, there has arisen a need for an improved gasoline to meet these changed conditions.

MARATHON answers the call with the best quality that has been made in years—and at no advance in price.

It's your old favorite--MARATHON--brought to a higher specific gravity—a higher degree of power and perfection—by lowering the "end point."

The sale of this wonder gasoline has surpassed all our expectations—taxing the capacity of our stations and those of our dealers to supply the demand. Users are enthusiastic in their praise—thousands who have never before used MARATHON are flocking to the Green MARATHON Stations for the greatest gasoline value on the market.

If YOU want to know the reason for this success—if YOU want to realize the full possibilities of your car—in increased speed, power, response and all-around improved performance—"Change to MARATHON."

Any MARATHON Service Station is ready to supply you with this wonder gasoline at the regular price—not one cent extra for the extra quality it contains or the extra service it will render.

FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

Better Than Soda

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it, neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle

Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

STATE EXPECTS TO REST TODAY IN HEWITT CASE

DEFENSE CALLS ALIENISTS IN MURDER TRIAL

Last-minute Move to Save Accused Youth.

DEFENDANT IS 16

"Second Confession" in Double Killing Introduced.

JEFFERSON, O., April 19.—Defense counsel for Floyd Hewitt, 16 year old Conneaut boy, this afternoon were to begin the introduction of evidence which they hope will clear the youth of charges of murdering Mrs. Celia Brown and her five year old son Fred, Jr., at the Brown home in North Conneaut, February 14.

The state rested its case at noon and the defense was to start its testimony at 1:30 p. m.

JEFFERSON, O., April 19.—The state today expected to rest its case against Floyd Hewitt 16-year-old Conneaut boy, on trial for first degree murder.

Sheriff F. S. Sheldon, who will probably be the state's concluding witness, was to be placed on the stand when court opened this morning and his testimony was to end the state's evidence against the Conneaut youth, who is charged with killing Mrs. Celia Brown and her five-year-old son at Conneaut last February 14.

The defense will put 12 witnesses and two alienists on the stand in an effort to save the boy from the electric chair, it became known here today.

George H. Voerge, Cleveland chemist, was on the witness stand Monday afternoon, and testified that he had analyzed threads which were still clinging to a button picked up at the Brown home following the murder, and found they corresponded with the shade and texture of the Mackinaw coat belonging to Hewitt. Tests of the coat, Voerge testified, proved that a large spot over a breast pocket was blood-stain.

Earlier in Monday's proceedings, the defense objection to introduction of testimony by the state concerning the "second confession" of Hewitt, was overruled. This statement was simply a reiteration of the first confession, with a few added details.

Court officials today predicted the case would go to the jury about Thursday.

THREE STEEL PLANTS MERGE

Henry A. Roemer, Canton, Heads New Organization.

CANTON, O., April 19.—Henry A. Roemer, president of the Superior Sheet Steel company of Canton, today announced a $15,000,000 steel merger involving his own company, the Kokomo Steel and Wire company, of Kokomo, Ind., and the Chapman-Price Steel company of Indianapolis, Ind.

The new organization, which will own and operate all three plants, will be known as the Continental Steel Corporation. Roemer will be manager and president.

The Kokomo factory is worth about $8,000,000, the Indianapolis plant about $4,000,000 and the local concern approximately $3,000,000.

Roemer said today that negotiations for the merger had been going on for a number of years but the matter was brought to a head only recently. The Superior Sheet Steel company was organized here in 1919, largely with local capital.

FORD ROADSTER REPORTED STOLEN

China Torn

(Continued from Page One.)

The British consul at Hankow has moved his official quarters on board a ship and all the remaining 300 British at Hankow have been concentrated ready to leave at a moment's notice.

Gen. Chiang Kai Shek is moving a strong army to Nanking, the seat of his new government, promising to suppress all Communists.

South China officials at Kiukiang are expecting the arrival of Gen. Ching Chien, who is hostile to Gen. Chiang, and who is reported to have cast his lot with the extremists.

Shanghai was said to be quiet. The defense volunteers have been demobolized and patrol duty is being undertaken by tanks and other mechanical units.

Another Hongkong dispatch reported fighting between Communist students and conservatives in Honan province. The students inflicted numerous casualties upon their opponents before they were overpowered.

Moderates carried out a successful anti-Red campaign at Amoy.

Three Villages Burned.

HONGKONG, April 19.—Three villages were burned in the course of anti-communist operations near Yintek, a town on the North river near Canton, advices from Canton stated today.

Communist students in Honan are reported to have resisted the anti-communist drive, inflicting a number of casualties among the moderates before being overpowered and captured.

Heeding the demands of the powers for protection of their nationals in China, the Cantonese government has supplied all district magistrates with lists of foreign missionaries in their districts. The magistrates were told, reports stated, that it is their duty to protect these foreign workers.

Reports received here indicated that the anti-Communist drive in Amoy, a seaport town about midway between here on Shanghai, was successful.

Chinese Drown as Steamer Burns.

SHANGHAI, April 19.—Many Chinese were reported drowned today when the Chinese steamship Pengpu, carrying 2,000 Chinese civilians and 1,000 Chinese soldiers from Hankow to Shanghai, caught fire in the Yangtze river. Panic followed and fear-stricken men, women and children leaped overboard and were drowned before the Pengpu could be moored. After the vessel had reached the bank, flames were put out, but the ship was badly damaged. She left Hankow April 8.

Japan Tightens Policy.

TOKIO, April 19.—Tightening of Japan's policy toward China was forecast today by the appointment as premier of Gen. Baron Giichi Tanako, former minister of war and the president of the Seiyukai, or opposition party. Tanako succeeds Heijiro Wakatsui, who resigned with his entire cabinet when the privy council vetoed their relief of the Bank of Formosa. Tanaka has consistently advanced a strong Chinese policy.

"We request a continuance until Thursday," said Hanley. "We intend to ask for a mistrial and we want time to prepare a formal notice for the counsel for the plaintiff."

Gallagher immediately said he had no objection as Sapiro desired Reed to end his cross-examination.

"We want the head of the defense to take charge of Mr. Sapiro's cross-examination at all times," said Gallagher. "We want no alibis or excuses from the defense that they were unable to have the head of their defense conduct this examination."

Governor Donahey Reports Veto of Three More Bills

COLUMBUS, O., April 19.—Governor Vic Donahey today informed Ohio legislators that he has vetoed three more measures passed this session: The Marshall bill, proposing to increase the salary of the penitentiary chaplain from $1,500 to $2,500 annually; the Abelene bill, authorizing theft insurance for funds of securities in custody of the county treasurer, and the Roberts bill, to increase salaries of county commissioners and to prohibit them from collecting certain fees.

Cooper G. O. P. Hope For Governor in 1928, Says Warner

MARION, O., April 19.—Myers Y. Cooper, Cincinnati, defeated Republican candidate for governor of Ohio in 1926, is the party's hope for governor in 1928, Fred W. Warner, Marion, chairman of the Republican state central committee, declared here today.

Other party "hopes," according to Warner, will be Edward C. Turner, attorney general, and Simeon D. Fess, for United States senator.

CALL FOR AID FOR REFUGEES IN MISSISSIPPI FLOOD AREAS

Between 25,000 and 40,000 Persons are Homeless.

RED CROSS BUSY

New Breaks Inundate Sections in Illinois and Arkansas.

ST. LOUIS, April 19.—With suffering increasing to sections south of here, the Red Cross sent out an appeal today for contributions to a fund to be used to house between 25,000 and 40,000 flood refugees until the waters recede along the Mississippi river and its tributaries.

New breaks late yesterday to the south of here inundated additional territories in southern Illinois and Arkansas.

William M. Baxter, Jr., in charge of the mid-western branch of the Red Cross in this city, directing the emergency relief in the states of Illinois, Arkansas and Missouri, declared today every resource of the organization, both national and local, was being used to relieve the suffering of refugees.

Railroads Dispatch Tents.

Railroads are co-operating in the dispatch of tents, which are being furnished by the United States army.

The latest break reported occurred in Illinois across the river from Cape Girardeau, Mo., driving 25 families from their homes. These refugees and others between Reynoldsville and Gale, Ill., are being taken across the river to Missouri for safety while hundreds are being housed in tents erected on high ground near Cairo.

The levee break at East Cape Girardeau caused a fall of the river at Cape Girardeau, Mo., and brought the Mississippi to a stationary stage at Cairo, relieving somewhat the anxiety in these two sections. The property loss in this section has been heavy but no loss of life has been reported.

Kansas Rivers Rising.

KANSAS CITY, Mo., April 19.—Southeast Kansas was today in the grip of a flood, the third in two weeks, with rivers rising at a rapid rate following heavy rains.

Burlington, Kas., and Iola, were hardest hit, the Neosho river at the latter place spreading out over lowlands for three miles.

The Cerdigris river at Madison was rising at the rate of 30 inches an hour during the night and by morning had flooded lowlands and driven residents from the town.

Many were again homeless today after they had returned from the two floods last week to set their homes in order.

Several small twisters visited the vicinity of eastern Oklahoma but no lives were lost. At Texarkana, Ark., one was killed and four injured in a tornado.

Ottawa, Kas., 80 miles from Kansas City, was threatened today with inundation. The Maires Des Cygne river had risen to the highest level for several years.

Flood waters were a foot deep on Main street in Burlington, Kas. Two creeks north of the Iola were overflowing and swelling the flood waters of the Neosho.

At Chanute river lowlands were flooded and more than a thousand acres were inundated north of the city.

Heavy rains were reported at Hutchinson and Wichita.

St. Francis Basin in Jeopardy.

MEMPHIS, Tenn., April 19.—With the entire St. Francis basin in jeopardy from a break in the levee near New Madrid, Mo., government engineers today directed the efforts of hundreds of workmen to prevent a change of the course of the Mississippi river at that point.

Engineers said only an act of providence or a sudden standstill in the waters can prevent the Saint Francis basin from being flooded. The water was still rising steadily today, and efforts of engineers were directed toward "topping" the barriers and otherwise reinforcing them.

Reports that the levee at Farrensburg on the Little river had broken were denied, but it was admitted that water was lapping over the side. All night long more than 1,000 men labored to prevent the levee from crashing before the pressure of the high waters.

The flood situation, especially in Arkansas, Mississippi and along the lower Mississipi valley became worse today.

A dozen deaths are more or less attributed to the floods, while nearly 30,000 are homeless, according to Red Cross estimates. Property damage and loss to farmers, as the result of thousands of acres being inundated, is incalculable, but it probably will run into millions.

OKLAHOMA HIT BY WINDSTORM

MEMPHIS, Tenn., April 19.— A severe windstorm, the third in two weeks, is sweeping Oklahoma and eastern Arkansas today. Telephone and telegraph wires to Fort Smith, Ark., and vicinity, have been down since 8:30 a. m., giving rise to reports that Fort Smith had been struck by a tornado.

TODAY

Gwinnett, who signed the will as witness. Gwinnett also signed the Declaration of Independence. His signatures are rare. Mr. Rosenbach bought that Stanley will for $22,500.

Collecting autographs is an interesting survival of fetichism, a strange instinct going back thousands of centuries, to odds and ends that the medicine man carries in his witch bag, to the strange ingredients that Shakespeare makes the witches put into their hell broth, the finger of a babe born in a ditch—the toe of a frog, baboons' blood, etc. In the same spirit, although they don't know it, men collect autographs, feeling that something magical clings to them. A man might pay $100,000 for the original manuscript of Milton's "Paradise Lost," that would refuse to read the poem through if you offered him $100,000 for the reading.

Mr. Gibson, who represents us in the League of Nations, where we have no business, tells European powers that this country would never allow the league to control our armaments. Satisfactory as far as it goes. Why can't we let the league attend to its affairs while we attend to ours?

When the total population of the United States was less than half the population of today's New York City we managed our own affairs without Europe's help. Why should it be impossible for 115,000,000 Americans to do the same?

New York State easily sells bonds to yield interest of only 3.65.

New York City alone has a debt greater than the whole debt of the United States before the war.

What a state, city or nation should fear is not debt, but unwise use of money in exchange for bonds.

Instead of spending our 21 billion dollars to buy dubious securities in Europe, we might well spend those thousands of millions making this country more comfortable and prosperous.

We might even build an air fleet to keep SOMEBODY some fine day from coming over and getting 21 billions more without "by your leave."

A negro applying for admission to a government training camp is told by the War Department that rules make it impossible to admit him. Regulations say colored men must enlist in colored regiments. Camps for colored young men will be established, which may solve the problem.

However, if whites have the right to decide in what regiments and camps colored young men may enroll, it would seem only fair to let the colored young men decide in what particular wars they would be enrolled.

THREE MEN GET JAIL TERMS

East End Youths Sentenced for Tire Theft.

Dale and Everett Brookes, brothers, and Clinton Murrell, East End youths, were sentenced to serve four months in the county jail and to pay the costs in the case when they were taken before Probate Judge Lodge Riddle, Lisbon, yesterday upon charges of stripping an automobile, owned by George Nick, Lisbon junk dealer, while it was parked near the Crubaugh-Chevrolet garage, south of Lisbon, Saturday morning.

Ernest Stitt, fourth member of the party, was fined $10 and costs and made a ward of the juvenile court. Manford Banfield, charged with the same offense and who is at liberty under bond, will face the court later.

The youths were held for action of the county grand jury when they faced Mayor Robert Clark, Lisbon, Saturday night, when they pleaded guilty. Inasmuch as the grand jury does not meet again until September the case was taken before the probate court by Prosecuting Attorney Brookes. Assistant Prosecuting Attorney John Bauknecht prosecuted the youths.

Andrew Birchak, Salem, criminal assault, $2,000 bond. Represented by Metzger, McCarthy and McCorkhill, Salem.

Nathan Jones, colored, Wellsville, burning property with intent to prejudice insurers, 51,500 bond. Represented by Attorney W. A. O'Grady; also indictment charging arson, $1,500 bond.

James Miller, Leetonia, criminal assault, $1,000 bond, counsel to be appointed.

George Shurtz, Salem, uttering and publishing false instrument, $1,500 bond.

George Shultz, John Shultz, Lloyd Rager and Abe Katz, all of Wellsville, larceny, embezzlement, receiving and concealing stolen property, $1,000 bond each. Represented by W. A. O'Grady.

David Evans, Altoona, Pa., operating automobile owned by James R. Dillon, Salem, without consent of the owner, $1,500 bond.

M. McIntosh, East Liverpool, issuing fraudulent checks, $300 bond.

Edgar Vess, East Liverpool, operating automobile without consent of the owner, $1,500 bond.

REPORTS FROM STOCK MARKETS

NEW YORK, April 19.—Unsettlement in the early trading today was the direct result of speculative selling of the industrial stocks, based on the $22,377,000 increase in brokers' borrowings, bringing the aggregate loans on securities to the peak of the year to date. Losses of a point or two were sustained by a number of the high-priced industrial and specialty stocks, oils continued under sharp selling pressure, while the rails were firm under comparatively light trading.

Bearish professionals launched an aggressive attack on various sections of the market, in an effort to "shake out" some of the weakly held stocks. Marland and Phillips were pounded down to the year's low prices in a deluge of selling orders, but the balance of the oil list held firmly, having the benefit of a 14,000-barrel decrease in weekly crude oil production, and an intimation that price-cutting had about run its course in both crude oil and gasoline.

The Japanese yen, which has been under pressure in the last few days, scored a moderate recovery at the opening of the foreign exchange markets. Call money renewal rates were unchanged at 4 per cent, with funds in good supply. After a firm opening, cotton eased off a few points, while grain markets were irregular, with narrow price changes.

United States Steel common and "new common" were freely offered in professional quarters in the second hour, on the theory that the good news was "out," and that profit taking would therefore be in order. The stock declined about two points to 170½. DuPont and Fox Film lost about three points, but recovered. The oils appeared to be in a "sold out" condition and moderate rallies were scored by the PanAmericans, the Standards and a few of the independent oils. Coppers were steady and sugar stocks firm.

Coolidge Lauds Secretary Hoover As Capable Aide

WASHINGTON, April 19.—President Coolidge today took steps to correct the impression that he had "rebuked" Herbert Hoover when he stated last week that Secretary of State Kellogg was not resigning, and that if he did resign Secretary Hoover would not be appointed to succeed him.

In the regular press conference today, President Coolidge explained that no rebuke to or reflection on Secretary Hoover's abilities had been intended. The president explained that he considered the secretary of commerce highly capable of filling any post in the cabinet, and that he had meant to convey only that Hoover's work in the department of commerce was too important to be dispensed with.

ROTARY HONORS ESSAY WRITERS

Eight Boys Given Fountain Pens at Luncheon.

One hundred and fourteen boys in the public and parochial schools, winners in the book-reading and essay-writing contest conducted by the club, were guests at the Rotary luncheon meeting in the Ceramic cafeteria hall, West Fifth street, at noon today.

Eight guests, ranging in age from 6 to 16 years, whose essays were judged the best written among other contestants in the same grades, were awarded fountain pens. They were:

Randall Green, Central school, first grade; William Hodgson, St. Aloysius school, second grade; William Wurzel, St. Aloysius school, third grade; C. M. Tarvar, Horace Mann school, fourth grade; Edward Weigle, Sixth street school, fifth grade; John Rayl, Central school, seventh grade; Rigby Mast, Central school, eighth grade. Donald Ogilvie, Lincoln school, was the sixth grade winner.

To every school room where every boy qualified by reading two or more books during the term and writing an essay on the subject, "What I Liked Best About the Book I Read," will be given an American flag or a framed picture of Lincoln or Washington. Eighty-four rooms qualified for these prizes.

Charles Boyce, chairman of the boys' work committee, under whose auspices the contest was conducted, presided. He was introduced by President Martin Abbott, club president.

Program for the meeting was given by eight boys from the Horace Mann school, in charge of Miss Maud Baum, principal of the building, and Miss Phyllis Boyd, teacher. Every boy in this building for the last two years has qualified in the Rotary club's annual contest. The program included chorus and orchestra numbers, with Miss Boyd as the accompanist.

Students of the Carnegie Institute of Technology, Pittsburgh, will visit East Liverpool next Tuesday, when they will be guests of the Rotarians at a luncheon meeting. Herbert Brenneman will be chairman of the meeting.

TWO UNHURT AS BEAVER CREEK BRIDGE FALLS

Tractor Plunges 25 Feet; Another Man Jumps.

MACHINES ARE O. K.

Contractors Begin Work on Temporary Span at Williamsport.

Construction of a temporary bridge across Beaver creek at Williamsport, was started by Williams, Howard & Smith, Youngstown contractors, today, following the collapse of the old iron structure Saturday, when two tractor drivers narrowly escaped serious injury.

The temporary span will be used by the contractors until the new concrete bridge, to be erected at another point along the creek, is completed. Other traffic along the road will be required to cross the creek at a shallow ford a short distance below the site of the old span.

Two Fordson tractors, one of them attached to a road scaper, were pasaing over the bridge when the main girder, approximately 100 feet in length, buckled without warning. One of the men leaped from his seat on the tractor to the end of the bridge, but the other workman dropped with his machine to the bottom of the creek, about 25 feet below.

In the fall the driver's hip pocket was caught in a part of the machine and he was held fast in about three feet of water until he was extricated by fellow workmen. He was not hurt. Neither of the two tractors were damaged.

The bridge was erected in 1890, and several years ago was condemned for heavy vehicles. The weight of the tractors and other materials, which the contractors have been transporting across the bridge, is believed to have been too great a strain

County commissioners and County Surveyor Lloyd C. Kirk visited the scene of the accident yesterday afternoon after word was received in Lisbon.

The contractors, in charge of road grading work between the Township Line school and Williamsport, plan to have the new span across the creek completed before fall. Surfacing work on this road will also be completed before that date.

This whole-grain food
brings extra flavor—extra nourishment

The natural, unspoiled flavor of the whole grain—that's what makes a bowl of Mother's Oats taste so good. It cooks so smoothly, too—and you can always count on it being the same.

For the careful millers of Mother's Oats have learned how to make oats finer—smoother—more uniform—through 50 years of experience.

Children notice the difference at once.

And mothers are especially glad to see their growing children enjoy this nourishing breakfast. They know how child health specialists are urging the whole grains these days.

Mother's Oats with milk makes a liberal contribution of vitamins—minerals—protein and other elements that are necessary for sound and perfect development.

Two kinds—the kind you have always known or Quick (cooks in 2½ to 5 minutes). Both with coupons interchangeable with Aunt Jemima coupons, good for silverware and many other handsome articles.

BORER CONTROL WORK LAUNCHED

Two Machines Operated by Tractors Remove Corn Stubbles.

Two stubble pulverizers for Corn Borer Control work are in operation in Columbiana county, and others are expected this week. These machines shred the corn stubbles as they stand on the ground. They are operated with tractors. One was placed in use in a 50 acre field on the Croxall farm in St. Clair township, and the other began work in a 50 acre field on the Firestone farm near Columbiana.

A public meeting was held in connection with the operation of the pulverizer at the Croxall farm Tuesday afternoon. A similar meeting has been announced for two o'clock Wednesday, at the Firestone farms. The other machines will be used in various parts of the county where farmers make applications for them. Six cars for use of the Corn Borer inspectors in Columbiana county also have arrived.

The Inspectors received instructions and began work Monday. Those appointed are: E. N. Hickman, East Liverpool, St. Clair, Madison and Elk run; J. M. Kerr, Wellsville, Liverpool, Yellow Creek and Washington townships; C. W. Alexander, Lisbon, Center, Wayne and Franklin townships; J. C. Gaston, Clarkson, Middleton, Unity and Fairfield townships; Ray Millen, Columbiana, Salem, Perry and Butler townships, and Walter Humphrey, E. Rochester, for Hanover, Knox and West townships. Other inspectors are expected to be appointed later.

Persons wishing to use a Government stubble pulverizer must make application to their respective inspectors. A charge of $1.00 per acre is made for use of the machines, this being deducted from the compensation allowed for clean-up.

ROAD GRADING PLANS APPROVED

Plans for the improvement by grading of the East Palestine-East Liverpool intercounty highway were approved by the county commissioners Monday afternoon. This road is to be graded this summer between Calcutta and Negley in Middleton township, bids for which work are now being asked by the commissioners. Grading on this project has been estimated at over $180,000, but because of considerable "casting" being possible on this job, the commissioners are of the opinion the contract will be awarded at a price considerable under the estimate.

The commissioners have also been informed by the Middleton township trustees of their intent to make temporary improvement on the Achortown road, which intersects the East Palestine-East Liverpool road.

BOOKLET MAILED WOOL PRODUCERS

A few minutes devoted to the preparation of wool for market at the time of shearing may make as much as five to ten cents a pound difference in the price received for that wool, according to a booklet on the "Preparation of Wools for Market," a supply of which has just been received by the Columbiana County Farm Bureau. The booklet, by J. F. Walker, now consulting specialist for the United States Department of Agriculture and R. A. Hammond, and has been mailed to nearly 10,000 wool producers of the state by the Ohio Wool Growers' Cooperation association.

Ohio wools have long set the standard of wools for the world, and are in most demand by mills, according to the booklet. Growers for their own benefit must exert every effort in the production and preparation of their wools to keep wools up to that standard.

COUNTY REPORTS CATTLE INCREASE

The Northeastern district of Ohio, which includes Columbiana county, ranks third in the state, according to information just received by County Agent Floyd Lower in the increase number of heifers kept on the farms for milk purposes. The rate of increase is 6.3 per cent over previous records, records received by Mr. Lower show.

Cows and heifers are greater in number now than a year ago, and only 30,000 less than the 1925 records disclosed. There are 38,000 fewer dairy cows than there were in 1925 but 8,000 more heifers. The increase in the number of heifers shows a larger potential supply of milk and reflects, according to Mr. Lower, the confidence the producer and distributor in the present economic method of marketing milk.

Milk prices paid the farmer are higher this season than a year ago, and the present market is likely to continue indefinately.

Deed Correction Sought.

A petition has been filed in common pleas court by Georgia Davidson against Lee R. Mackey seeking the correction of a deed and other equitable relief. The plaintiff purchased part of lot 10 in M. K. McKinnon's Ohio city addition for $125 June 14th, 1926 for which a warranty deed was given. Since that time, certain errors in the deed have been discovered, and the court is now asked to reform the instrument. Hill and Davidson are counsel for the plaintiff.

Property Transfers.

Real estate transfers have been recorded as follows:

James Cooley and others to the First Methodist Episcopal church, Salem, lots 324-325 Street's addition, Salem. $6.500.

Marion Grama to Ana Grame, part lot 277, Street's addition, Salem. $3,500.

Robert L. Farr and wife to John Fory and others, 3.4 acres, section 2, Perry township. $1.

Levi Yoder to Mary E. Risher, 8.02 acres, section 8, Fairfield township. $1.

Joseph P. Rhodes and others to Mabel Rutter, lots, 6-162, Brooks' second addition, Salem. $1.

Marriage Licenses.

A marriage license has been issued to Albert V. Birkey of Columbiana and Miss Bertha Schultz, daughter of Mr. and Mrs. George Schultz also of Columbiana.

Curtis W. Grindle of Washingtonville, a machinist and Thelma L. Richards of Washingtonville, but a former resident of Lisbon, and daughter of Mr. and Mrs. Henry Richards have been granted a marriage license.

Jacob Holzer of Alliance, and Melvina Paxson, of Salem, daughter of Mr. and Mrs. Harry Paxson after obtaining a marriage license returned to Salem where they were to be married by the Rev. Collier.

Guardian Named.

W. H. Spence has been appointed guardian ad litem for the minor defendants in the partition action pending in common pleas court wherein Alice Sharp is plaintiff and Harry R. Hogue, defendant. The court has issue an order of partition. The commissioners are George Sharp, M. A. Brewster and D. E. Shamblen

S.S.S. helps Nature build up red corpuscles. It improves the processes by which the blood is nourished.

"I suffered from impure blood—was weak, and I had lost so much weight, I didn't look natural. I had pimples and was also bothered with a breaking-out that itched terribly. I also had boils one after another. I tried different kinds of remedies, but nothing did me any good until a friend advised me to take S.S.S., which I did. This was some time ago. Now I feel well, and I am getting along fine. S.S.S. stopped the itching and it cured me of boils. I advise all weak and run-down people to give S.S.S. a trial. I clears up the skin and makes you strong and fills you with energy." Mrs. J. W. Barker, 1337 Walnut Street, Cincinnati, Ohio.

S.S.S. is made from the fresh roots of medicinal herbs and plants and is prepared in a scientific way in a modern laboratory. It is time-tried and reliable.

Tunney's Price For Next Title Fight Near Million Mark

Champion Is Said To Favor Philadelphia As Scene of Battle

And, Figured From the Money End, Experts Agree That no One Else But Dempsey Will do as Opponent, if he Ca n "Come Back."

By Davis J. Walsh.

NEW YORK, April 19.- Gene Tunney will take for his piffling bit of the next heavyweight championship fight the sum of $900,000, provided both the opponent and the scene of the great harvest are conducive to results, the writer learned today. It will be paid in the form of a guarantee, amounting to $525,000 laid right on the line before Tunney so much as lifts a glove, and a cut on the receipts, amounting to 50 per cent of all box office money in excess of $1,050,000.

Tunney himself and in person, not a vitaphone, will arrive in New York within a matter of several days primarily to collect the interest on the dear, old mortgage but incidentally to press Tex Rickard for an answer as to whether the heavyweight title fight will be dropped down in Philadelphia or New York or neither. The young man, they say, wants to fight this one in New York for old timos sake or words to that general effects. But I'm not compelled to believe it and I don't.

In fact, Tunney has told friends that he wants to defend the title in the city where he won it, Philadelphia. This automatically would provide the proper setting for that $900,000 purse and it would be up to Rickard to provide the proper opponent, who, figured from the money end, can be no one else but Dempsey.

The boys, as a matter of fact, have it well figured in advance, leaving not a loose end except for the question of whether Dempsey can fight above a whisper. The last Dempsey-Tunney match drew about $1,800,000 in Philadelphia and there you have the answer to that odd sum on the percentage cut. Take $1,050,000 from $1,800,000 and you have a remainder of $750,000. Tunney's 50 per cent drag on this would be $375,00, which added to his guarantee, brings the total up to $900,000, exceeding Dempsey's record purse of last September by $150,000.

In brief, Dempsey is the necessary opponent; Philadelphia is the necessary scene, unless there is something in this talk about shifting the bout to Chicago, where as many, if not more, cloak and suit men can be accomodated. Anyhow, the word is that it will not be New York for several reasons.

One of them is said to be Tunney's irritation over the fact that New York would have none of his challenge of Dempsey last summer. Another is the financial and, therefore, more pressing reason that New York, as its present scale of prices and the size of its ball parks, cannot compete with the other two cities on receipts.

The boys may be in the game merely for the improvement of the breed of patrons, or something, but they want you to know that they can't improve anything, not even a three-card flush, without money. They got it in Philadelphia last time with Dempsey: they will try again with him, if he can be mustered out of his skin eruptions, and without him only under violent protest. No one else will ever get $1,800,000 worth of customers out in the open, Tunney or no Tunney.

AT LOS ANGELES:—Bud Taylor, Terre Haute, won by technical knockout over Young Nat, Philippines, Fifth round.

AT TORONTO:—Newsboy Brown, New York, defeated Alex Burlie, Canada, 10 rounds.

Do Clothes Make This Man?

A Disputed Matter Settled for All Time

Take a good look at the picture above. There's your answer: Faultless evening clothes are powerless before a face like that. No, sir, clothes do *not* make the man—

—And neither does a fancy label in red, blue or pink make a can of malt. It's the man inside the clothes and the malt inside the can that counts. What's inside a Puritan Malt can? Choicest No. 1 barley, blended with the Genuine Imported Bohemian Hops. And concentrated in that can is Puritan's many years of experience in producing Richness, Strength and Flavor.

You can have your private yacht

GIVE me a pipe and Prince Albert, and you can have your cabin-cruiser and your winter vacation. I won't envy you for a minute. In fact, I wouldn't trade places with anybody. I could even be happy on a desert island with a pipe and plenty of P. A.

You'll understand my enthusiasm for this prince of smokes the minute you open the tidy red tin and get a whiff of real tobacco. But that's only a starter. The taste more than lives up to the promise of the aroma. Tuck a load in your jimmy-pipe, light up, and *see*.

Cool, as a breeze from the forward deck is cool. Sweet, with a sweetness that doesn't tire. Mild as milk, yet with plenty of body to let you know you're smoking. P. A. is neither too heavy nor too light, which makes it the middleweight champ, so far as I'm concerned.

Telling you about Prince Albert is one thing. Trying it in your pipe is another. You'll never know exactly what it is that holds millions of happy jimmy-pipers to this one brand until you make the personal test. When you do, you'll say I did you a favor in tipping you off.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

CLASS MEMBERS TO HOLD SESSION

Loyal Men's class of the First Church of Christ will meet in monthly session tomorrow night in the home of Paul Stine, Newell Heights. Members will meet at Tim Robinson's store at 7:30.

Following the business session a social hour will be enjoyed during which refreshments will be served.

EXTRA SESSION MAY BE CALLED

Legislative leaders at Charleston are discussing the possibility of an extra session at the close of the present meeting on Friday, April 29.

Large number of important measures remain on the calendars of both houses and it is feared that time will not permit a full discussion of the merits of the relative proposals.

PRACTICE SESSION HELD BY PLAYERS

Large number of candidates for pieces on the Homer Laughlin baseball team reported for the first practice session of the season last night. The work was directed by Manager Dailey.

The club is expected to be one of the leading contenders in the Industrial league which will open its session on Saturday, May 7. Several practice games will be staged prior to the opening.

Commencement Exercises.

Annual commencement exercises of the Grant district high school will be held in the Presbyterian church on Friday, May 20. The address to the graduates will be given by Rev. L. J. Davison, pastor of the First United Presbyterian church, East Liverpool.

Cleveland Clock-maker Found Beaten to Death.

CLEVELAND, O., April 19. — A search was being made today for the murderer of John C. Compton, 31, clock-maker, employed by the Webb C. Ball company here, who was found beaten to death near Chagrin Falls, late Monday night.

The body was found, with several deep gashes on the head, in a shack just outside the Chagrin Falls corporation line, by Joseph Fazekas, owner of a barbecue. Furniture was strewn about the shack, indicating that a terrific struggle had taken place.

Compton had been missing from his home here since Sunday, and relatives and friends were hunting him when the crime was discovered.

Police say John Burbridge, his wife and 15-year-old son, who occupied the shack near Chigrin Falls, are missing. Neighbors told detectives that the Burbridge family drove away from the cottage about noon Monday.

A bottle, which had apparently contained liquor, was found in the shack, police declared.

NATS SAVED BY THURSTON

Stops Macks, 4-0, and Hangs up Second Straight.

By Les Conklin.

NEW YORK, April 19.—They say that one man's paradise is another's prison, and maybe that accounts for the fact that Hollis Thurston, who won only six games for the White Sox last year, is leading the Washington pitchers today with two victories and no defeats. After holding the Red Sox to four hits last Thursday, the young man came back faster than a bad check yesterday and whitewashed the Athletics, 4 to 0.

Thurston is proving to be a lifesaver for Stanley Harris, whose pitching staff was crippled before the season started by the injury to Walter Johnson. He apparently has regained the form which once made him one of the leading pitchers in the league.

The Senators made all their runs in the first inning yesterday. Bluege made his first hit of the season with the bases jammed.

Dutch Ruether, of the Yankees, also won his second game within a week's time, blanking the Red Sox, 3 to 0. He allowed but three hits. The Yanks now have won six straight and apparently are determined to clinch the pennant by the Fourth of July.

The third pitcher of the day to win his second game this season was Lee Meadows, of the Pirates, who held the Cubs to four hits and beat them, 9 to 1.

Riggs Stephenson, converted from an outfielder into a third baseman by Manager Joe McCarthy, got to dreaming about his football days at the University of Alabama and booted two grounders for perfect drop kicks.

The Giants kept pace with the Pirates by nosing out the Braves, 11 to 10, in the eleventh inning. The Braves took a lot of beating and tied the score three times, once with a six-run rally.

The Brooklyn Dodgers, who apparently are endeavoring to discover a new route to China via the National league cellar, lost to the Phillies, 7 to 3, for their sixth straight defeat. Cy Williams and Irish Meusel each hit homers with two men on base.

Ted Blankenship, of the White Sox, drove in four runs with a double and a home run but lost to the Browns, 5 to 4. Gaston, who pitched for the winners, also hit for the circuit.

Cleveland managed to take a 3 to 2 decision from Detroit. Levsen weakened in the ninth but Buckeye, who relieved him in the box, stopped the Tigers in their tracks.

BOWLING COLUMN

City bowling sharks last night opened their drive on the maples in the inaugural performances of the Liberty singles and doubles duckpin tournament which will last through the week.

Five matches were turned in last night, with Johnny Green leading the list with a score of 508 for three attacks. Green rolled 171 the first game, 166 the second and another 171 in the third.

D. Irwin rolled two 141 scores and a 142 for a total of 424.

Majority of the singles bowlers will turn out tonight and tomorrow night.

Doubles will be started on Thursday night.

Cash prizes have been hung up for the winners.

Last night's scores:

L. Irwin	141	141	142—424
Blythe	139	112	111—362
Greene	171	166	171—508
Troiseme	95	125	149—369

TAYLOR ANNEXES NEW RING SCALP

LOS ANGELES, April 19.—A new scalp dangled today from the diamond studded belt of Bud Taylor, the "blond terror of Terre Haute," who is recognized in 18 states of the union as bantamweight champion of the world.

Taylor's latest victim is Young Nationalista, who succumbed to a technical knockout in the fifth round in the main event at Wrigley field here last night.

After a poor start in the first round, Taylor came out like a panther and buried the Filipino under as one-sided a whipping as had been seen in any local ring.

In the semi-windup, George Godfrey knocked out Leon Chevalier in the fourth round of a scheduled ten round bout. Both are negroes and weighed over 200 pounds.

Recreation League Session Tomorrow

Will Wind up Plans for Opening of Season; Rules to be Submitted to Managers.

Representatives of 16 Recreation baseball league teams will meet tomorrow night at 7:30 at the Review-Tribune to wind up details incidental to the launching of the "soft ball" game in the East Liverpool district.

The following teams are requested to have managers or other representatives at the session:

Northside, Heimies, Printers, Bulger Drugs, Smith News, Homer Laughlin, Ohio Power, Brian Clothiers, National Furnitures, Roselawns, Laughlin, East End (2), Laughlin Acmes, Smith Phillips, K. T. K. Decorators, Y. M. C. A.

Managers will be required to file entry fees at tomorrow night's meeting, the fees to cover merely actual expenses of the circuit for the season, such as umpires and the purchase of a small amount of initial equipment.

The rules committee, following a recent session, constructed the following code, which will be submitted to the league tomorrow night:

"The rules of regular baseball shall govern all but the following exceptions:

Pitching.

"The pitcher must take his position facing the batter and when in the act of delivering the ball to the batter must keep one foot in contact with the pitcher's plate. He must face the batter at all times. He shall not take more than one step forward in the act of delivering the ball to the batter, but he shall not be restricted as to curving the ball. The arm, however, must be swung parallel with the body, and the ball shall be delivered underhand.

Batting, Base-running, Etc.

"The batter is out if he bunts. The batter is out when three strikes are called whether the catcher holds the third strike or not. The batter, as in regular baseball, shall be entitled to take first base on four balls. A base runner must not leave his base while pitcher is standing in the box holding the ball. A base runner must not leave his base on a pitched ball not hit, until the ball has reached or passed the catcher. He shall be called back for premature starting. A base runner must be on the base when the pitcher is ready to deliver the ball to the bat.

"If a base runner leaves the base too soon, and the batter hits the ball in fair territory, the base runner is out but the batter may take as many bases as possible except if this is the third out. Such batter shall be first up in the next inning.

Base Lines and Pitcher's Box.

"The base lines shall be 60 feet long and the pitcher's plate shall be 38 feet from the center of home plate.

The Bat.

The bat shall be not more than 2¾ feet long and not more than two inches in diameter. The handle must be taped.

Equipment.

"It is suggested, but not compulsory, that players wear rubber soled shoes. In any event, spiked shoes are not permitted. The catcher is the only player permitted to use a glove, which must be a fielder's mitt.

Teams.

"Squads shall be limited to 12 players. Nine players shall constitute a team on the field, but teams shall be allowed to play if at least seven men are present.

"Players cannot transfer from one team to another without the consent of the respective managers of the two teams.

These minor changes are necessary in view of the type of game, the shortness of the diamond and other peculiarities of playing.

STRAIGHTS WIN LEAGUE CONTEST

Beating the rival Right Angles in a nip and tuck tilt yesterday afternoon the Straights won their second consecutive clash and undisputed possession of second place in the league standing, a half game ahead of the Centrals. The final count was 5 to 4.

The game marked the second defeat for the Rights in seven starts to date.

Bartley and Rabenstein were on the points for the winners while Kimble and Hindes were batterymates for the losers.

League Standing.

	W.	L.	Pct.
Right Angles	5	2	.714
Straight Angles	3	4	.429
Central Angles	2	4	.333

With a 60 foot base line, for instance, almost any player fast on his feet could make first on a bunt. The defense would be almost impossibly handicapped.

And in the matter of base stealing, the base runner must be kept on the sack until the ball reaches the catcher. Were he allowed a lead, the defense would have no chance at all. With the rule changed, it gives both sides an even break.

And while 38 feet may seem a good distance for an underhand pitch, batters will realize before the season is long under way and the respective hurlers have gotten pretty well warmed up and begin to zip the ball across that it's not so far after all.

AT PHILADELPHIA:—Honeyboy Finnegan, Boston, defeated Frankie Fink, New York, 10 rounds.

AT ATLANTIC CITY:—Dave Adelman, Philadelphia, knocked out Charlie "Kid" Lewis, Philadelphia, first round.

AT NEWARK:—Joe Glick, Brooklyn, knocked out Bobby Jones, Newark, first round.

CHARLES RAY AT AMERICAN

Other Stars Appear in Cast of "Fire Brigade."

"Tears are useless in playing upon the emotions when used indiscriminately," declares Eugene Besserer, who portrays mother love with piognant effect in "The Fire Brigade" now playing at the American theatre. "As everyone knows, one always feels worst just before one begins to cry. The tears bring relief. For that reason an audience realizes on seeing an actress cry that the crux of her emotion is past."

Miss Besserer resorts to tears but once in "The Fire Brigade," in which May McAvoy and Charles Ray have the leading parts. Other players in the cast of this big Metro-Goldwyn-Mayer feature spectacle—one of the most absorbing love stories ever screened—are Holmes Herbert, Tom O'Brien, Warner P. Richmond and Vivia Ogden. William Nigh directed.

Start the Day Right

Just a little Kruschen in your morning cup

There's no need to envy those jolly, cheerful people who are always brimming over with fun and energy. Take two tablets of Kruschen in your morning tea or coffee. You can't taste it. You won't know you are taking salts, but you will soon notice the difference.

Any why?

Because the ingredients of Kruschen Salts are necessary for healthy life. You body must of necessity obtain these ingredients from somewhere, or you could not live. Normally your system should extract these vital salts from your food, but owing to sedentary occupation, errors of diet and overwork your system does not extract from food the correct proportions of these essential life-giving salts. Then what follows? Depression or headaches, constipation, or disordered liver, inactive kidneys, rheumatism, gout or sciatica, lumbago, or eczema—many of which arise from excess of Uric Acid, which is the cause of more troubles than many people suspect. Kruschen Salts should be your safeguard. Besides cleansing the body of impurities, they give new life and vitality to the whole system, mind and body. Tasteless in Coffee or Tea It's the little daily dose that does it.

(Continued from Page Four)

careful weighing of many problems. It calls for study of complicated relationships. Trades and industries are entering new fields. Business units and conditions are changing. New points of contact with government and within commerce and industry are being developed.

"Business is achieving so many new things even the best observers can not keep abreast of them all. Industries are changing with new invention and the application of new methods. Selling goods at home and abroad is bringing out new features of distribution.

"The annual meeting of the National chamber will survey economic trends with the purpose of determining their meaning, with the hope of throwing light into the future. It will bring to bear on our national economic problems the best business thought of America. From it will come a program setting up principles to serve as guideposts for the future."

At one of the general sessions business problems from the viewpoint of the East, the South, the Mid-West, and the West will be considered. Surveys of business conditions will be presented by four outstanding business leaders, representing their respective sections.

At another session the future of business will be discussed in detail. Dwight B. Heard, of Phoenix, Ariz., will present the agricultural phase of the question; Charles W. Lonsdale, of Kansas City, will speak on Civic Development; Theodore F. Whitmarsh, of New York city, on Domestic Distribution; Felix M. McWhirter, of Indianapolis, on Finance; Henry D. Shrarpe, of Providence, R. I., on Foreign Commerce; H. A. Smith, of Hartford, Conn., on Insurance; A. J. Brosseau, of New York City, on Manufacture; Milton E. Marcus, of Richmond, Va., on Natural Resources Production; and A. L. Humphrey, of Pittsburgh, on Transportation and Communication.

Handled in Great Detail.

All these topics will be handled in great detail in group sessions. For example, the Civic Development unit will delve deep into the subject of what kind of buildings cities should have in the new business era, with Hugh R. Pomery, of the Los Angeles County Regional Planning Commission, leading the debate. Harvey W. Corbett, a New York architect, will advocate skyscrapers, while Major Henry Curran, of the New York City club, will oppose them. Realtors will have their innings when Arthur S. Bent, of Los Angeles, representating the National Association of Real Estate Boards, is heard.

The Finance group will feature taxation, stressing the idea that the Federal corporation income tax should be lowered and suggesting improvements in the Federal tax system. Manufactures will consider primarily the labor angle of production with special reference to wages in their bearing upon costs and to the future of industrial relations.

The resolutions of the Transportation and Communication group will touch upon the integrity and independence of the Interstate Commerce Commission, postal rates, and the relations of commercial organizations to aeronautical development and the city traffic problem. This group will oppose ownership of merchant shipping and the one on Natural Resources likewise will make it clear that the Chamber of Commerce is against government of the hydroelectric industry.

In addition to its serious features, the program for the annual meeting has its lighter moments. For one thing, there will be a golf tournament with an entry list so large that all the golf courses in the vicinity of Washington will be utilized. Then there will be a sight-seeing tour of the city and a trip to Mount Vernon by water.

Still another of the diversions will be the showing of a series of motion pictures in which Will Rogers, the comedian, will be the star. Some months ago Rogers appointed himself a special adviser to President Coolidge and gave the president a great deal of unsolicited advice in a number of European letters that were published in a magazine.

It seems that the Oklahoman who throws the lariat and language with equal facility had a photographer with him on his travels, with results that are to be revealed in the film, "Our Unofficial Ambassador Abroad."

HATTIE

By Samuel Merwin

SYNOPSIS:

HATTIE JOHNSON, just 17, is a somewhat colorless little girl, who works in the mailing room of a printing and bookbinding establishment. One day a girl who had formerly worked in the mailing room comes to call. Her name is

LUCILLE OVERMAN, and she is now working in pictures. She takes Hattie to the studio where she, Lucille, is to have a screen test. Hattie there is seen by the famous director,

DE BRISSAC, who makes a screen test of her and offers her a contract. Hattie lives with her married sister,

ALICE, and her baby daughter, Emily, and

GRANDMA, a querulous semi-invalid. They all start for California with De Brissac, who suggests books for Hattie to read to "form her mind." On the train she meets

HENRY O'MALLEY, De Brissac's head camera man, de Brissac makes love to Hattie as part of her training for screen work and Hattie seems powerless to resist him. She refuses to go with him on his yacht away from her family, however. O'Malley, to whom she becomes engaged, advises her to try to get work at another studio and invites a lawyer to look over her contract with De Brissac. A rival studio gives her a part and she goes to work for them.

She is a failure without De Brissac and finally she sees him in a restaurant. He asks her not to tie up with the other concern for more than one picture.

Then Alice's husband, who has deserted her some years before, comes back—one more for Hattie to support.

Hattie meets Lucille and tells her her troubles. Lucille advises her to go back to De Brissac in spite of his love-making.

The De Brissac picture is advertised and Hattie gets many fan letters.

CHAPTER TWENTY-SIX.

"The big banks use signing machines—" Arthur putting in, with a touch of assertiveness—"so that one signing makes a lot of little arms go. There was a picture in a magazine. Something like this." He was drawing on an envelope.

Mr. Harbin listened and looked with courtesy; then said—

"By the way, we're having a private showing of Bagdad at the studio this evening. I don't think you've seen it, Miss Johnson."

"Only the daily runs of my scenes."

"Well, Mr. Zeeck asked me to extend a cordial invitation to you." "I'm sure he'd be delighted to have you all come."

"Somebody'd have to stay with Emily and Gran'ma."

"I'll stay," said Arthur.

Alice considered this in some doubt. Said—"I think I'd better stay." She was disappointed. "But you could go, Arthur."

"I'm going to see Henry anyway," said Hattie. "I suppose he and I'll go together."

"My sister's engaged to be married, Mr. Harbin." Alice.

Hattie colored. She felt that Alice shouldn't have told. The family had lately had to know, as an explanation of their constant meetings and dinners and rides. But a moment later, after Mr. Harbin had said—"Oh indeed! I do congratulate you Miss Johnson. It's a happy time for you all around, isn't it!". Her eyes lingered on his genial face. Somehow she felt that he knew. Come to think of it, he would know. They always knew things at the studios. They knew everything. She heard the gossip. They had engaged Alice Armentiere for star parts because they knew she was Robert Ring Rush's girl, and they were really after Robert Ring Rush. He was a great director. They moved in those indirect ways. Yes, they always knew things. Possibly they knew all about her meetings with de Brissac. Perhaps they knew she was actually in the room when that dark girl . . . she musn't flush . . . she hastily resumed opening letters . . . probably this was success, all those letters that had to be somehow laboriously answered, all the cheap prints of still pictures that would have to be sent. She didn't feel successful, she felt hunted.

After supper, Alice followed her into the outer hall—after Henry blew up the speaking tube—and said—

"Arthur feels rather badly, Hattie, because you don't seem to value his judgment about things. He has had a lot of practical experience, you know. And he's the only man we have to lean on . . . Oh, Hattie, I know I seem sharp and cross sometimes, but I don't want you to think I don't appreciate all you . . . my life's been pretty hard. I know my nerves are worn to wires. More than once I've wondered they didn't snap. And if you knew what it means, after the years, to have him back. . ."

Hattie tried to smile as she ran down the stairs. At the landing, as she turned, she contrived to smile, and waved her hand. She couldn't say anything. There was something that didn't feel right about Arthur. She didn't know what it was. But it bothered her.

It was unexpectedly stirring to sit in the dark projecting room and know that Mr. and Mrs. Zeeck were at her elbow, and other notables of the lot. She had wondered, riding over, sitting very close to Henry, if de Brissac would be there. He wasn't. The lot was a strange place without him. Rather a ghostly place, in which her unstable adolescent mind wandered like a wraith over familiar scenes that were now empty and still under the clear California moon.

The picture opened with double exposures of Rome, Damascus and Bagdad in an architectural frame, fading into flames and ruin as the title came softly into view; and then, with another fade, the billowy desert appeared behind the lettering with a line of camels, heavily laden, plodding in silhouette along a near horizon. De Brissac's name came next, of course; then the usual crowded list of minor claimants for publicity—camera men, technical and art directors, electricians, scenario and continuity writers and what not, and then an oddly familiar scene, an entrance to a palace, with a little beggar maiden sitting on marble steps . . . herself . . . reaching out her hands plaintively, trying not to sob . . . letters began fading in, the name, "Harriet John."

Hers, then, was the second most conspicuous name on this great picture. De Brissac had done precisely as he promised. She had to fight down an unnervingly friendly glow toward him. He hadn't even done it for her; he had simply dared to hold to his plan, to present an unknown girl as a star. Her desertion of him, without a word of explanation, her plighting troth with another, a mere camera man—oh, he knew it, he knew it!—had not even swerved him from his course. More, as the picture swiftly progressed, it was clear that he had made no slightest error of judgment. The girl on the screen was wonderful. She seemed to be someone else. Hattie remembered, clearly enough, the dreary work in each of the scenes, but the effect of putting them together, the story-surface of the picture, came to her as a new thing. She was absorbed, moved, thrilled. Henry, too, was thrilled. He held her hand, there in the dark, so tightly that it hurt, and she didn't mind. The distinguished little audience felt the thing, too, as did she and Henry. They murmured, and applauded. Some of them cried; you could see that when the lights came on between the reels.
